

StickyNotes App

Search Feature

StickyNotes App

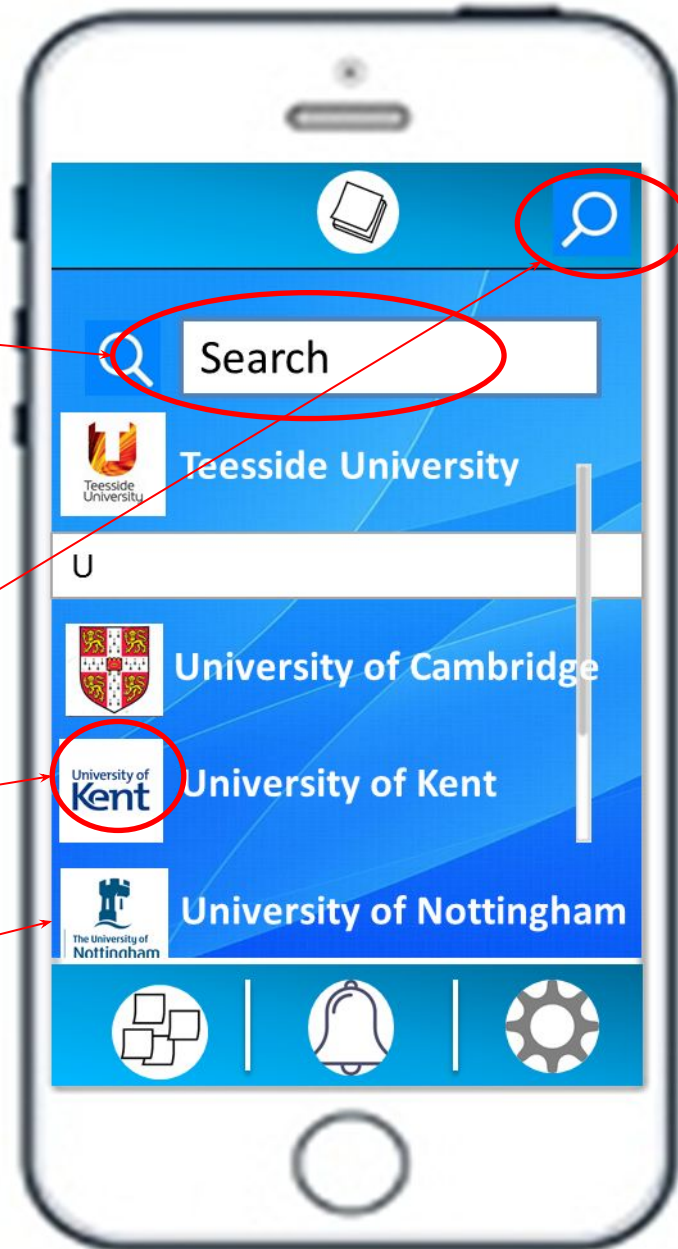

Search Feature

Search app database for community made module/topic sticky notes

Accessed throughout app with this button

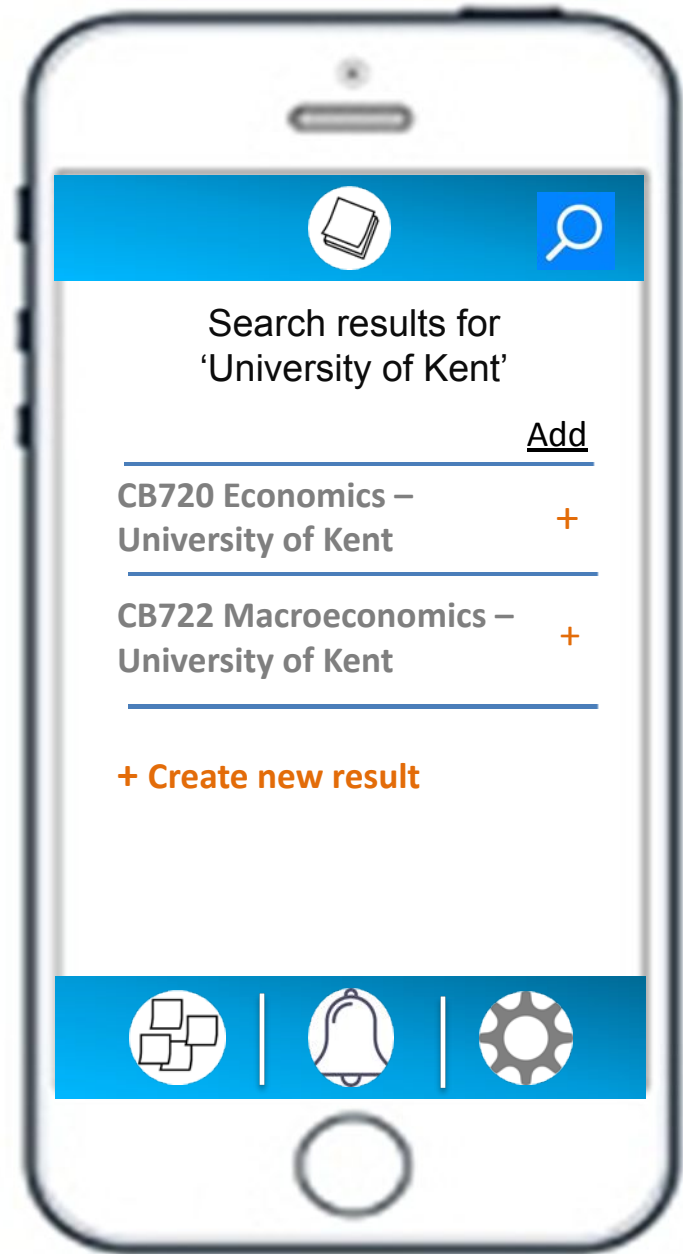

Users can select their university from the list and see all of its modules

The screen users will see when they first go onto the app

StickyNotes App

Search Feature

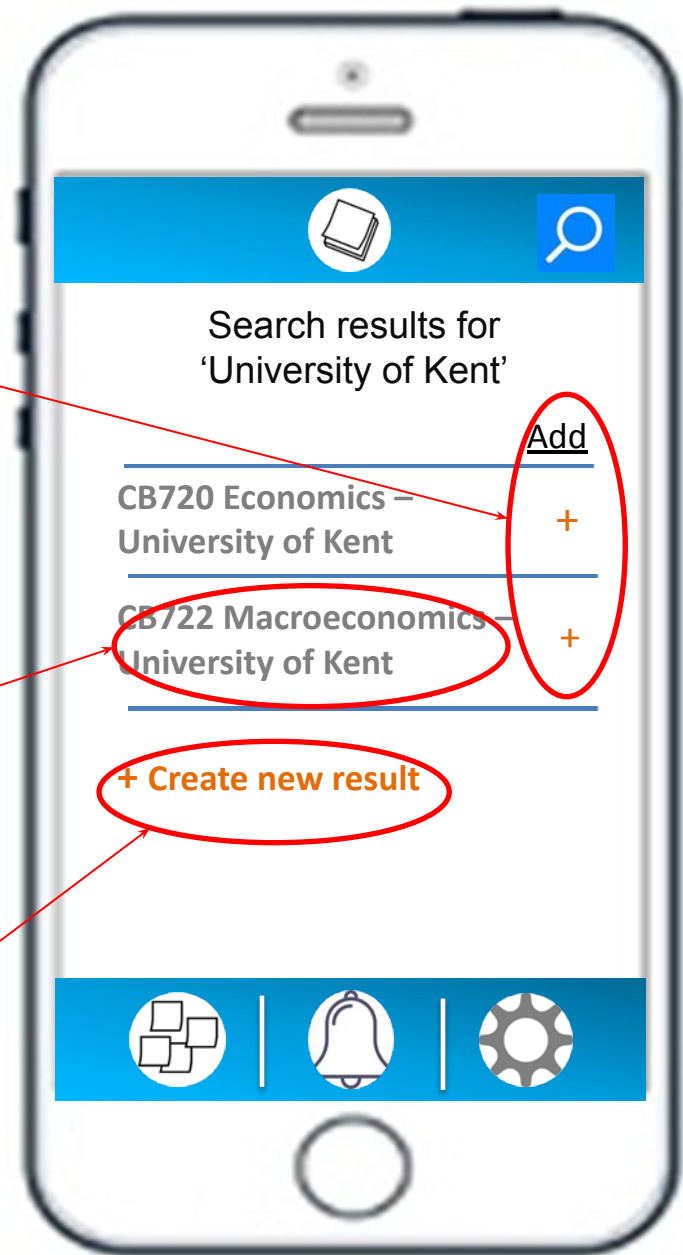

StickyNotes App

Search Feature

Users can add the entire module straight to their Flashcards

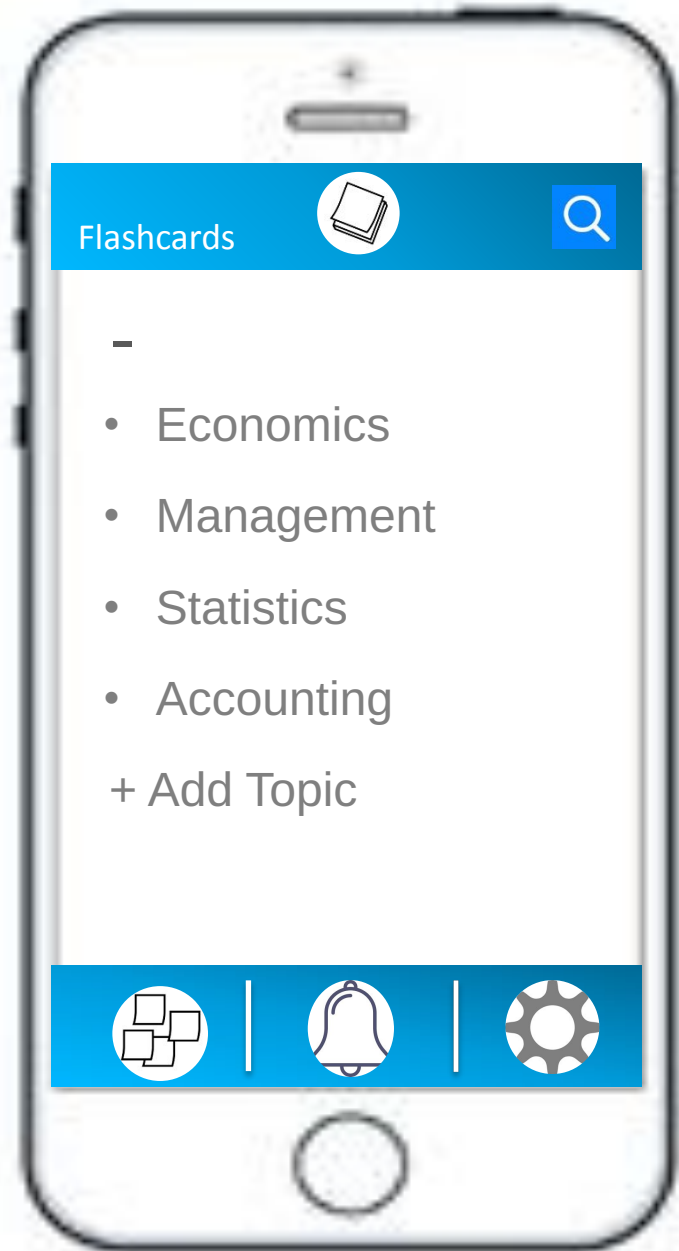

Users can open the module and add specific sticky notes from the community that they find helpful

If the user's module/topic is not on there they can add it to the community and share their own sticky notes into it

StickyNotes App

Flashcards Feature

StickyNotes App

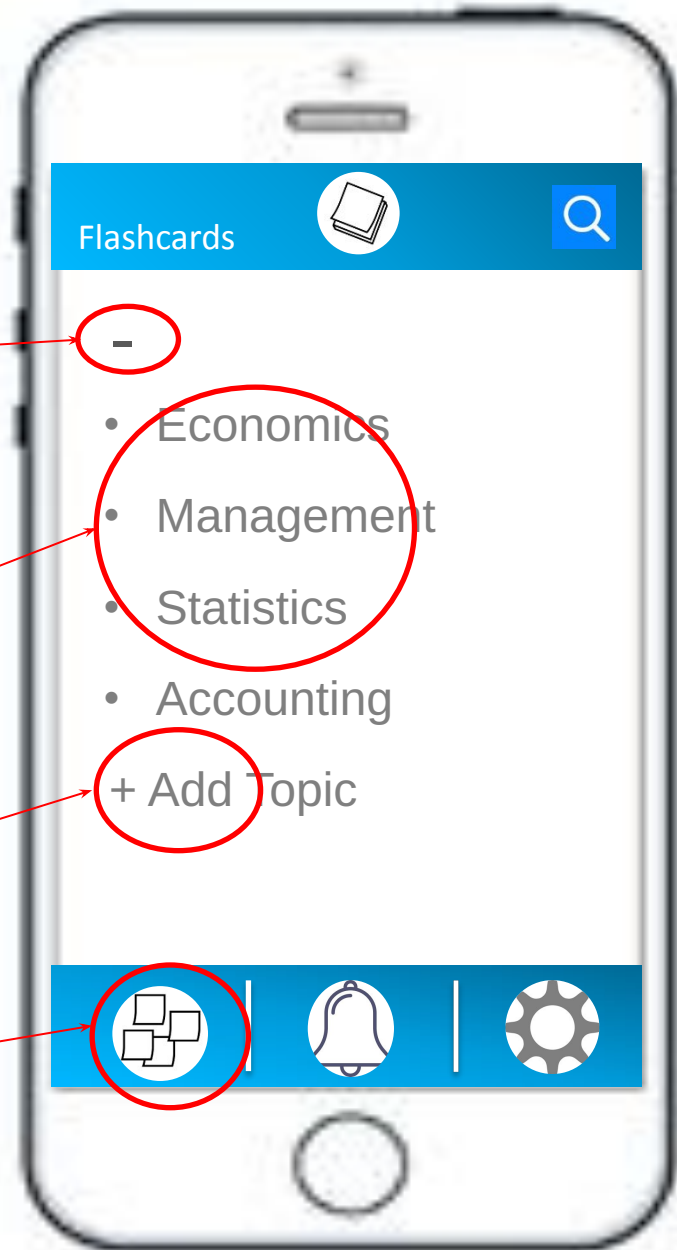

Flashcards Feature

Users can delete Flashcard topics that they no longer need

Flashcards divided into modules or topics. Modules added from the community or created by users are displayed here
