

Presentation on natural disasters in the Lipetsk region

The most destructive hurricane in recent years in the Lipetsk region: one person was killed, dozens of people were left homeless

- ▶ Already at a briefing after the hurricane, Deputy mayors apologized to reporters.
- ▶ - Meteorologists warned us about bad weather at 16.00. But we could not inform the residents of the city - the notification system was poorly debugged, - explained the Vice-mayor of Lipetsk Serey Troshkin. The only excuse in this situation was the operational work of public utilities.
- ▶ During the night, the debris from the trees was cleared, and light was supplied to most of the houses by morning. 58 teams of public utilities were engaged in eliminating the consequences of bad weather. Specialists of the Department of civil DEFENSE and emergency situations and energy worked on the streets of the city day and night after the hurricane and the next day.

DURING THE HURRICANE, METER-LONG PIECES OF SLATE FLEW THROUGH THE STREETS

lipetsk was covered by a hurricane suddenly. On Tuesday, June 26, at 20.10, the sky was covered with clouds, the street became dark as night. A strong wind rose and a downpour began. Bad weather raged for about an hour, but ... - the Wind was so strong that my seven-year-old son and I barely walked 100 meters - from the Playground to the house. The wind knocked me down, the child clung to me with both hands – so we went,-told us 37-year-old Dmitry Korobov.

Hurricane-force winds knocked down trees in almost all courtyards. The roof of the building of the Sokolsky police Department was torn off, and part of the roof was demolished at the Sokolsky shopping center. The tent from the cafe on Sputnik was torn off and carried 100 meters away. Customers jumped out of it as they walked. The frame of the tent was carried by cars in the Parking lot – several dozen cars were damaged.

In the 29th microdistrict, a tower crane fell. The wind knocked him down on a building under construction. The crane operator remained miraculously alive: the woman had a shift change, and she did not have time to take a workplace.

According to preliminary data

The disaster damaged ten kindergartens - Windows were broken in buildings and electricity was cut off. Kindergartens together with public utilities were restored by the parents of children.

In total, the hurricane toppled 612 trees and 290 large branches in the city, the press service of the city reports. At houses facing crumbled, in total tore off 2,5 thousand square meters of a roof. Most of all got from the elements to the Sokol district. During Uranus, meter-long pieces of slate flew there. Wind gusts reached 30 m/s last night, while hurricane-force winds are considered at 23 m/s.

THE STORM TOOK THE LIFE OF ONE PERSON

49-year-old lipchanin was killed by a fallen tree. The tragedy occurred at 21.05 at the house number 74 on Kosmonavtov street. An old bird cherry fell on the man, felled by a gust of wind.

The victim was a guest worker who came from Uzbekistan. The man was returning home from the store. I waited out the hurricane under the porch canopy. When the storm subsided, I came out of hiding. But another gust of wind knocked down a tree that the unfortunate man was passing by.

- Arrived rescuers had to saw the trunk to remove it from the person. But it was not possible to save the man, - reported in the Department for civil DEFENSE and emergency situations of the Lipetsk administration.

TRANSPORT DRIVERS SPENT THE NIGHT IN CABS

The elements did not spare the city's fleet. As reported in the tram and trolleybus depot of municipal unitary enterprise "City electroransport", trolleybuses have broken Windows and trolleys, electric cars were fairly damaged and from water.

Tram and trolleybus lines were de-energized on Pobedy Avenue due to signs and billboards that fell on the wires. Eight tram drivers stayed overnight in cabs on the routes.

To transport workers returning from their shift, the city's transport Department organized special bus routes. By the morning of the next day, the rubble on the tracks was cleared, power was restored, and the residents of lipchane calmly got to work

THE DISASTER DE-ENERGIZED THE HOSPITAL

Doctors "Lipetsk" just that night on duty in the city. In the LTZ hospital, the maternity unit and the intensive care unit were powered by batteries. By three o'clock in the morning, LGEC specialists connected the building to a diesel generator and supplied electricity to the entire hospital complex.

Due to a gust of wires, on which trees fell, 115,000 residents of Lipetsk and 4,000 organizations were left without power. 22,000 residents were without cold water, and 16,000 people had their hot water turned off.

The hurricane stopped the operation of four boilers, six water intakes and five sewage stations.

THE TORNADO PASSED THROUGH THE ENTIRE REGION

In the village of Panino, dobrovskiy district, the elements destroyed a house. The owners-the Bekishev family-were inside the house at that moment.

- When the hurricane started, we heard a terrible crash and crash. From the house after the hurricane had not to go out, and get out-bricks filled up the entrance, - said the 25-year-old daughter of the owners of the house Mariana.

The building's roof was blown off and the gable was destroyed. This is the only building destroyed in the village. The Bekishev family bought it in 1990, when they moved here from Uzbekistan. There is destruction in Chaplygin. There, the wind knocked down trees and tore the roofs off multi-storey residential buildings.

Thank you

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the right side of the frame, creating a modern, layered effect against the white background.
