## Полнотекстовый доступ ко всем статьям и журналам издательства Springer, опубликованным с

На нашем сайте вы сможете: 1997 по 2017 гг.

1. Читать и скачивать все статьи о самых новых достижениях в вашем направлении исследований.
2. Использовать наши материалы при написании отчётов НИР, магистерских и докторских диссертаций, подбирать статьи для сопоставительного анализа передовых достижений в отрасли.
3. Быстро и точно определять рейтинговые журналы под ваши темы исследования. Сразу же на сайте журнала узнавать есть ли у этих журналов импакт-фактор и есть ли они в Scopus.
4. Ознакомиться с инструкциями и требованиями и подать вашу статью для публикации.
5. Открывать и предоставлять дистанционный доступ вашим студентам, магистрантам, докторантам и преподавателям к полнотекстовой базе из дома, либо с сотовых телефонов.
6. Использовать книги и главы как связанный курс учебных материалов

# Мифы об опубликовании статей в зарубежных рейтинговых журналах

**Миф 1.** Все зарубежные рейтинговые журналы платные и очень дорогие.

**Миф 2.** Возможно опубликовать статью не делая анализ предыдущих исследований, не читая литературы, либо используя только старые либо русскоязычные источники времён СССР.

**Миф 3.** Есть «волшебные» платные агентства, которые всё сделают за вас: напишут статью, переведут, выберут журнал и опубликуют её.

**Миф 4.** Статьи из Казахстана не интересны и не публикуются.

**Миф 5.** Thomson Reuters и Scopus это издательства, которые публикуют статьи.

**Миф 6.** Любой журнал по профилю

## **Миф 5.** Thomson Reuters и Scopus это издательства, которые публикуют статьи.

1

- Список Казахстанских журналов ККСОН (входят около 200 каз.журналов)

2

- Список журналов, индексируемых в Clarivate Analytics (Thomson Reuters) и имеющих импакт-фактор (входят около 14 000 научных журналов)

3

- Список журналов, индексируемых в Scopus (входят около 21 000 научных журналов)

# Springer Nature журналы, преимущества и позиции в рейтингах

В 2017 году согласно Journal Citation Reports у издательства Springer Nature **импакт-фактор получили 1,800 журналов.**

В Scopus индексируется **2454 журнала Springer Nature**

**Журналы SpringerNature согласно JCR лидируют по многим научным сферам:**

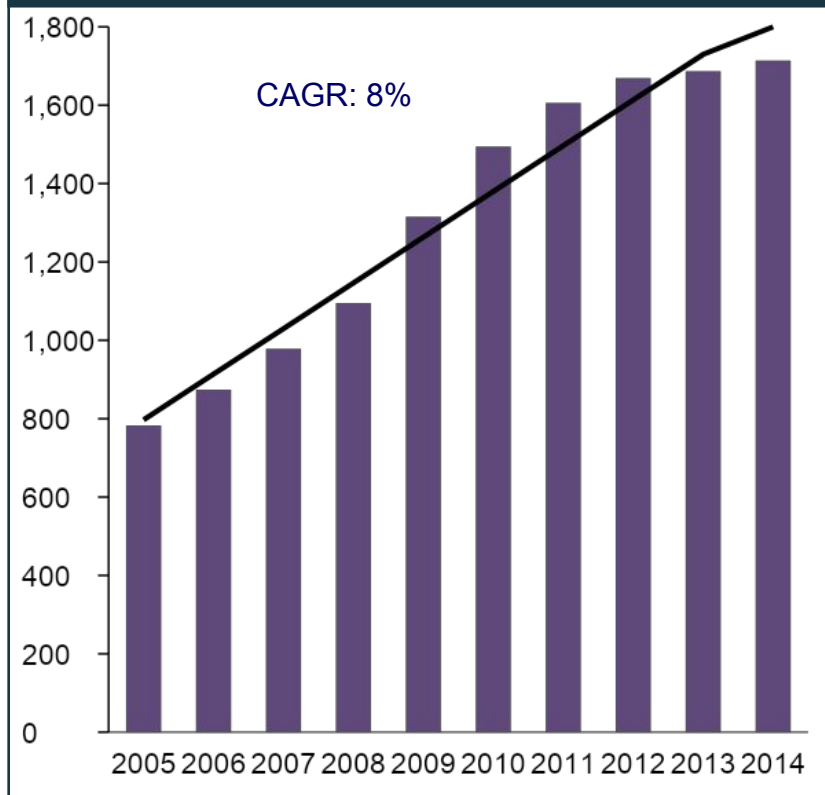

**28** категорий по которым наши журналы лидирующие в рейтингах

**79** категорий в которых журналы SpringerNature входят в топ 3 рейтингов

**155** журналов, которые входят в топ 1\4 рейтингов

## Казахстан: количество статей и книг с 2008 по 2018 в издательстве Springer Nature

Source: Authormapper

**Ежегодно учёные Казахстана публикуют в Springer Nature около 470 публикаций, что составляет  $\frac{1}{4}$  от всех публикаций Казахстана зарубежом.**

**Springer Nature является издательством №1 по количеству публикаций из Казахстана**

# Процесс опубликования статей в рейтинговых журналах

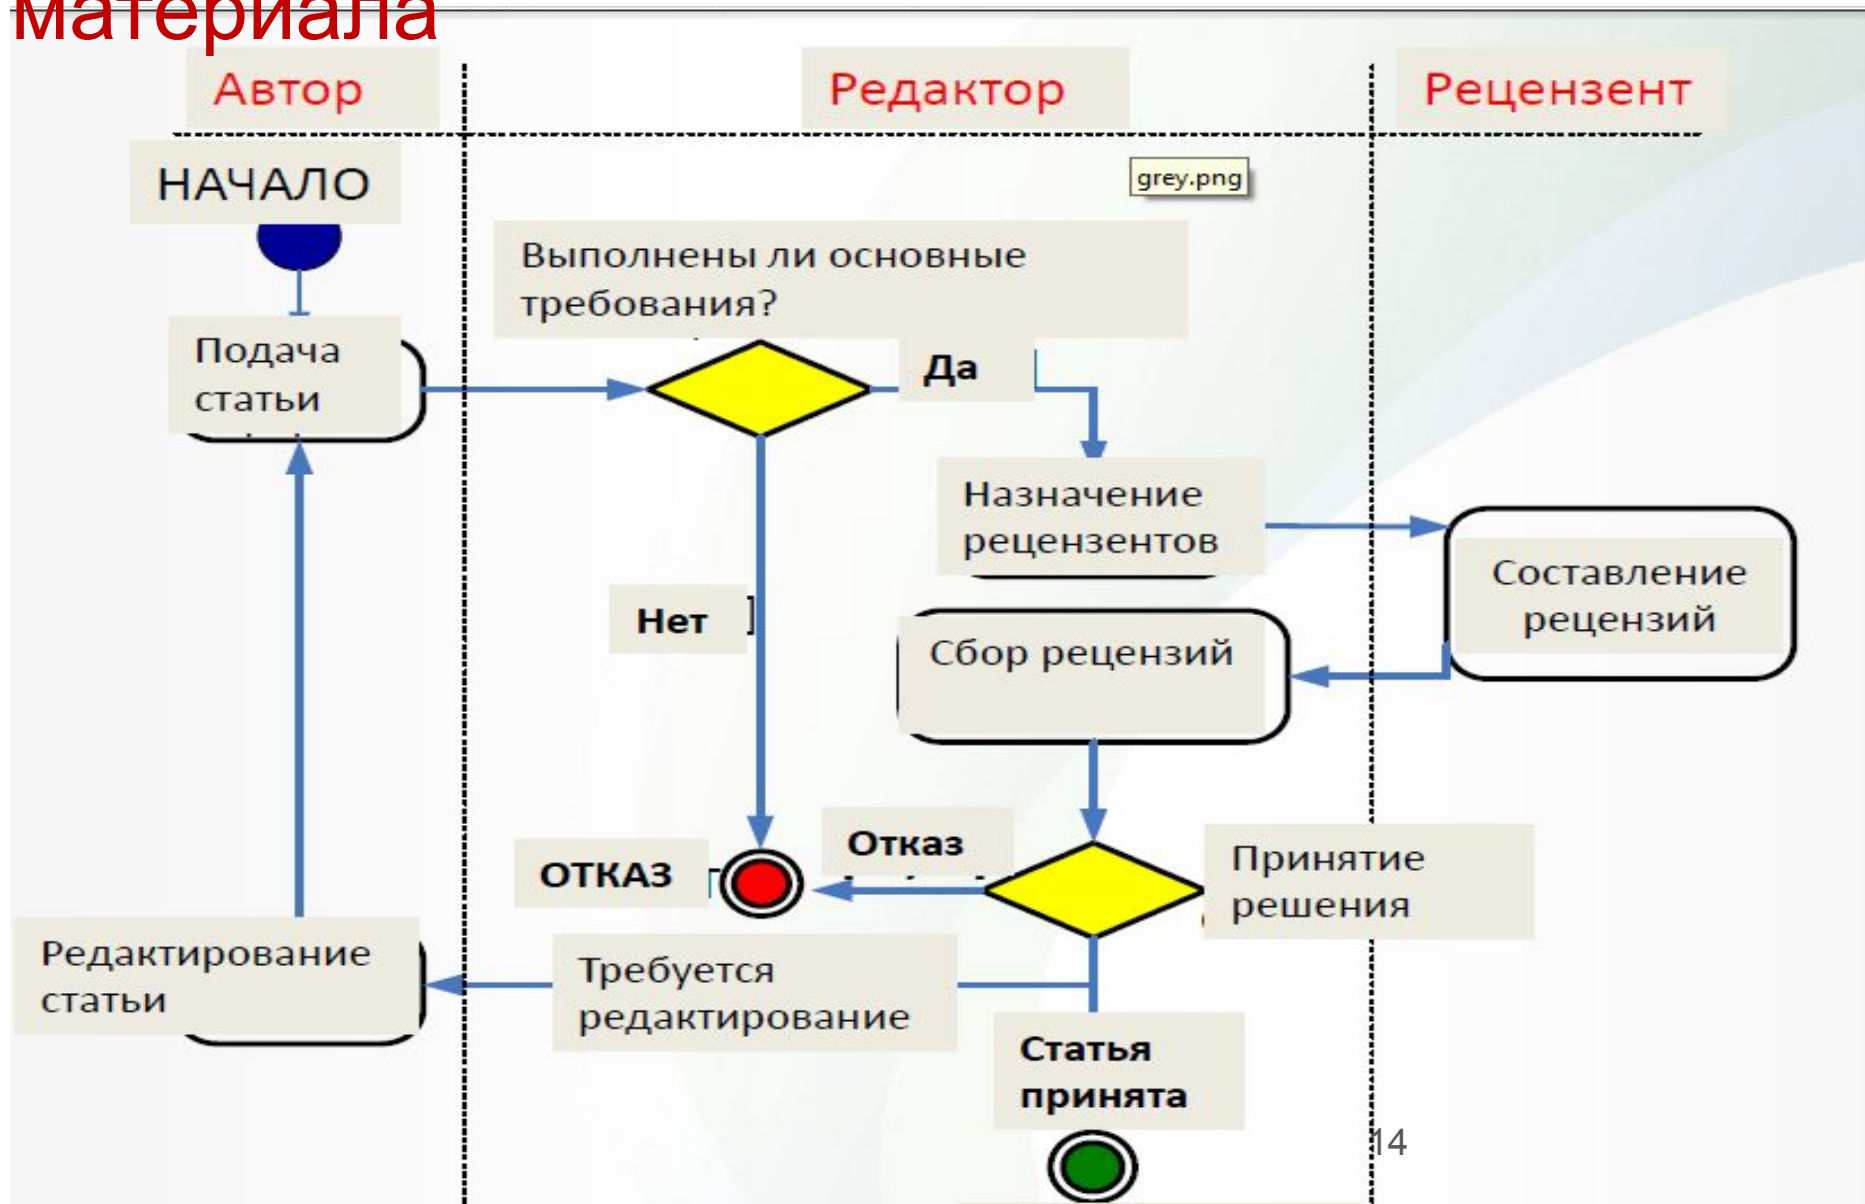

# 1.0

Изначально научные журналы выполняют 5 функции:

- ✓ **Регистрация – закрепление авторского права**
- ✓ **Рецензирование статьи – экспертиза, улучшение качества статьи**
- ✓ **Распространение – создание среды для обмена результатами исследований и методикой**
- ✓ **Хранение – сохранение научных результатов для потомков**
- ✓ **Обеспечение поиска и навигации – интернет навигация**

# Редакционный процесс: экспертиза материала

# Шаг 1. Отбор редактором по первичным признакам

**Направление статьи:**  
соответствует ли статья  
тематике издания?

**Формат статьи:**  
полная статья, обзор,  
труд конференции?

**Передача статьи в  
родственный журнал?**

**Изменение формата  
статьи?**

**Необходимо быть твердо уверенным в направлении выбранного журнала**

## Шаг 2. Углубленный анализ статьи редактором

Отличие от предыдущих исследований?

Интересна ли статья для исследователей в данном направлении?

Новизна: достаточна ли?

Интересна ли статья для остальных читателей?

Количество публикуемых статей по всему миру растёт с каждым годом, конкуренция за место в журналах огромная.

# Шаг 2. Углубленный анализ статьи редактором. На что редактор обращает внимания?

»In conclusion, we have synthesised a novel class of multifunctional nanoparticles which are capable of significantly increasing the photoconversion efficiency of flexible solar cells ...«

## Conclusions section of manuscript

## Шаг 3. Подбор рецензентов

# На какие вопросы должен ответить рецензент

# Несколько критериев качественной научной статьи

- ✓ оригинальность - новое в предметной области, методах или результатах
- ✓ соответствие существующему знанию и его расширение  
научная методология - достоверность и объективность выводов
- ✓ ясность изложения, структурированность материала и качество написания
- ✓ основательная аргументация
- ✓ новизна и уместность ссылок
- ✓ международный /глобальный подход
- ✓ строгое соблюдение редакционных рамок и задач журнала
- ✓ точное название, ключевые слова и хорошо написанное резюме (*summary*).

## Процедура подачи статьи

- Подбор издания (научного журнала)
- Анализ требований издания
- Первичная оценка материала на соответствие требованиям издания
- Обработка материала и приведение в соответствие
- Рецензирование материала (в зависимости от требований издательства)
- Перевод материала
- Переговоры с издательством
- Доработка статьи
- Публикация статьи/ отказ - подача в другой журнал

# 1.3 Информация о журнале: Как узнать где ещё индексируется журнал, есть ли у него Scopus?

The image shows a screenshot of a Springer journal page. The browser's address bar displays the URL [www.springer.com/economics/environmental/journal/10640](http://www.springer.com/economics/environmental/journal/10640). The page content includes a descriptive paragraph about the journal's focus on environmental issues and policy, followed by a list of related subjects: Economic Policy - Economics - Environmental / Development / Agricultural Economics - Environmental Management. A red arrow points to the 'ABSTRACTED/INDEXED IN' section, which is circled in red. This section lists various academic databases and indices where the journal is indexed, including Scopus.

theory and methods to environmental issues and problems that require detailed analysis in order to improve management strategies. The contemporary environmental debate is in a constant state of flux, with new or relatively unexplored topics continually emerging. The Journal provides a forum for the further exploration of causes, consequences and policy responses linked to these topics, across a range of spatial and temporal scales up to the global dimension. Areas of particular interest include evaluation and development of instruments of environmental policy; cost-benefit and cost effectiveness analysis; sectoral environmental policy impact analysis; modeling and simulation; institutional arrangements; resource pricing and the valuation of environmental goods; and indicators of environmental quality.

The contents are chosen for their relevance to the process of policy formulation and application.

### Instructions for Authors

#### Editorial procedure

##### Double-blind peer review

This journal follows a double-blind reviewing procedure. Authors are therefore requested to submit two documents at the time of their submission:

► A title page only, which includes:

- A concise and informative title
- The name(s) of the author(s)
- The affiliation(s) and address(es) of the author(s)
- The e-mail address and fax number of the corresponding author

► A blinded manuscript without any author names and affiliations. Authors should avoid language that could identify themselves as the authors. Authors should properly cite and reference their own work, but should not use phrases such as "in our previous work (Smith, 2011), we presented..." which identifies the author. Such work should be referred to in the third person, e.g., "Previously Smith (Smith, 2011) presented..."

The blinded manuscript should contain:

- A concise and informative title
- Abstract: Please provide an abstract of 150 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.
- Keywords: Please provide 4 to 6 keywords which can be used for indexing purposes.

# 2.1 Поиск журналов по дисциплинам

The screenshot shows the Springer Link search interface. At the top, the search bar contains the word "economics". Below the search bar, there are navigation links for "Home" and "Contact Us". A yellow box on the left contains the option "Include Preview-Only content" which is checked. The main search results area shows "3,119 Result(s) for 'economics'". Below this, there are filters for "Content Type" and "Discipline". The "Content Type" filter is expanded, showing a list of content types and their counts. The "Discipline" filter is also expanded, showing a list of disciplines and their counts. The search results are sorted by "Relevance", but a callout points to the "Date Published" option. Three journal titles are listed: "Evolutionary and Institutional Economics Review", "Quantitative Marketing and Economics", and "Decisions in Economics and Finance". Each journal title has a callout pointing to it.

Step 1: Select the "Date Published" sorting option.

Step 2: Select the journal "Evolutionary and Institutional Economics Review".

Step 3: Select the journal "Quantitative Marketing and Economics".
