

MY FAVORITE BOOK

* *Everybody has his favorite books and writers.*

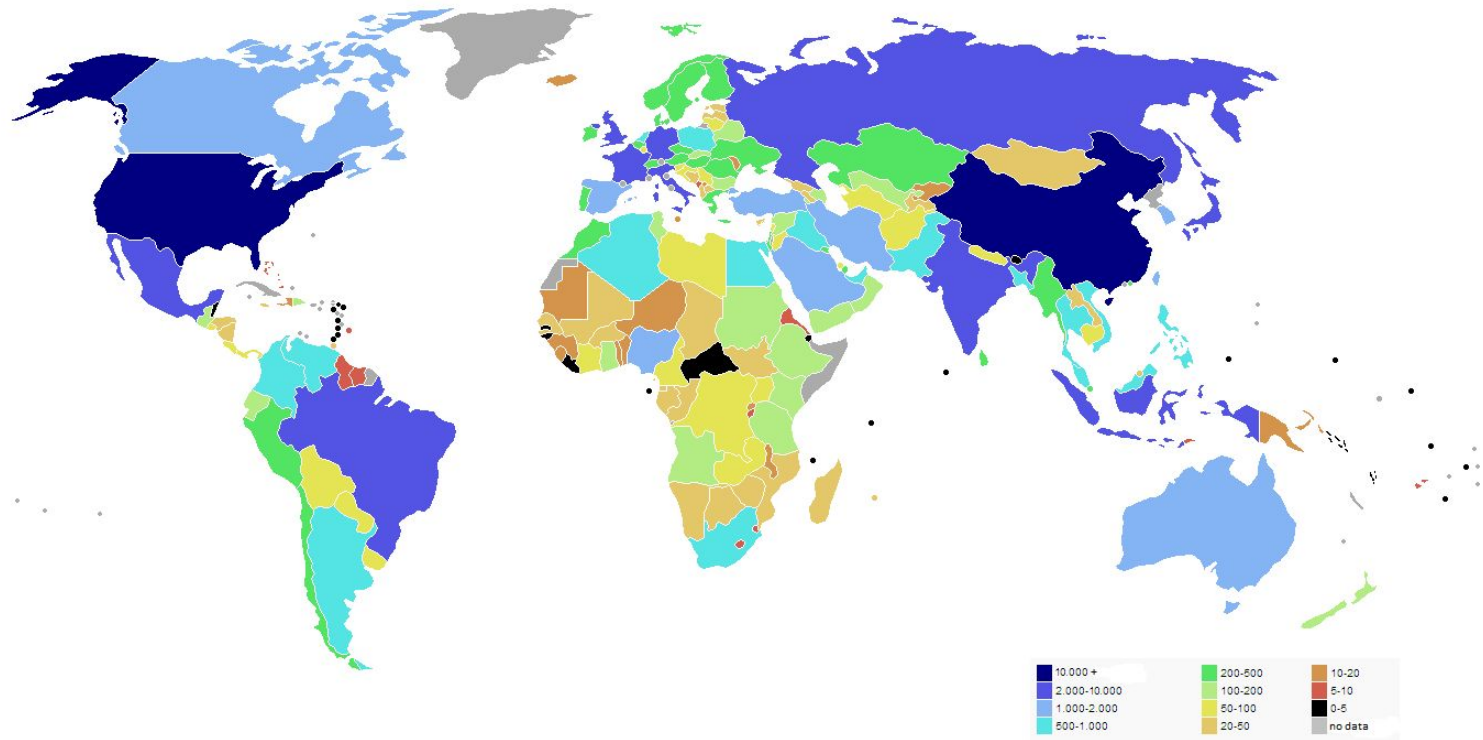

- * *The book I am going to tell you about has the tittle `` The Prince``.*
- * *The author of the book is Niccolo Machiavelli.*

** I suppose this is a historical and philosophic work. There are no main characters in this book.*

* *The book is about rights and the duties of those people who rule the state.*

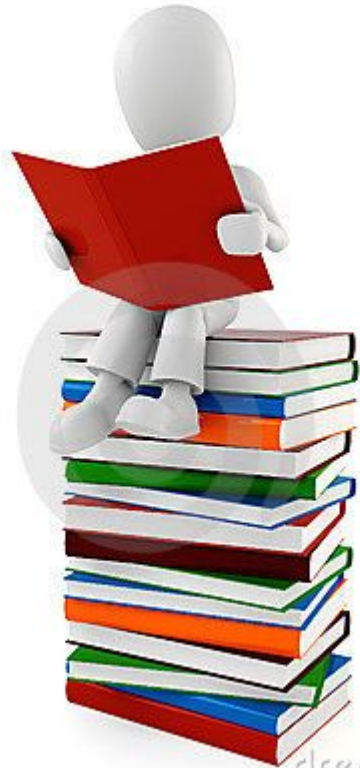

* *A lot of famous and brilliant leaders and chiefs of different countries out times ,beginning with Olexaundr Macedonsky, are mentioned is this work.*

* *In my opinion this work is very important for reading for those people who are planning to connect their future with politics.*

* I enjoy the book because of the language and I must say it is not easy readable.

* *Sometimes I had to reread sentences twice to understand them.*

* I recommend to read `The Prince` to my older friends.
