The castle in Mir

The castle in Mir is older than the castle in Nesvizh. It dates from the 15th century.

- There is no other castle in the world like this one. The builders used **red bricks** for the castle.

Since 1992 the castle in Mir has been a museum.

- This place is also famous for its beautiful park.

The castles are very interesting.
They are famous for their
ghosts.

The Nesvizh ghosts are the Black Dame and the Black Nun.

- The **Black Nun** likes to play tricks on people. The ghost can push someone or break a mirror. And the **Black Dame** still walks in the castle. It's the ghost of Barbara Radziwil.
