**Book in our life**

The book is one of the greatest human inventions. We learn many things by reading books. Books teach people to live. After reading some books it is easy to understand what we should do. People can learn a lot by reading books. There are a lot of libraries in our country, where we can choose any book we need. There are many resources on the Internet, where you can download different books and read them on your phone. Different people like reading different kinds of books. It depends on your taste. Some people prefer historical books. Others like detective stories. As for me I prefer fantasy.

My favorite book is «Harry Potter». It is a very interesting book. The main character of the book is Harry Potter, as the name of book. "Harry Potter" is a series of seven fantasy novels written by the British author J.Rowling. The series, named after the main character, includes the adventures of a wizard, Harry Potter and his friends Ronald Weasley and Hermione Granger. They are students at Hogwarts School of witchcraft. The main story describes Lord Voldemort, who wants to become immortal and conquer the wizard world. He wants to destroy all people who stand on his way, especially Harry Potter. About 500 million copies of the book have been sold so far. Books are precious treasure and best friends of people.
