

FIND THE CHICKENS

Instructions to teachers:

This is a fully automated esl game that you can customize with your own vocabulary words. You can choose to allow your students to practice constructing sentences using the words together or individually. Just click on the words and type what you want to study, then start the slide show. Each slide is different and you can keep score by clicking on the “basket” icon at the bottom of the screen.

How to play:

Divide the class into two teams or play against your one-on-one students. Start the slide show. Recite the word or use it in a sentence, then click on the egg. Some eggs have chickens and others don't. If you find one with a chicken, give yourself a point by clicking on the basket icon. Then return to the game by clicking on the “game” buttons on the basket slide. Visit all of our games at www.dangerouslyeasyesl.com
