sports ground

A photograph of a crowd at a festival at night. In the foreground, the silhouettes of several people are visible, with two individuals in the center having their arms raised in the air. The background is filled with a dense crowd and bright, out-of-focus stage lights in shades of blue, purple, and white, creating a bokeh effect. A solid blue rectangular box is superimposed over the upper middle portion of the image, containing the word "festivalities" in white lowercase letters.

festivalities

# Text

No doubt that school is our second home. We spend a lot of time at school acquiring deep knowledge, which can help us to understand our life better. It plays an important role in our lives. It is here that characters and views are formed.

It is at this time that they grow and make friends and learn to understand life. School helps to mould a personality. Whatever school years may be, they remain in our hearts forever.

The school where I study is situated not far from my house. It was built in 1974. It is a modern four-storeyed building of all typical design. Our school is named after B. S. Okrestin, hero of the Soviet Union.

One can see the memorial complex devoted B. S. Okrestin and nine hero-pilots in front of the school. There is a big sports ground in front of the school, too. Here on the sports ground pupils have classes in physical training. They also have different here.
