Detailed Signup Information

This page is one-time page that appears to user during first application launch and allows user to register in our service.

Phone number is used as unique user identifier.

During registration process user receives 4-digit code on provided phone number. After successful code validation we create new account in our billing system and binds device mac and device uuid to newly created account.

!!IMPORTANT for QA: Application will not accept phone numbers that are not used in Ukraine, use only test QA account.
