The London Eye

The London Eye was opened on New Year's Eve 1999 to celebrate the Millennium.

It is 135 metres high, and from the top you can see all of London.

The London Eye has 32 capsules, each with room for 25 people.

It has a beautiful view of the whole of Central London.

**London eye is one of the biggest
in the world.**

Westminster Palace

One of the most beautiful buildings in London is Westminster Palace. It's a huge structure on the bank of the river Thames .

The building contains about 1200 rooms, 100 stairs, and 5 kilometer of halls. The biggest and the oldest part of the building is called

Westminster-hall.

Westminster Palace has several high towers. The most famous of all is Big Ben. Everybody knows that it's the biggest clock in the world and that it's the symbol of Great Britain.

**THANK
YOU**
