George Boole is famous for his works in a field of mathematical analysis.

# Michael Faraday

The great British scientist Michael Faraday was born at Newington, now in south London.

# Isaac Newton

Isaac Newton's life can be divided into three quite distinct periods. The first is his boyhood days from 1643 up to his appointment to a chair in 1669. The second period from 1669 to 1687 was the highly productive period in which he was Lucasian professor at Cambridge. The third period (nearly as long as the other two combined) saw Newton as a highly paid government official in London with little further interest in mathematical research.
