The original essay#2

▣ I had finished watch film by Dennis Gransel Gitler's elite three days ago but I thinking about it all time. It's a story about period of world history when Adolf Gitler was Fuhrer of Nazi Germany. He was building his empire that based on the pure Aryan nation. Protagonist is Friedrich Weimer(Max Rimelt) got a chance to be in the NAPOLA where students were preparing to become the leaders of Nazi empire. He was finding a friend there. He likes this place but soon initial enthusiasm give way to doubts. It's a very interesting and strong film that raise up very serious problems. I think Dennis Ganzel made a very hard work. Film will be interesting for young people because problem of choice is important in nowadays. Acting' plot and sound were really great. I recommend to see this movie for all people because it is a needful theme for humanity
