

Learn Git and GitHub without any code!

Using the Hello World guide, you'll create a repository, start a branch, write comments, and open a pull request.

Let's get started!

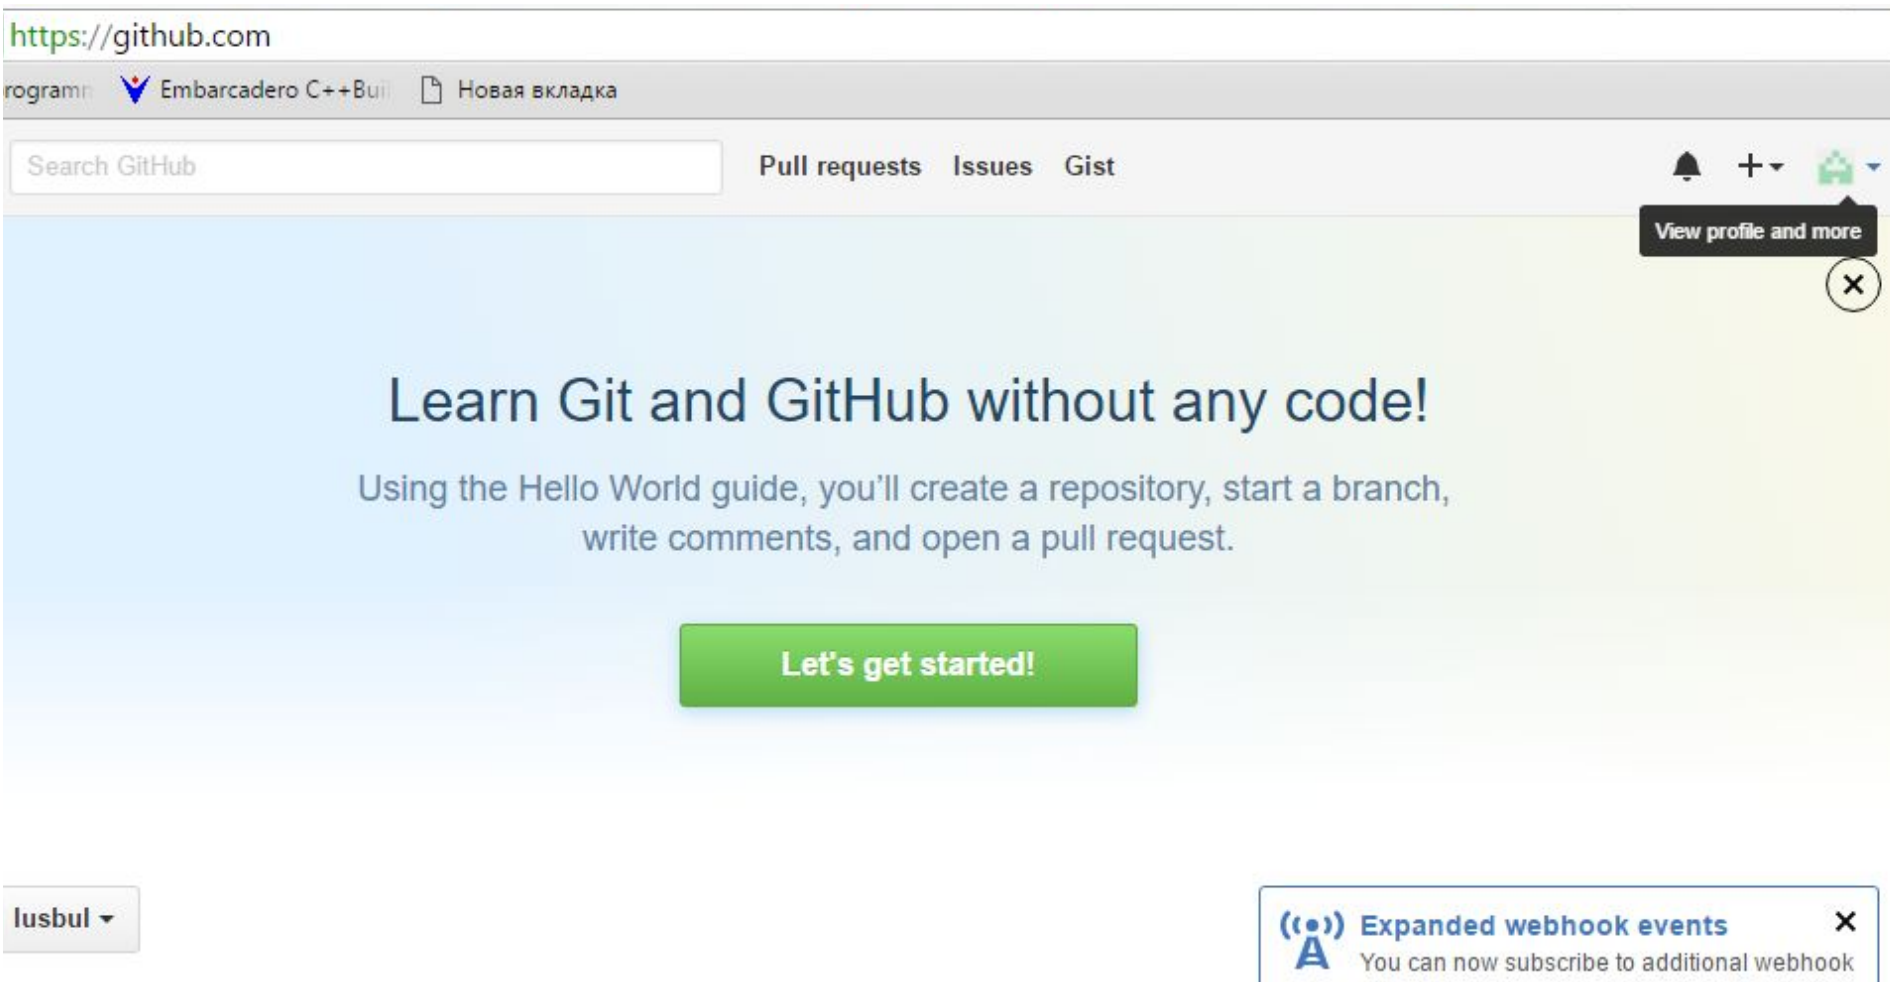

GitHub

GitHub - найбільший веб-сервіс для хостингу ІТ-проектів і їх спільної розробки.

Заснований на системі контролю версій Git і розроблений на Ruby on Rails і Erlang компанією GitHub, Inc .

Аккаунт і репозиторії на github.com

Зареєструватися на <https://github.com>

Установка git

Є кілька способів встановити Git

- установка з початкових кодів
- установка зібраного пакета для вашої платформи

<https://git-scm.com/download/win>

The screenshot shows the Git website's download page for Windows. The header includes the Git logo and the tagline "--local-branching-on-the-cheap", along with a search bar. The left sidebar contains links for About, Documentation, Blog, Downloads (highlighted), and Community. The main content area is titled "Downloading Git" and features a large downward arrow icon. The text states: "Your download is starting..." followed by details about the latest (2.8.1) 32-bit version of Git for Windows, noting it was released 23 days ago. A link is provided to click here to download manually. Below this, there is a section for "Other Git for Windows downloads" listing "Git for Windows Setup", "32-bit Git for Windows Setup", and "64-bit Git for Windows Setup". A footer note mentions the availability of the Pro Git book.

Перегляд проекту на Github

The screenshot shows the GitHub Desktop application interface. At the top, there are tabs for 'Changes' (selected) and 'History'. To the right, there is a 'Pull request' button and a settings gear icon. Below the tabs, a dark gray area represents the repository's state. The main area shows a code editor with a file named 'cpp'. The code is as follows:

```
... @@ -0,0 +1,6 @@
1 + #include<iostream>
2 + using namespace std;
3 + main()
4 + {cout<<"Hello, world!";
5 + cout<<"It's I";
6 + }
7 \ No newline at end of file
```

A context menu is open over the code editor, displaying the following options:

- Undo most recent commit
- Delete master...
- Repository settings...
- Open in Explorer
- Open in Git Shell
- View on GitHub** (highlighted in blue)
- Tutorial
- Options...
- About GitHub Desktop...
