

Team design

1st page: Information about your team

- Name
- Original/unusual team photo
- Motto
- Logo

Show how creative you are!

Do you wanna win in “The BEST video” nomination?

*Make short video (less than 1 min)
about your team!*

*Show us your **team spirit!***

2 – 5th page: *Slides - Presentations*

On these pages you have to show your solution to our tasks & present it!

If you want to participate in EBEC'16 you should be as *magnificent* as possible!

Our requirements

- Presentation shouldn't include more than 5 slides (except introduction slide and “thank you “ slide)
- Describe the main idea & task solving steps
- Point out the advantages and disadvantages of your solution
- Text of your presentation must be in English

Our main task (70 Points)

«Amusement park»

Each of us wanted to get into Disneyland as a child. We all grew up but the passion for the amusement park remained.

But let's fast forward to the future. What do you think what attractions will be in the new Moscow amusement park.

What will tickle our nerves in 2057?

Suggest a prototype attractions of the future. How does it work? How does it look?

Enjoy

Extra task (30 Points):

We are waiting from you visual execution of your park. It can be drawing, sketch or 3D model. Use your imagination and skills.

Evaluation criteria & requirements

Page 1

Main requirements:

- 1) The presentation must be made in Microsoft Power Point (*.ppt;*.ppx). **Do not use a pop up windows to a slide!**
- 2) Text of your presentation must be **in English!**

Main criteria:

1. Creativity

How interesting and *unusual* the idea developed by team.

2. Originality

How new is the idea presented by teams. Are there any analogs in the world (the more there are analogs the less points you will receive).

Evaluation criteria

Page 2

3. Engineering skills & knowledge

- Idea viability

The idea demand to be evaluated now.

- Economic expenses

How expensive is the process of production and introduction of vehicle developed by teams.

- Completeness of presentation

How the team could explain the main idea.

4. Approachability

How the presentation is clear for other people.

5. Design of presentation

How the formalization of the presentation is complete, how structurally the team has used Power Point (it's requested not to overload presentation, because it will be also estimated if the presentation looks attractive).

BEST Moscow wishes you good luck, hard work and tons of creativity. We will be glad to see you at EBEC Moscow 2016!
