

# PRESENTATION: MY COMPANY

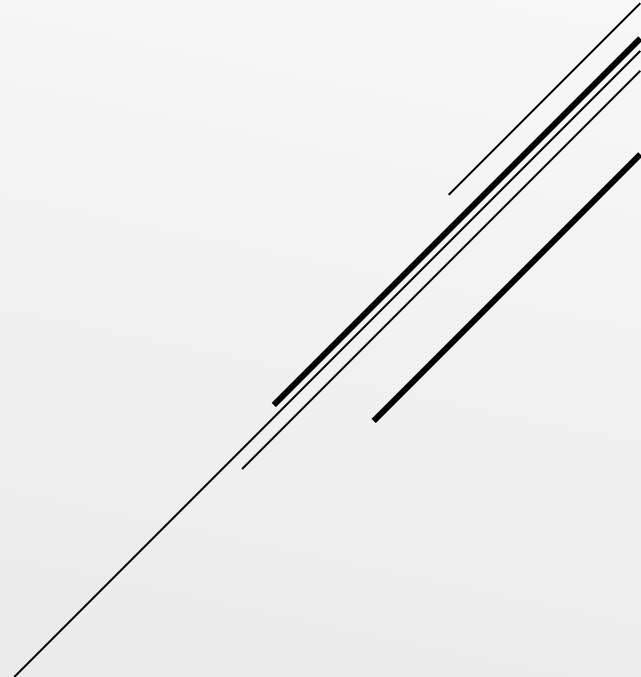

**Prepared by Misha**

# RESUME AND COMPANY DESCRIPTION

- ▶ Our company is engaged in the production and marketing of household chemicals in Russia and the CIS countries. The history of our company began in Simferopol in 2020, from the Mylnitsa store on Gogol Street. The store's work experience allowed us not only to study the wishes of retail customers, but also to evaluate that practically no high-quality import and creation of a new chain of stores was represented on the Russian market
- 

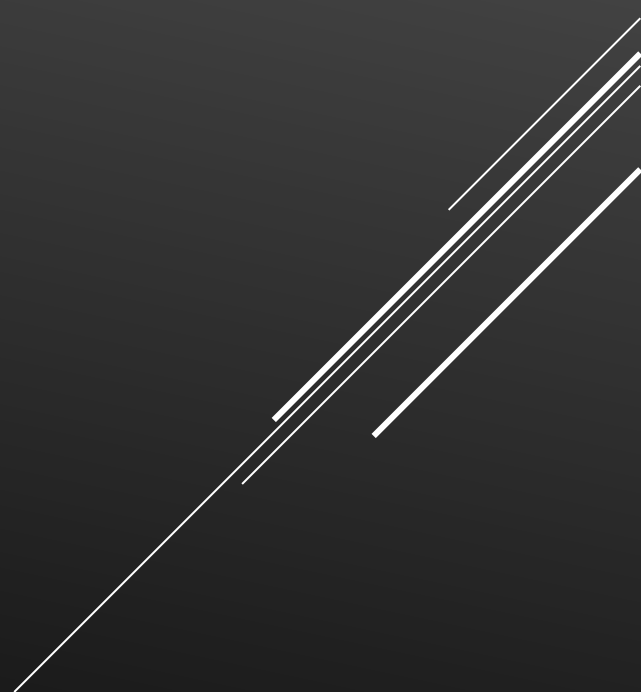

- ▶ We pay special attention to quality and environmental issues - many of our tools are made only of natural materials. Many years of experience has allowed us to form the optimal assortment, covering almost all product groups. Our company regularly offers its customers a flexible system of discounts as well as various promotions  
Since 2025, after a careful selection of suppliers, our wholesale company has been carrying out direct import deliveries of household chemical goods from Germany, Poland and France. Despite the results achieved, we continue to improve and expand our range, we are constantly searching for new suppliers.

**RANGE :**

# PRODUCTION PLAN

- ▶ Also in the future, it is planned to expand our product range and build new factories for the production of household chemicals in Belarus  
Our products are manufactured at two specialized factories located in Russia, which employ only highly qualified specialists. The latest equipment purchased in Japan helps us make quality chemical products for you.
- 

- ▶ As for the negative aspects of my business, the collapse of the company is possible, but only with the bankruptcy of manufacturers, which is almost impossible, however, with the possible collapse and bankruptcy of our company, all funds will be returned to investors through the sale of equipment and warehouses.
