Firstly, it is symbol of Great Britain. Secondly, it is the largest and the most famous clock in the world.

A photograph of the Big Ben tower at night, illuminated with warm lights. The tower's two clock faces are visible, showing the time. The background is a dark night sky filled with a large, vibrant firework display, featuring a large starburst in shades of orange and red, and a purple and blue firework below it. The overall scene is festive and celebratory.

Originally, Big Ben is a tower. It's one of the highest towers of Westminster Palace.

A photograph of Big Ben in London at dusk. The clock tower is illuminated from within, and its two clock faces are glowing. The sky is a soft, warm orange. In the foreground, a black street lamp with two glowing lanterns is out of focus. To the left, the ornate facade of a building is visible. To the right, the spire of a Gothic church is seen in the background.

**Officially, the clock
has started its work
on 31 May 1859**

Official name of the tower is the "Westminster Palace Clock Tower" or "St. Stephen's Tower".
