- I want to travel the world. To see the most interesting and popular of the city. But I will show you only three cities where I want to go. This is Bora Bora, Milan and Venice.

- Why I want to go to Bora Bora ? Because this Paradise island in the South Pacific ocean. This is the most distant and famous resort in the world . This place is a Paradise for vacationers and for those who love tranquility and the ocean.

- Milan is a large city in Northern Italy, located in Lombardy, the world capital of design and fashion. Here is the stock exchange of Italy, so the city is also considered the financial center of the country. Milan is famous for its luxury restaurants and boutiques.

- Venice – the capital of the eponymous region in Northern Italy. Here no roads, the movement is only along the channels. The bustling Grand canal. Along it there are many palaces in Gothic and Renaissance style. St. Mark's square – the main city. Here is St. Mark's Basilica, decorated with mosaics in the Byzantine style, and the bell tower which offers a view of the red rooftops of the city.
