The state symbols of the Republic of Kazakhstan

Kazakhstan was officially adopted **the state symbols in 1992**

the Anthem, the Emblem and the Flag

as a inalienable attributes of the Republic of Kazakhstan and its independence.

The Flag

The State Flag of the Republic of Kazakhstan

is a rectangular breadth of blue colour with the image of the sun in its center with a soaring steppe eagle underneath.

Along the flagstaff there is a vertical band with the national ornamental patterns.

The images of the sun, rays, eagle and ornament are of golden colour.

The ratio of the Flag's width to its length: 1:2.

2.The Emblem of the Republic of Kazakhstan

The Emblem of the sovereign Kazakhstan was officially adopted in 1992.

The authors of the State Emblem are Kazakhstan's famous architects **Zhandarbek Malibekov and Shot-Aman Ualikhanov.**

The State Emblem of the Republic of Kazakhstan has the shape of a circle (wheel).

It is a symbol of life and eternity that was especially valued among the nomads of the Great Steppes.

3.The State

Anthem of the Republic of Kazakhstan

In the history of sovereign Kazakhstan the national anthem was adopted two times: in 1992 and 2006.

from January 7 , 2006 the popular song wrote in 1956 became the anthem of RK , changing by N.Nazarbayev.

Music Sh.Kaldayakov

Poem: Zh.

Nazhimedenov(1956),
and

N.Nazarbayev(2005).

*Алтын күн аспаны,
Алтын дән даласы,
Ерліктің дастаны,
Еліме қарашы!
Ежелден ер деген,
Даңқымыз шықты ғой.
Намысын бермеген,
Қазағым мықты ғой!*

Қайырмасы:

**Менің елім, менің елім,
Гүлің болып егілемін,
Жырың болып төгілемін, елім!
Туған жерім менің – Қазақстаным!
Ұрпаққа жол ашқан,
Кең байтақ жерім бар.
Бірлігі жарасқан,
Тәуелсіз елім бар.
Қарсы алған уақытты,
Мәңгілік досындай.
Біздің ел бақытты,
Біздің ел осындай!**

IV period - beginning 1993 March 1995

Period between 2 Constitutions

Establishment of new state on the base of a deepening economic crisis led to contradictions;

It was a period of the transition to market relations, foundation of the new juridical fundamentals of the state

V - period - from August 30 1995 - Autumn 1997

(Do you remember the main events of these dates?)

Important at this stage was the adoption of the strategic program

"Kazakhstan - 2030. Prosperity, security and welfare of all Kazakhstani "

The last years characterized as period Starting of the processes democratization of the society and growth of the independent Kazakhstan

(after Transition of the capital new state from Almaty to Akmola and renaming Akmola to Astana – **May 6, 1998**)

Constitution Republic of Kazakhstan – the main law of the state

There was adopted by referendum on 30 August 1995

Kazakhstan is unitary, democratic, secular, law state.

It is a presidential republic. The President is a head of the state , symbol and guarantor of the unity of people and the state.

Legislative power belonged to the Parliament, consists of two Chambers: the Senate and *Majilis*.

The government has executive power. Its leader is the Prime-minister

Judicial power is headed by Supreme Court. People of Kazakhstan – is a unique source of the state power.

Protect of motherland is sacred duty of each citizen of RK.

(In 1998, amendments were made to the Constitution of the Republic)

Қазақстан 2030

HAMELEONS.COM

КАЗАХСТАН - 2030

The strategy “Kazakhstan – 2030”

The following main long-term priorities were identified in the strategy “Kazakhstan – 2030”:

1. National Safety;
2. Domestic Stability and Consolidation of Society;
3. Economical Increase;
4. Health, Education and Prosperity of the citizens of Kazakhstan;
5. Energy Resources;
6. Infrastructure, Transport and Communication;
7. Professional State.

Main results

1. *National security.*

The state border delimited- 14,000 kilometers. Created a strong, modern, army defense capability, an effective law enforcement system which ensure the safety of the individual person, society and state.

2. *The internal political stability and consolidation of society.*

Kazakhstan from the moment of finding of independence chose the way of construction of the state principles of tolerance and consent of citizens and people dominate in that. On these principles in Kazakhstan is developing the consolidation of society, unity of ethnic groups into one nation – “Казахстанцы”.

Realization of elections of deputies of Mazhilis became direct activation of democratization of society and state on the mixed electoral system in 1999. Constitutional reform of this year became the second stage of democratization of the political system of Kazakhstan. Reform entered new principles of cooperation of society and government.

3. Economic growth based on an open market economy with a high level of foreign investment and domestic savings.

- The main purpose of this priority was the post-crisis development of the economy, based on the accelerated pace of development of the oil and gas industries as a basis for the revival of the non-oil sector and increase government revenues. The result was achieved rapid growth of the oil industry. This led to is currently in Kazakhstan accounts for 1.6% of global production of tones of oil and gas condensate.
- The Gross domestic product grew more than in 16 times. Within the framework of the program of a force industrialization from 2010 397 investment projects are realized and more than 44 thousand workplaces are created.

4. Health, education and welfare of citizens of Kazakhstan

- An average monthly salary grew in 9,3 time.
- The middle size of pension payments increased in 10 times.
- Created medical cluster, which includes 5 innovative health facilities: a children's rehabilitation center, maternity and childhood centers, neurosurgeons, emergency medicine and cardiology centers.
- According to the data of 2013, the population increased from 14 to almost 17 million. The life expectancy increased to 70 years.
- Since 1997, throughout the country 942 schools and 758 hospitals were built.

5. Energetic resources.

- There has been steady growth in the share of oil and gas sector of the country's GDP, which grew 3.7% in 1997 to 14.7% in 2006 and 25.8% in 2013.
- The success of socio-economic development of Kazakhstan have been recognized by all international financial and credit rating agencies. In recent years there has been a constant improvement in almost all world rankings of Kazakhstan.

Infrastructure, particularly transport and communications

- In accordance with these programs were built dozens of road and rail routes that have become integral parts of the transport corridor "North-South" and the revival of the program "Silk Road» - TRASEKA.
- Along the transport corridors "North-South", "East-West" in the past 10 years have been laid fiber-optic communication lines. In late 2005, it was launched by the Kazakh communications and broadcasting satellite KazSat.

- *Each independent country should have its own development program, without this country's future is uncertain. It is one thing to adopt such a program and quite another to put it into practice. The strategic program "Kazakhstan-2030" - is a document of great historical and political significance. It contained a detailed analysis of the situation of the republic at the moment, it was discovered "Mission of Kazakhstan", and set out such "priority long-term objectives" Today, many scholars and political analysts in the country believe that "Kazakhstan-2030" strategy was for a young sovereign republic something more than the next development plan.*

Kazakhstan's model of sustainable social-economic development

market reforms in the economy of Kazakhstan's independence includes 2 stages

- 1 stage conventionally from 1992 to 1997

During this period there was a process of transition from the distribution of Kazakh society administrative-command system to a market relations based on private property and competition.

economy was in a deep stage of production and financial crisis had a negative impact on all areas of development and required a quick decision, and sometimes unpopular decisions in society.

- 2nd stage began in 1998

after the adoption of the Development Strategy "Kazakhstan-2030".
With the adoption of this document began the creative process to achieve long-term goals and priorities, to build a steadily developing economy, high trend rate of economic growth

Kazakhstan – the new nation in the system of international relations

- The economy has been radically transformed to a market economy, able to be integrated into the world economy
- Kazakhstan has voluntarily refused to host and test nuclear weapons on its territory and declared itself as a nuclear-free country
- Kazakhstan's foreign policy has aimed to achieve international guarantees of Kazakhstan's sovereignty and independence.

The Republic of Kazakhstan has diplomatic relations with all countries of the UN.

Main geopolitical partners of Kazakhstan – Russia, , the United States, China, the European Union, Turkic countries and the Middle East and others

Kazakhstan is a member of the OSCE, CIS, CSTO, the CAC, the Organization of the Islamic Conference, Euro-Asian Economical Collaboration, SCO, CICA, the organization - the Council of Turkic-speaking countries, Turkic military council, Individual Partnership Action Plan with NATO (since 1994),

- Turkic military council,
- Individual Partnership Action Plan with NATO

achievements

Today in our country,

- mostly completed structural reforms in the economy:
- be privatized state property;
- formed economic environment,
- adequate standards developed market.

Kazakhstan among the first CIS member-states developed countries recognized as a market economy.

Kazakhstan is implementing a program of industrial-innovative development of the country until 2015.

2013, December – adopted new program “Kazakhstan -2050”

aim - make Kazakhstan one of the 30 most competitive countries in the world.
