

How to improve the existing exam system?

We require:

- to turn on the relaxing music before examination
- to forbid organizers to communicate
- to forbid organizers to put on high heel shoes
- to hang clock with a large dial above the blackboard in the classroom
- to allow three helps (50:50, the help of the friend, the help of the hall)
- to create a separate room where you can eat
- to remove metal detectors at an entrance
- to remove system of supervision
- to allow to use colored pens and a simple pencil
- to allow to walk in house-shoes with a blanket in audience
- to give opportunity to choose a place behind a school desk
- to define dates of examinations no later than June 15
- to check examination-papers no later than July 1
