

Some people often say to me:

"Have you decided what you want to be?"

I usually answer, "I don't know,"

But it isn't really so.

I want to win an Olympic race,

I want to see the Earth from space,

I want to travel to Katmandu

I want to be rich and famous, too.

I want to be on Hollywood's screen,

I want to invent a new machine,

I want to be very clever and wise,

I want to win the Nobel prize,

But most of all, I want to be

Healthy and strong, and nice.

instructor

The difference between the following words:
a job, a work, an occupation, a profession, a
career.

Your **job** is the work that you do regularly in order to earn money, especially when you work for a company or public organization.

Work is used in a more general way to talk about activities that you do to earn money, either working for a company or for yourself.

We use **occupation** to talk about the kind of work that someone usually does. Occupation is used mainly on official forms.

A **profession** is a kind of work for which you need special training and a good education.

Your **career** is the type of work that you do or hope to do for most of your life
