For nine seasons of "Supernatural" actors, performing leading roles, has never changed. A national favorite Dean Winchester always shone sparkling jokes, caustic comments and heroic impulses because of Jensen Ackles.

Personage *Stiles Stilinski* : *Cheerful, sociable man, always ready to come to the rescue of his friends. When he had to talk with the girls, very worried, because bears are mainly outright nonsense. As a result: a classmate find it amusing only. In dealing with the same guys Stiles sarcastic, which is also not conducive to evoking sympathy. And friends at his jokes do not pay attention, appreciating its reliability and extraordinary intelligence.*

# Dylan O'Brien

Ian Somerhalder was born December 8, 1978 in the small southern town of Covington, Louisiana family masseuse and a building contractor. At his father's English and French roots, and his mother Edna - Irish and Native American. At the age of ten with the help of his mother, Ian got into the business model , every summer he went to shoot in New York. He had a contract with the best children's model agency Click, Next, Arlene Wilson. He was the face of designer clothing GUESS? for two fall seasons, and has also worked on such well-known fashion houses as Versace, Esprit, Persol, Calvin Klein Inc., Dolce & Gabbana and Gucci. The first debut on television for the yen was the sci-fi drama "now or never" (1999) channel CBS. Somerhalder was the first victory of the title role in the TV series "Young Americans." On top of that, Ian was one of the 50 sexiest men autumn of 2002 the magazine People. The creators of the series "Lost" Somerhalder saw something more than an ideal texture for the role of a gay man. Of all the actors of the series, Ian was the first who was cast irrevocably. He played Boone Carlyle, a young rich man. Ian himself was somewhat disappointed with his character. However, over time the character of Ian changed, more and more pleasing performer. His hero became the first victim died on the island and in the twentieth in a row episode. After departure from the series "Lost", Ian appeared in independent films such as "Feeling vision "and" Competition for survival ", as well as in several TV projects, which the actor described as a bad movie with bad acting game. New breakthrough in television Ian became one of the main roles in the series "The Vampire Diaries," where he played the role of a vampire Damon Salvatore insidious.

Positive character traits:

Self-confidence, courage, loyalty to his principles

Negative traits:

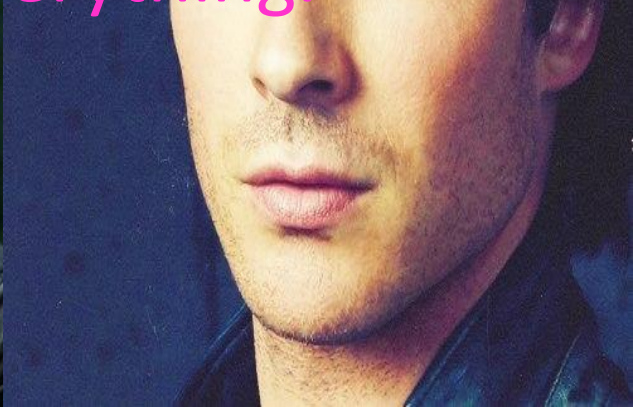

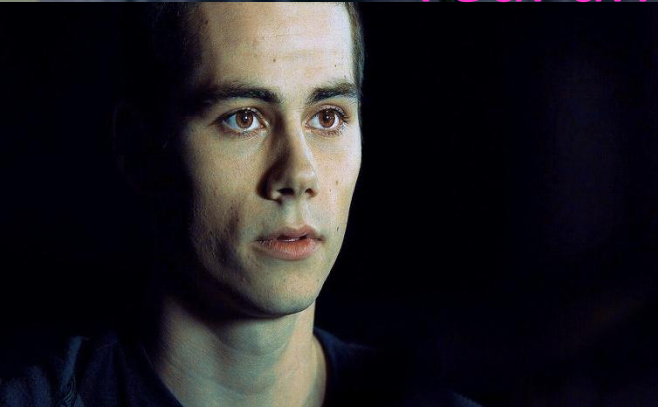

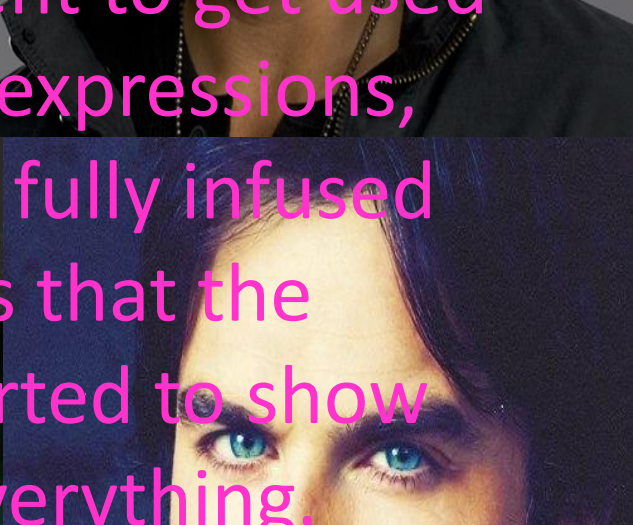

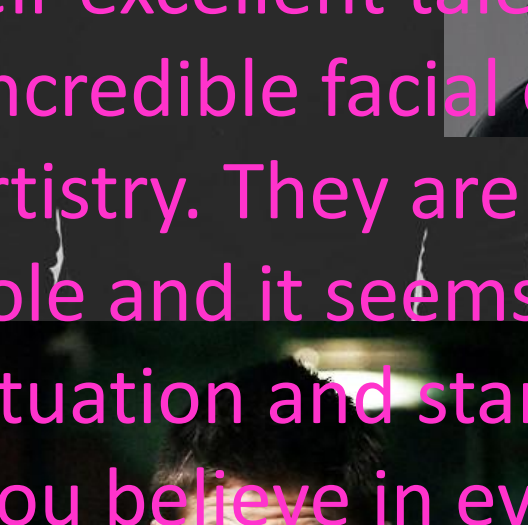

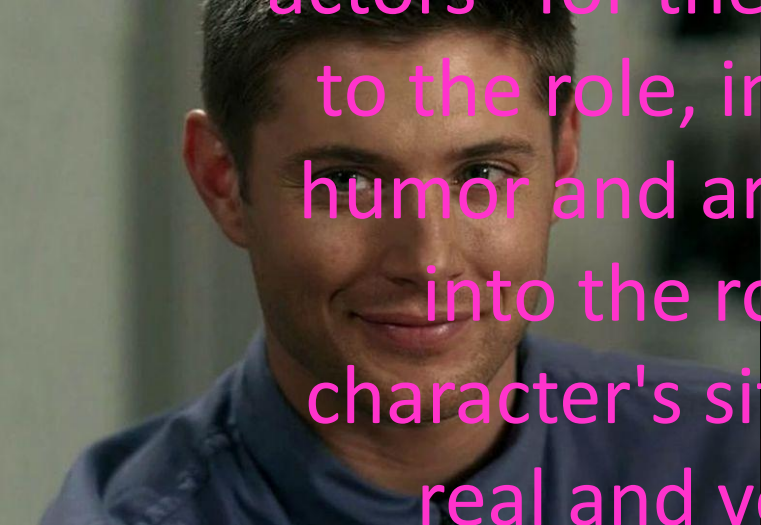

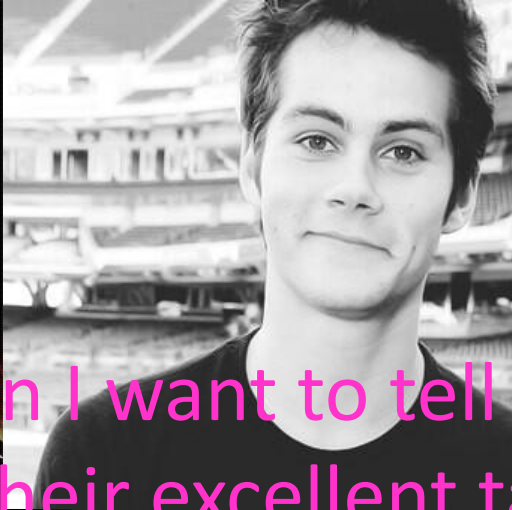

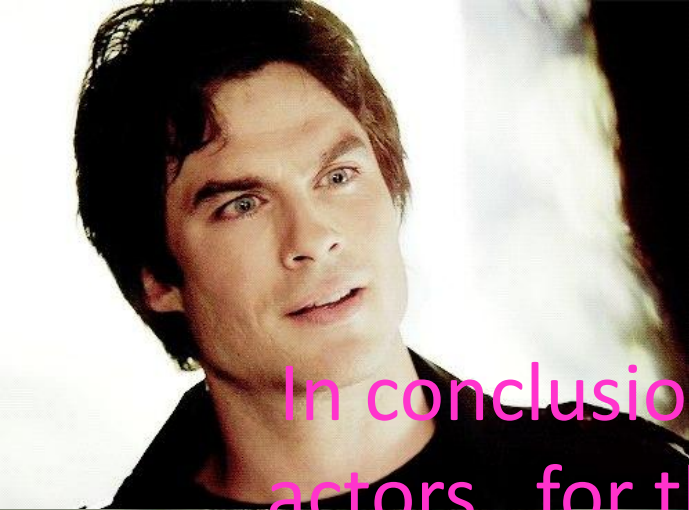

Narcissism, cunning, calculating, selfish, vindictive. Not considered to someone else's opinion, used to live only for themselves. He never felt a sense of pity for their victims, and firmly believes that his brother had made his life boring and devoid of any sense. Somewhere in the depths of the soul (if it is a vampire) is capable of love and compassion, but these qualities are rare, and it is making every effort not to show them. He loves the process of hunting, believe that humans are created in order to eat them.

The manner of communication, habits, etc.

Optimistic, loves to have fun. The voice of calm, it is almost never heard anger, although this does not mean that he does not feel it. He likes to miss the evening a couple of glasses of whiskey - his favorite drink (of course, except blood).

**Ian Joseph Somerhalder**

In conclusion I want to tell that I like this actors for their excellent talent to get used to the role, incredible facial expressions, humor and artistry. They are fully infused into the role and it seems that the character's situation and started to show real and you believe in everything.
