Travelling ... What for?

Travelling ... What for?

- Every year a lot of people all over the world spend their holidays travelling. For many of them travelling is the most important event in the year.
- People travel the globe to see other countries and continents, modern cities and the ruins of ancient towns, they travel to enjoy picturesque places, or just for a change of scene. The tourist industry will soon be the largest industry in the world. Many places that once were remote are now part of package tours. Tourism has been industrialized: landscapes, cultures and cuisines are consumer goods displayed in travel leaflets. In recent years tourism has really taken off. Today people have lots of good reasons to travel. Travelling has always been a part of people's education. The best way to study geography is to travel and the best way to get to know and understand the traditions and customs of different people is to speak to them. Besides, travelling is a good way to practise foreign languages.
