Technology has changed education

Technology changed the ways of communication

New kind of habits and digital addictions

Lifestyle changes that happened after the use of technology

A person is sitting at a desk in a dimly lit room, working on a laptop. The laptop is open, and the person's hands are visible on the keyboard. The room has a lamp on the right side, a vase of flowers on the left, and a small table with a lamp on the right. The text "Confusion between Productive and Busy lifestyle" is overlaid in the center of the image.

**Confusion between
Productive and Busy lifestyle**

Our critical thinking skills are almost dead

Why?

Technology is making a difference in between business processes and systems

A hand is shown writing on a document with a white marker. The document contains a flowchart with a pink oval and a yellow highlighter. A smartphone with various app icons is visible in the foreground. Several other highlighters in various colors (blue, pink, green, orange) are scattered on the desk.

Latest Information Technologies are impacting our work and in the way we do business.

Cloud computing technology and cloud storage are another change that is happening currently

Cloud Computing

The negative and positive impact of technology on workplace productivity

Technology has changed the behaviors and
upgraded human greed

A tiger is shown roaring with its mouth wide open, showing its teeth and tongue. The tiger is superimposed over a background of a forest with tall evergreen trees. The scene is bathed in a red, hazy glow, suggesting a sunset or a fire. The overall mood is intense and aggressive.
