Future Perfect

A completed action in the future. It is most often used with a time expression.

- o **I will have been** here for six months on June 23rd.
- o By the time you read this **I will have left.**

Future Perfect Continuous

The immediate future

This pattern is used to refer to a time immediately after the moment of speaking, and emphasises that the event or action will happen very soon. We often add the word *just* before the word *about*, which emphasises the immediacy of the action.

Future Obligations

It is similar in meaning to *must*, but there is a suggestion that something has been arranged or organised for us.
