Let's start with the first set of slides

“

Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

This is a slide title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

Big concept

Bring the attention of your audience over a key concept using icons or illustrations

You can also split your content

White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

Black

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

In two or three columns

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A picture is worth a thousand words

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A top-down view of a desk with a laptop, glasses, a pencil, a notepad, and a small potted plant. The desk is a light grey color. In the top left corner, there is a small potted plant with green leaves in a yellow and orange pot. In the top center, there is a small black notebook with a gold cross on the cover. In the top right, there are black-rimmed glasses. In the bottom left, there is a black laptop. In the bottom right, there is a hand holding a pencil over a light blue notepad. In the center, there is a white rectangular box with a folded corner effect, containing text.

Presentation design

This presentations uses the following typographies and colors:

- Titles: Montserrat
- Body copy: Muli

You can download the fonts on these pages:

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change fill color and opacity.
- Change line color, width and style.

Isn't that nice? :)

Examples:

Now you can use any emoji as an icon!

And of course it resizes without losing quality and you can change the color.
