Discussing of ecological problems

If we want to keep the earth clean, we must/mustn't:

- plant more trees,
- build factories on river banks
 - feed animals
 - cut down trees
- help animals to survive
- pour toxic waste into rivers
- burn (сжигать) toxic waste
 - clean rivers and lakes
- use rivers for washing cars
 - water the plants
- etc. (your examples)

Code of Ecological Rules

-Don't break trees.

-Don't leave litter.

-Keep the country tidy...
