Design studio in Kazakhstan

Interior design in Almaty

- **Design studio Brain twister - the leader among similar companies. From the rest of us are of high quality works from 3D visualization, finishing projects working drawings. This is due to high demands on themselves and employees. Every designer has a university degree and constantly improve their knowledge in various seminars and exhibitions dedicated to design and architecture.**
- **If you order the interior design in Almaty, you can rest assured, as applied to a specialist.**
- **Our work on the project consists of three phases:**

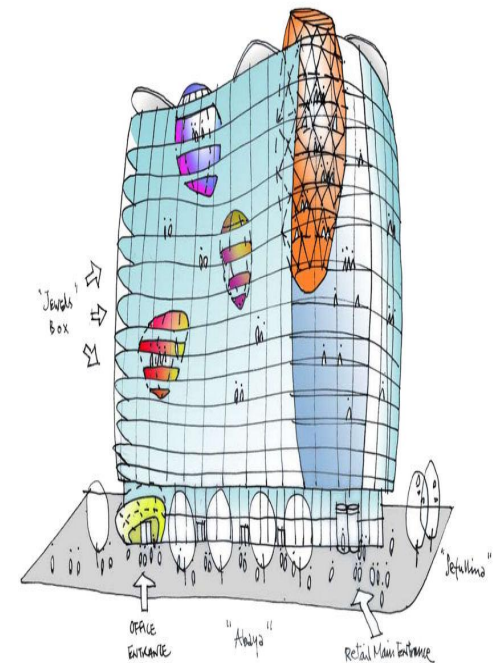

- **The first stage - the departure of the designer on the measurements, and the filling of the brief discussion, the requirements specification to design and develop options for layouts 2-3 / alterations to the plan of arrangement of furniture.**
- **The second stage - rendering 3D images to the design (3-4 angle for each room).**
- **The third phase - the development of documentation.**
- **Interior design is not an easy task, especially in Almaty, Almaty residents as indigenous is very demanding on the work of the designer, because they have a clear idea of what a design project**

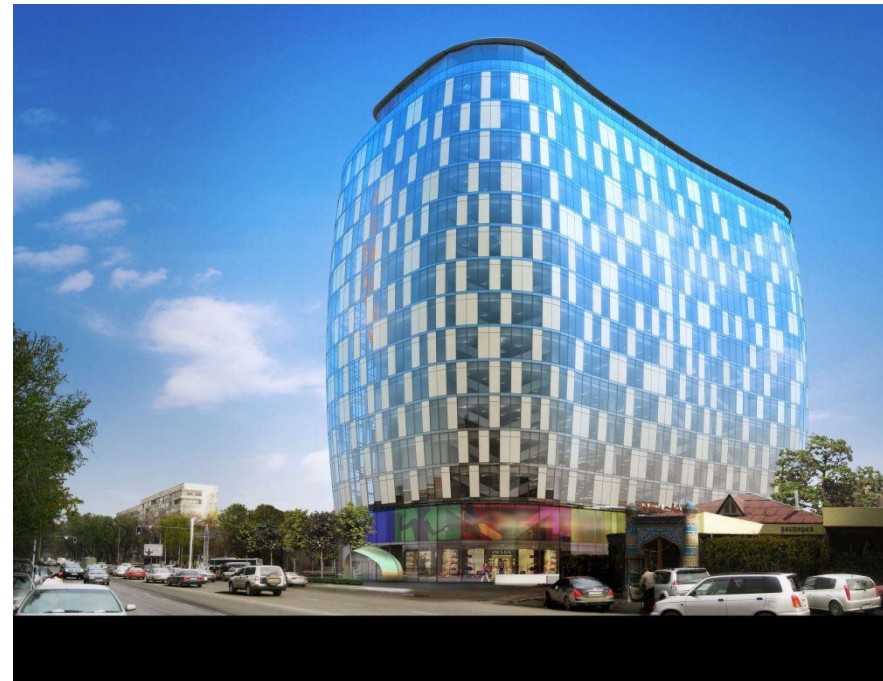

Aedas to showcase new 'landmark design' at Cityscape Abu Dhabi

- *Top 5 global architect firm, Aedas, are to showcase a new 'landmark design' for a development in Kazakhstan at Cityscape Abu Dhabi 2008. The colourful Abaya Seifullina commercial development will be built in Almaty for clients Platoon. The design is based around a 'jewel box' concept and will incorporate 'crystal' features and suspended pods in the design to accommodate the various uses within the building and create a strong visual presence.*

The arrangement of the building will maximise the views to surrounding mountains and aims to facilitate public circulation to the upper levels of the scheme with a rooftop viewing gallery, terrace, café and restaurant.

Cityscape Abu Dhabi will be held from 13th – 15th May at Abu Dhabi National Exhibition Centre and will host over 200 property, development and architecture exhibits
