

**NEGAINS OF
GLOBALIZATION IN
KAZAKHSTAN.
PROS & CONS OF
GLOBALIZATION.**

**PERFORMED BY AKNIYET, DAYANA AND
ISLAM FROM GROUP IS2+CS**

What is globalization?

Globalization – the idea that the world is developing a single economy and culture as a result of improved technology and communications and the influence of very large multinational companies.

Globalization - is the process by which ideas, knowledge, information, goods and services spread around the world.

A pixelated cityscape at sunset. The sky is a gradient of orange and red. In the foreground, the dark silhouette of a person's head and shoulders is visible, looking out over the city. The city buildings are rendered in a pixelated style with various shades of brown and orange. The text "Thanks for attention!" is overlaid in the center in a white, bold, pixelated font.

Thanks for attention!
