COMPANY INFORMATION

The company "TIBBIYOT DUNYOSI" LLC was established in 1995.

Since that time, we have been supplying vaccines, serums, reagents and high-quality medical laboratory equipment for the needs of the Ministry of Health of the Republic of Uzbekistan..

The activities of our company are aimed at high-quality service that best meets the needs of its customers.

Having achieved significant success over the years of its activity, the company has rightfully become one of the leaders in the field of retail sales

We have assembled a team of qualified professionals who are passionate about their work and devote all their energy and abilities to the development and formation of our business.

Our reliability, efficiency and high level of service have been proven by many years of work with foreign trade companies, thousands of completed deliveries are highly appreciated by our partners.

COMPANY BUSINESS DIRECTION

Our company employs over 600 people in all our institutions.

Our internal partners are: Sanitary and Epidemiological Service of the Republic of Uzbekistan, private laboratories and vaccination centers.

- Throughout our republic, we have more than 34 of our own vaccination centers, in which we vaccinate against Hepatitis-A, Hepatitis-B, DTP, MMR, Yellow fever, HPV, Meningococcal infection and against seasonal flu. More than 650 people are vaccinated daily.**
- we have 2 medical centers located in the city of Tashkent and a multidisciplinary hospital with 150 beds is under construction.**
- Our company has been cooperating in all areas with the Ministry of Health for a long time and has a trusting relationship with our state, in this connection, it was our company that was entrusted with organizing and conducting specialized points at all airports of the Republic for taking tests for COVID-19 from arriving passengers, as well as taking tests for COVID-19 from citizens crossing border points with neighboring states.**
- Based on the minutes of the Cabinet of Ministers of the Republic of Uzbekistan No. 78 dated April 18, 2016 and by the decision of the khokimiyat of Tashkent city (No. 461 dated May 20, 2016), we were allocated a plot of land at the address: Tashkent, st. Takhtapul Darvoza, 341-A, with the aim of creating the first CA in the Republic, with the aim of sterilizing medical instruments and dressing materials for medical institutions, regardless of ownership**

DISTRIBUTION

In the healthcare industry, enterprises of various directions function - some of them produce an intangible product - services and information, others - quite real goods that exist physically.

The latter include drugs, medical devices, equipment, and more.

Distribution of medical equipment and medical supplies - activities related to the purchase (acquisition), storage, import (import), sale with the provision of a full service for competent training, installation and maintenance of the supplied medical equipment to a particular customer ...

BASIC PRINCIPLES of EFFECTIVE DISTRIBUTION in RUz.

Choosing the right distributor - success on the market.

- **Company status and market information**
- **Sales department**
- **Warehouse**
- **Logistic services**
- **After sales services**
- **Timely supply of spare parts**

TIBBIYOT DUNYOSI - UNICEF

Our company has been working closely with HAIER BIOMEDICAL for a long time.

In 2018, according to an international project between our state and UNICEF for equipping all units of the Sanitary Epidemiological Service, 764 units of refrigerators and freezers were delivered to the Uzbek market.

In 2020, according to an international project between our state and UNICEF to equip all polyclinics of the Republic, 2,078 refrigerators were supplied to the Uzbek market.

An important requirement for the implementation of the project, the local partner in the Republic of Uzbekistan must meet the requirements of UNICEF (availability of Storage facilities, Timely delivery, Timely installation, Post warranty service)
