UNIVERSITY

The National Research Center (university) in Russia was founded in 1899.

IN TOP 250 BAUREATES WORLD **UNIVERSITY** RANKINGS

People who were studying and lecturing at **Peter the Great St.Petersburg Polytechnic University** during more than one hundred years made the contribution to fame and recognition of the university. The Nobel laureates such as P. L. K a p i t s a , N.N.Semyonov, Zh.I.Alfyorov, academicians A.F.lofe, I.V.Kurchatov, A.A.Radtsig, Yu.B.Khariton, chief designer O.K.Antonov —are just a few names among hundreds of talented scientists and production managers, whose activities are connected with the University and whose achievements were a basis for development of Russian science and engineering.

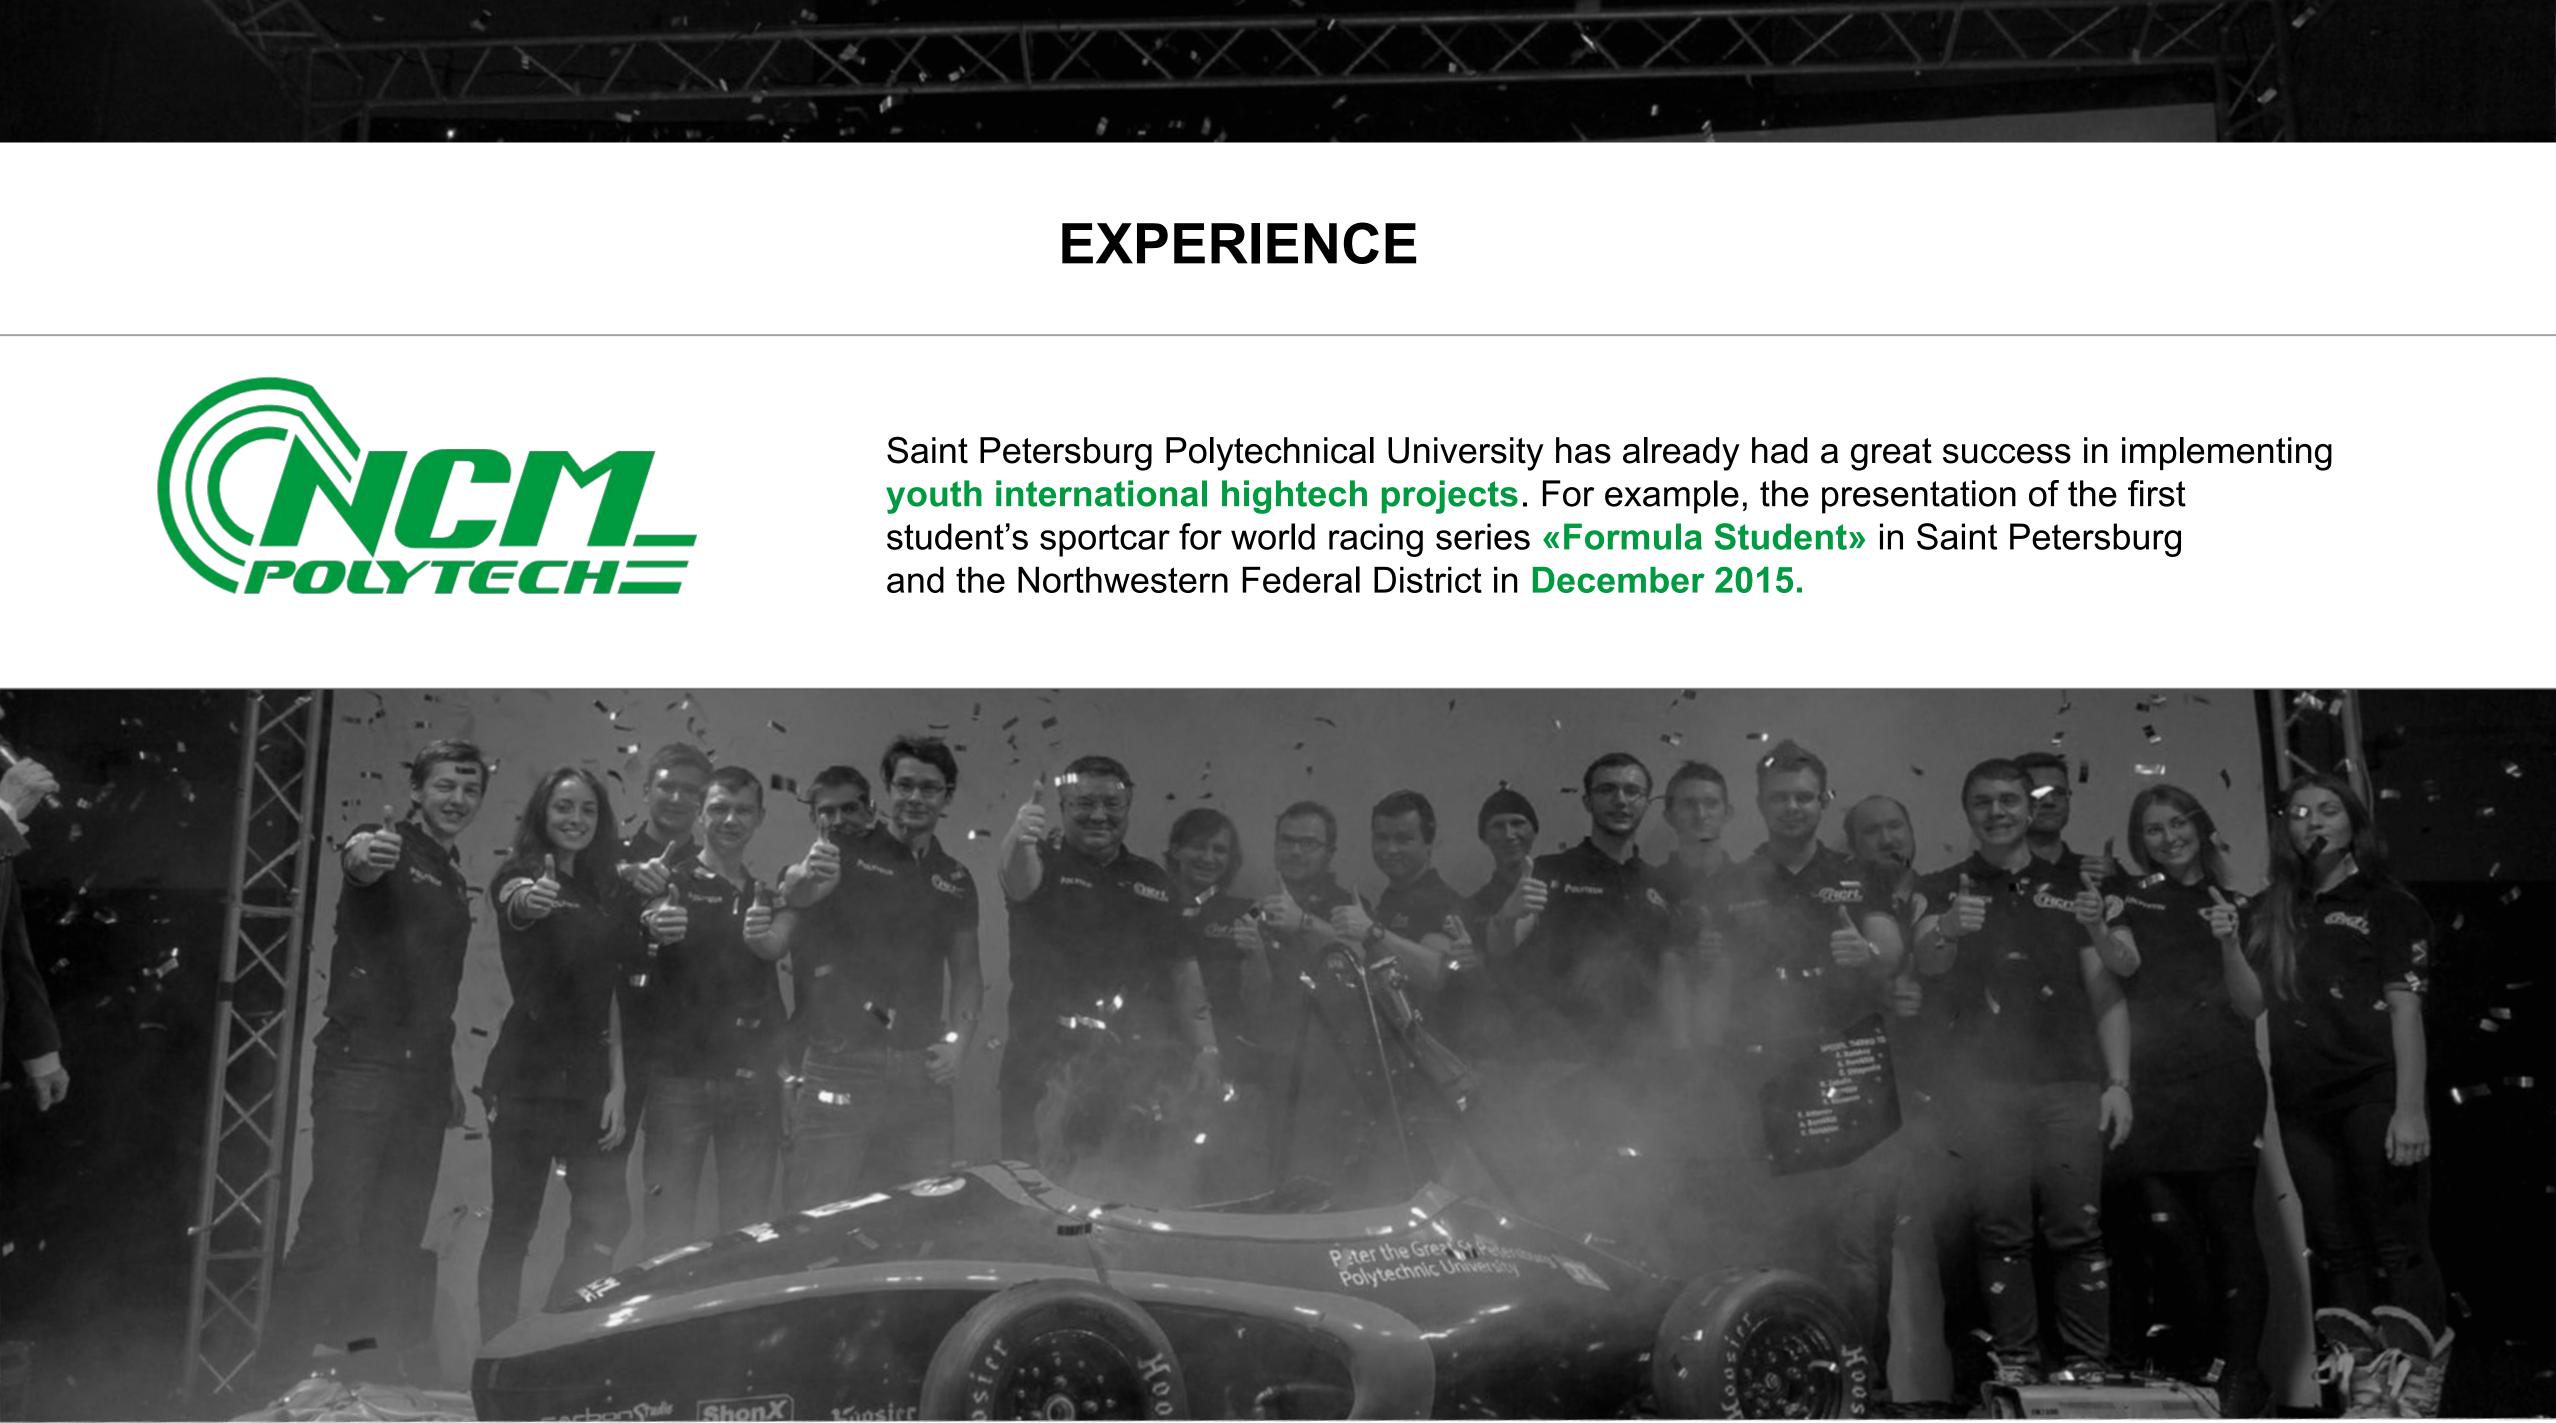

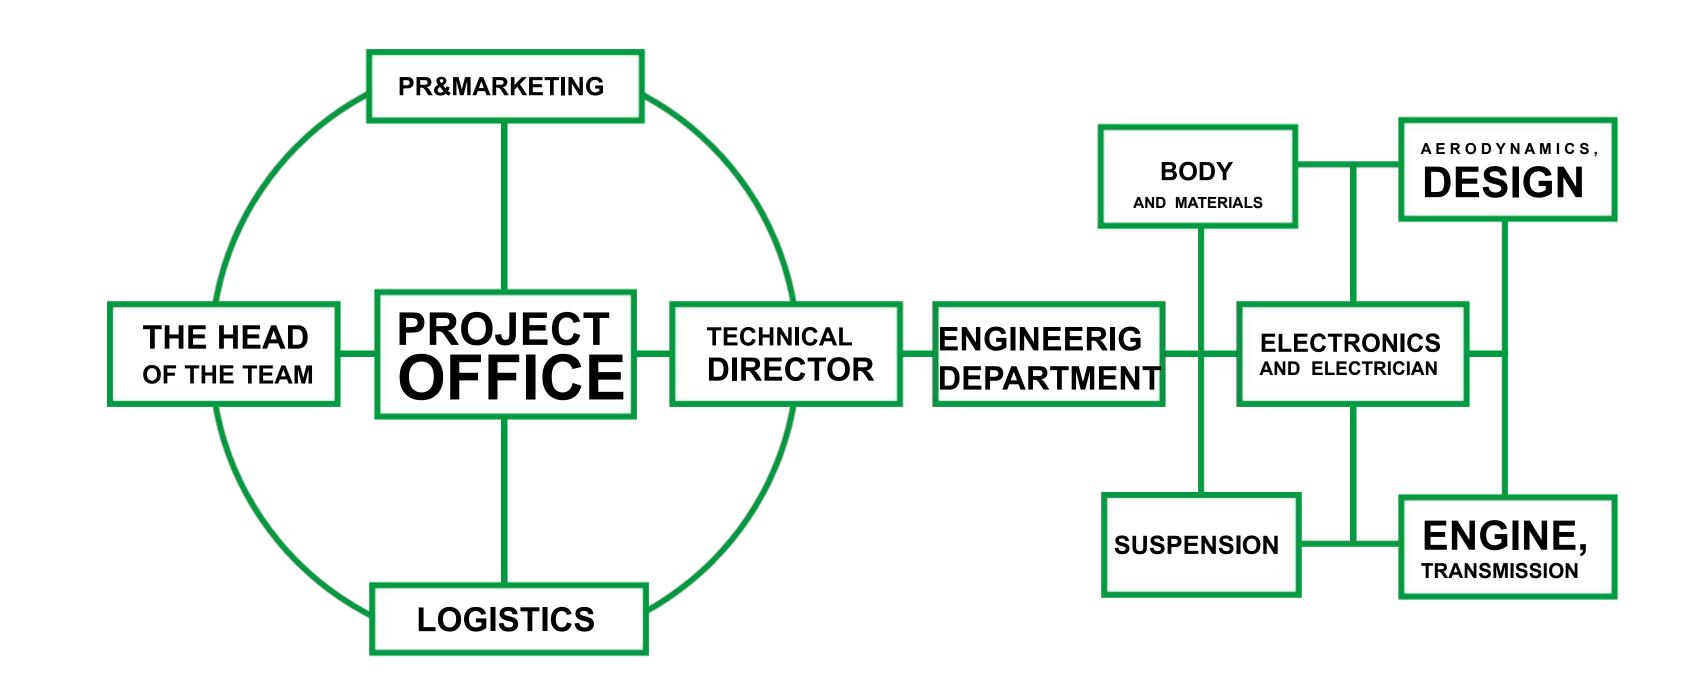

Saint Petersburg Polytechnical University has already had a great success in implementing youth international hightech projects. For example, the presentation of the first student's sportcar for world racing series **«Formula Student»** in Saint Petersburg and the Northwestern Federal District in **December 2015**.

POLYTECH SOLAR TEAM

TEAM STRUCTURE

Young and ambitious team consists of graduates and undergraduates from 8 diferent institutions SPbPU of Peter the Great. They show the main strength of the University — the tenacity and the spirit of the unity.

OUR PROJECT

LENGTH, WIDTH, HEI	GHT , MM	4500, 1800, 1050
PREDICTED WEIGHT,	KG	UP TO 250
WEIGHT OF THE PILO	T, KG	UP TO 80
NUMBER OF WHEELS		4
NUMBER OF THE DRI	VING WHEEL	S 2
TIRES	MICHELI	N SOLAR SPECIAL

SINGLE CRYSTALLINE SILICON CELL TYPE

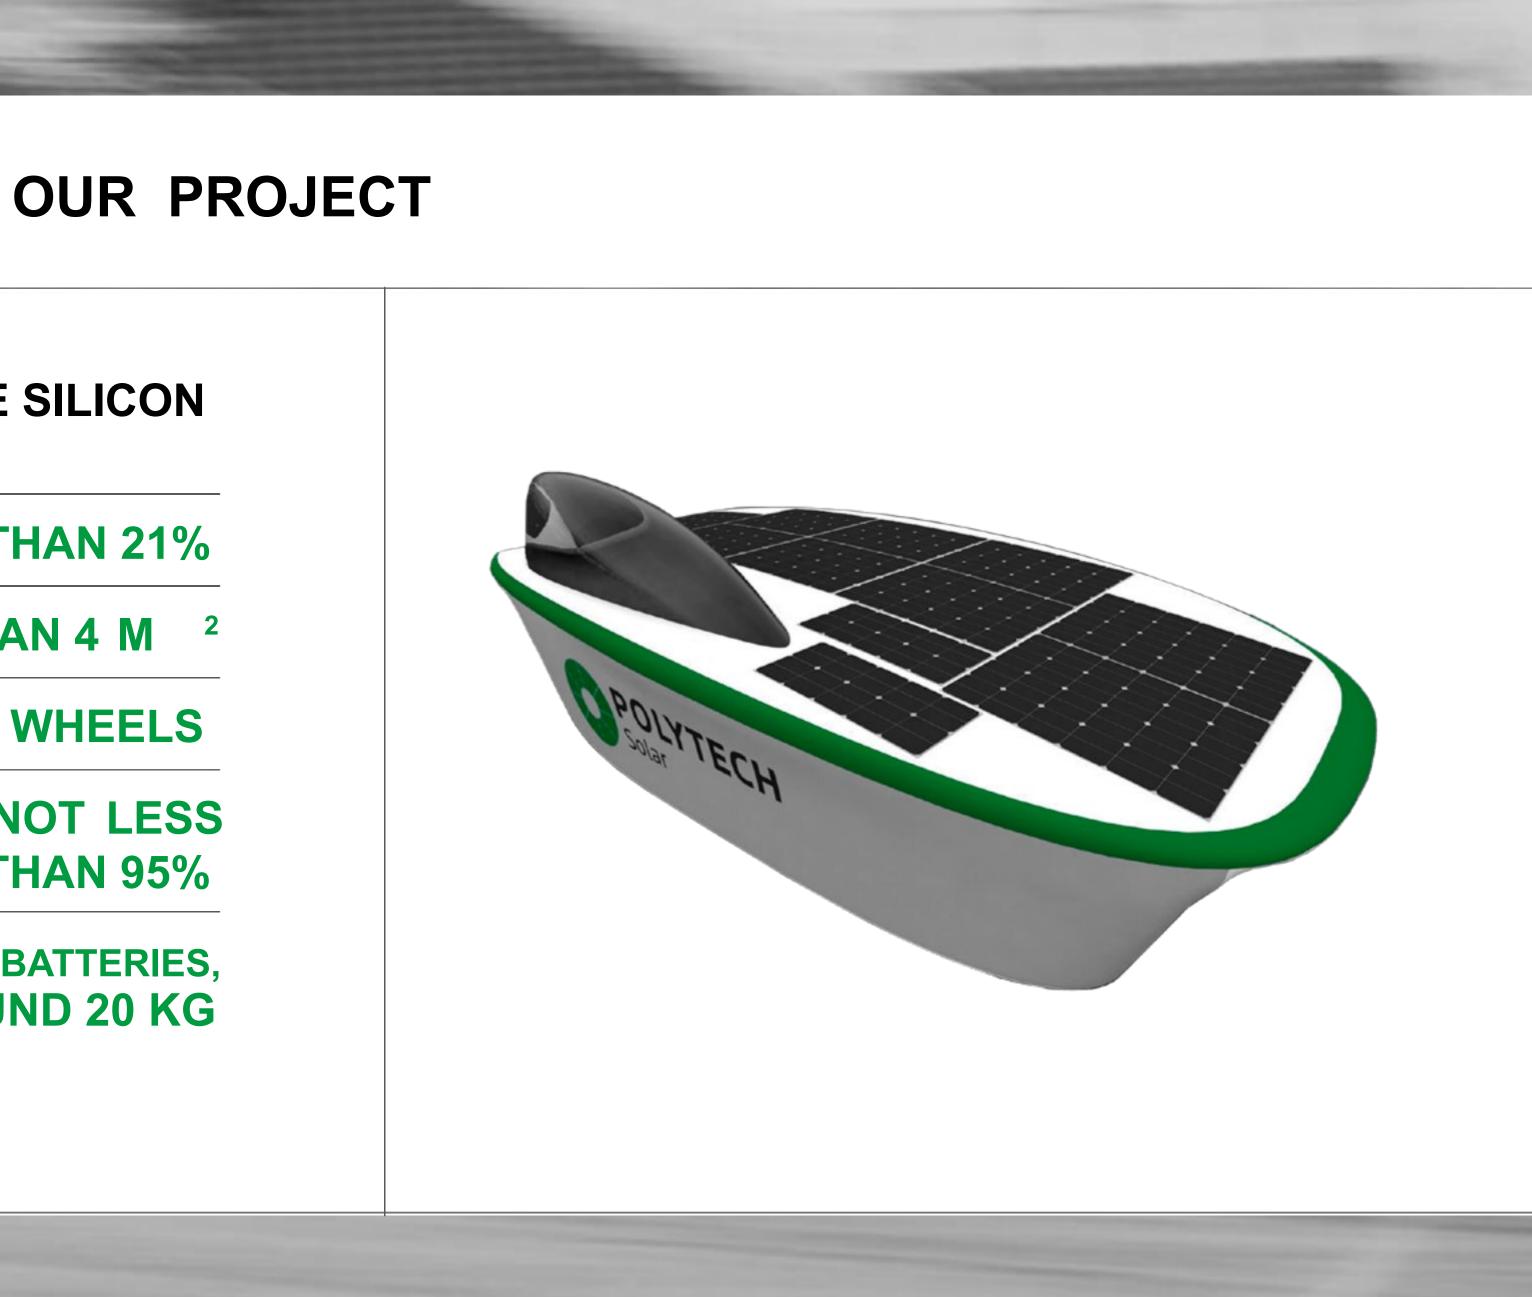

SOLAR CELL EFFICIENCY MORE THAN 21%

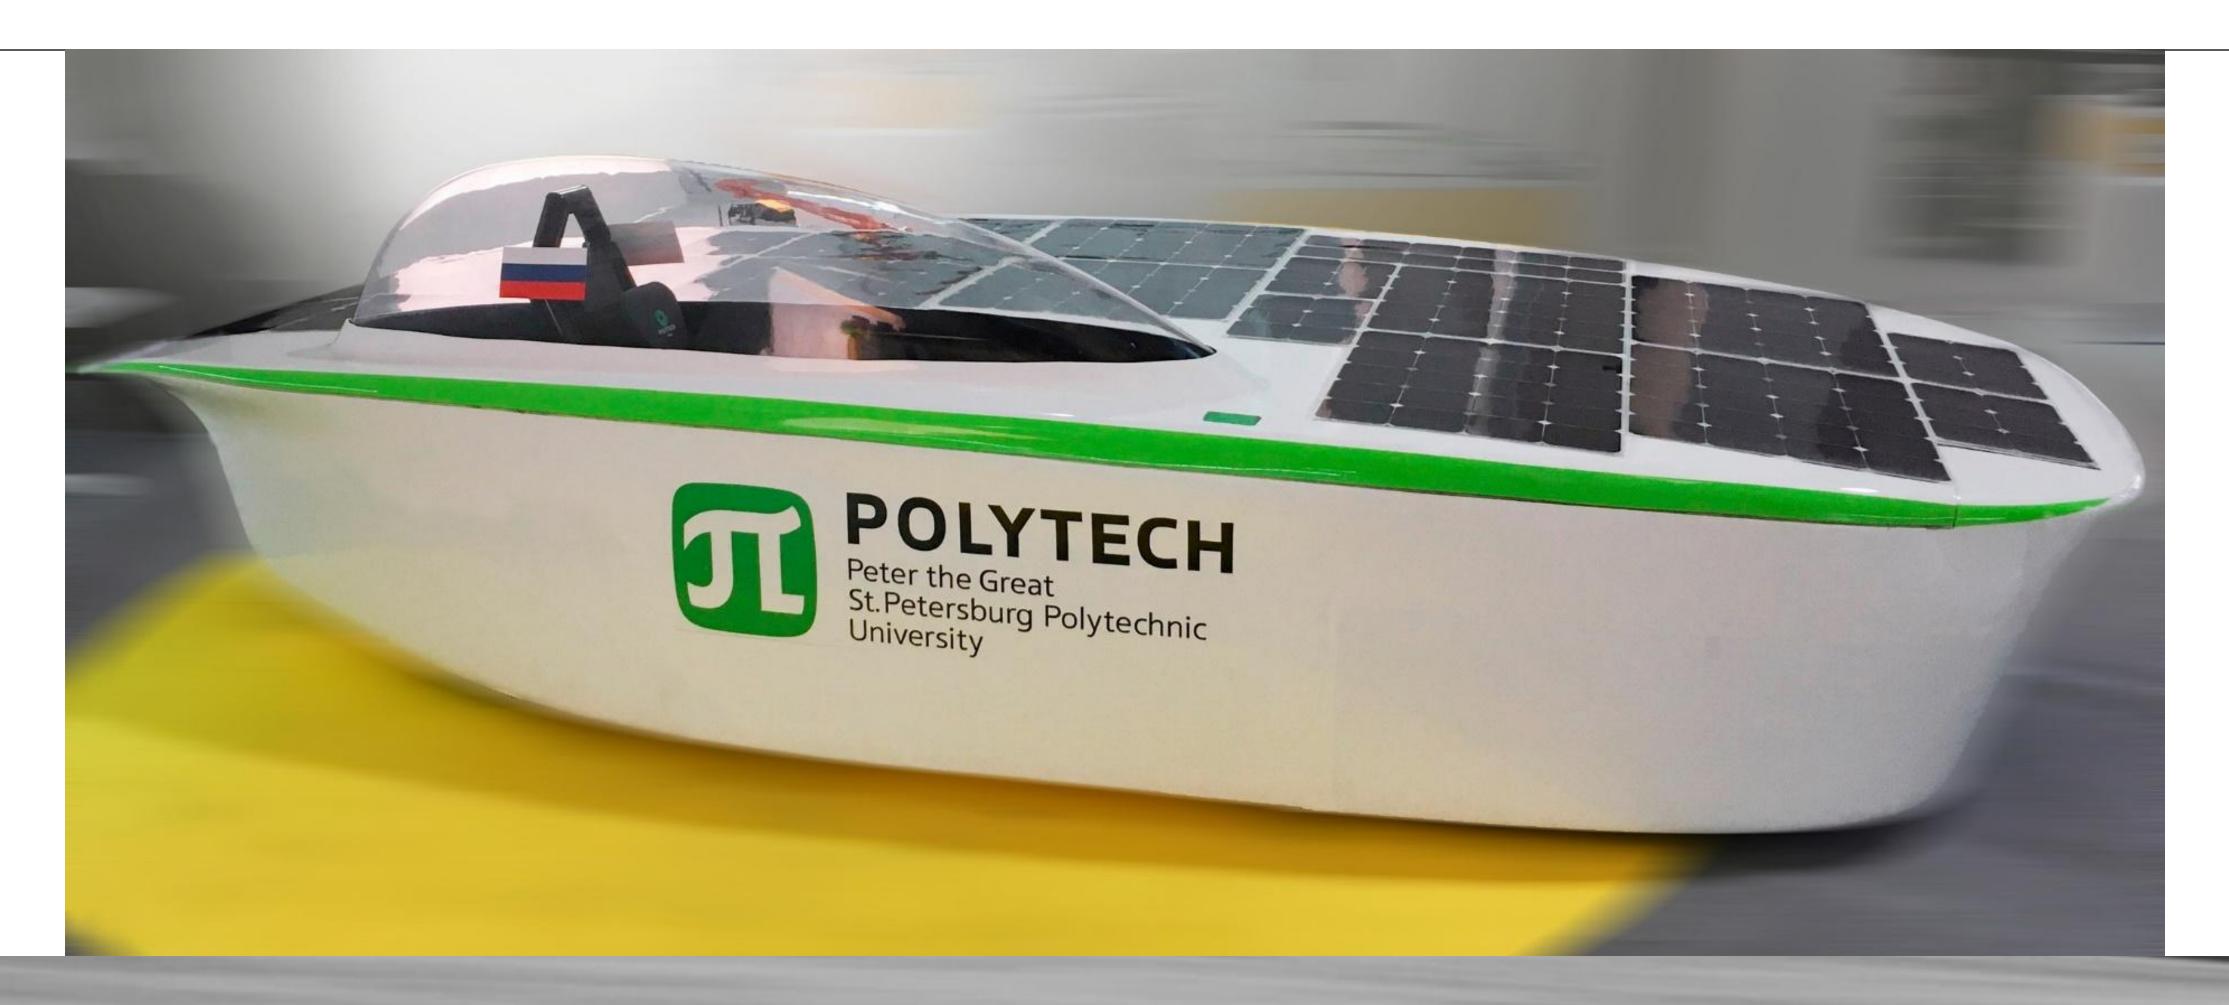

CELL PANELS NOT LESS THAN 4 M

RUNNING GEAR ELECTRICAL MOTOR WHEELS

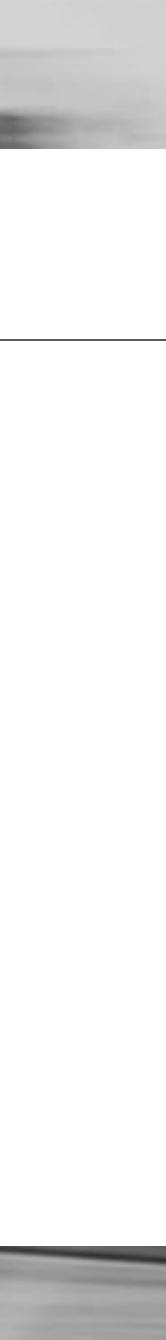

ELECTRIC MOTOR	NOT LES
EFFICIENCY	THAN 95 %

ONBOARD **PACKAGE UNITS LI-ION BATTERIES**, WITH THE WEIGHT AROUND 20 KG BATTERIES
