Psychologists don't have united opinion why they are inclined to violence. There are several factors which push people to kill.

For example  
Psychological traumas of  
childhood. Socialization  
of individuals begins  
from the family. If the  
child is brought up in  
negative atmosphere his  
development becomes  
abnormal. And he finds  
a way to revenge his  
offenders through  
violence

Another factor is problems with the opposite sex. The main factor which forms a view about sex is related to the first experience in this sphere. If the person undergoes sexual assault it is quite possible that he will humble his partners.

Some think that one of the factors of appearances of maniacs is “R-complex”. There is a theory that people become maniacs because of different brain structure.

Also outstanding imagination is a cause of maniac dependence. Talented and creative people sometimes become maniacs. They are looking for ways to consciousness expansion.

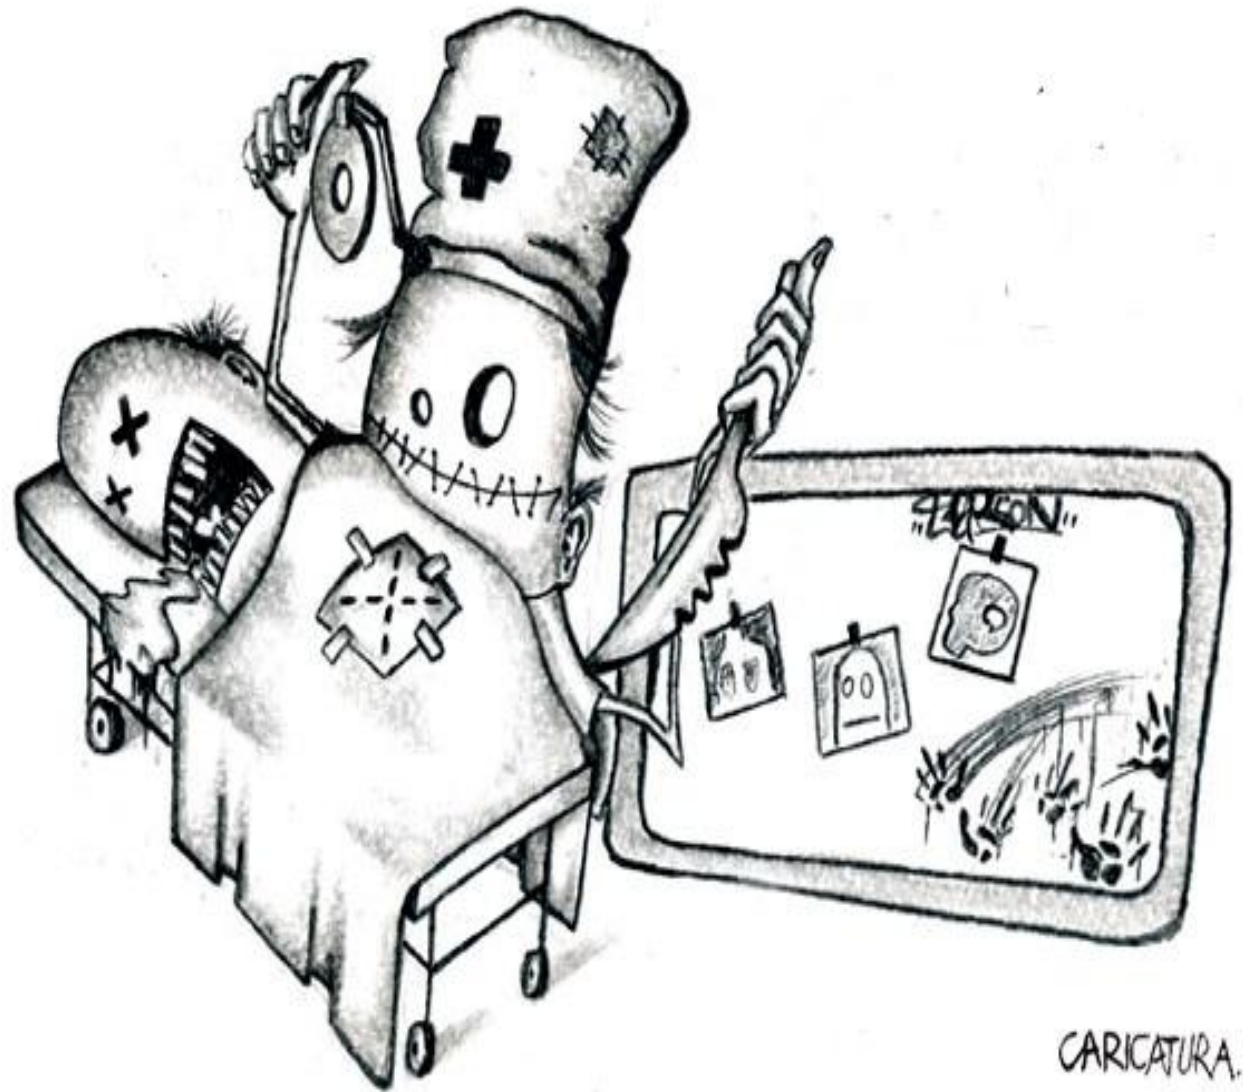

In 1886-1889 England was shaken by the serial incredible savage murders which were imputed to Jack the Ripper.

The removal of internal organs from at least three of the victims led to proposals that their killer had some anatomical or surgical knowledge.

In 20<sup>th</sup> - 21<sup>st</sup> centuries a serial murders swamped the country. They commit one of the most flagrant crimes. Acid Bath Murderer was hanged in 6 August 1949 in Wandsworth prison
