Ukraine is one of the largest countries of Eastern Europe. It occupies an area of 603 700 km². Its territory stretches for 893 kilometres from north to south and for 1316 kilometres from east to west. It has state borders with Russia, Belarus and Moldova. It also borders on Poland, Slovakia, Hungary and Romania. In the south it is washed by the Black and the Azov Seas. The major rivers are the Dnieper, the Dniester, the Donets and others. The major part of Ukraine is flat and only 5% of it is mountainous. The two mountainous areas in Ukraine are the Carpathians and the Crimean Mountains. The geographical position of Ukraine is very favourable because the country is at the crossroads of the ways of Europe.

Ukraine has deposits of iron, manganese, coal, natural gas, oil and other mineral resources.
