# COPENHAGEN

- COPENHAGEN is the capital and largest city of Denmark. Copenhagen is located on two islands: Zealand and Amager.
- The city's population is just over 1 million people.

- The most interesting thing respecting this city's plan is the Finger Plan design. The urban center is situated in the palm, and the paths to the suburbs look like fingers.

- Those who like bicycle culture will really enjoy life in this city. Most Copenhagen residents love to cycle to work or to school, creating healthier conditions for everyday life.

- There are several thousand bicycles in Copenhagen.There are about 12,000 kilometers of bike paths in the country, and there are about 400 km of them in Copenhagen itself.
