Our version of the school uniform differs from others in the individuality of each class, the uniqueness of the design and adapted to modern society approach to school fashion. We decided to create something fun and bright, but stylish and suitable for all ages. And we did it! Now every school that will use our design will make its students unique and irresistible.

Our uniform is made of natural materials, in which children will be comfortable throughout the day. Another advantage of choosing our form is its low price and ease of care.

The Motto of our firm **Fruityform** is  
"Bright outside-bright inside"

*Style is our Bible*
