The teacher is an eternal student. He must work relentlessly on himself

This profession is eternal. No matter how the society changes, no matter how far it goes in its development, it will never be without a teacher. In the future, some professions will disappear, but teachers will always be.

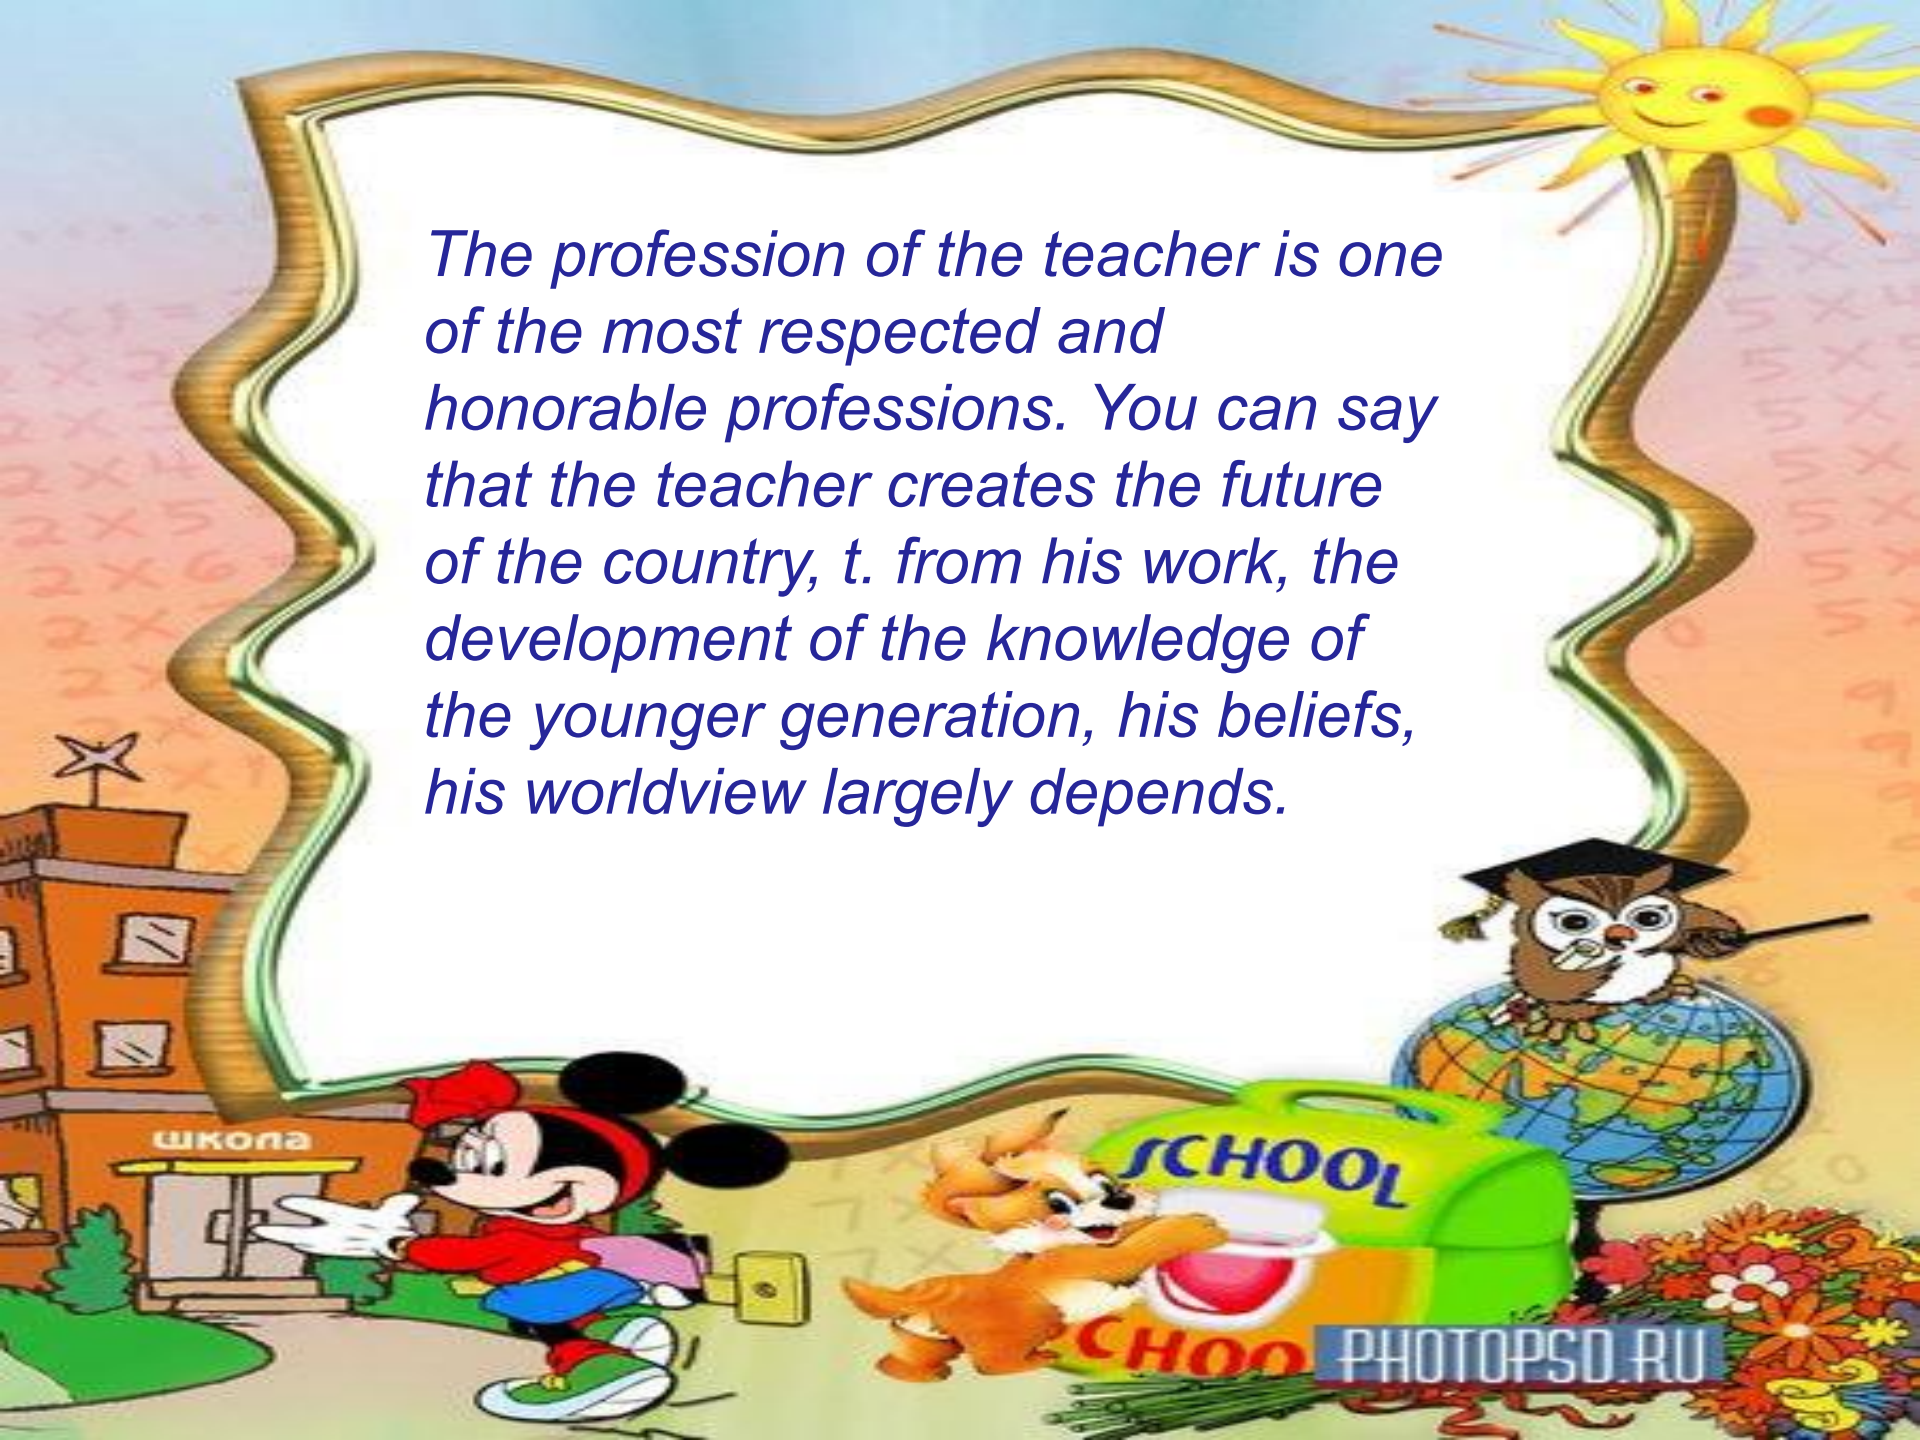

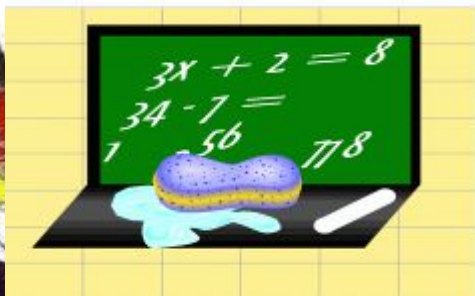

«
***The teacher
should be
able
To interest
children in
their subject***

Здравствуй,
школа!

The profession of the teacher is one of the most respected and honorable professions. You can say that the teacher creates the future of the country, t. from his work, the development of the knowledge of the younger generation, his beliefs, his worldview largely depends.

Thank you for attention
