# Vocabulary

A pair of hands is shown from the top, cupping a small, realistic globe of the Earth. The globe is centered in the frame, showing continents and oceans. The hands are positioned as if gently holding the planet. The background is a soft-focus, vibrant green, suggesting a natural, outdoor setting with foliage.

**Air pollution**

**Water pollution**

**Soil pollution**

**Light pollution**

**Littering**

**Homegrown foods**

**Carbon dioxide**

# Air pollution

# Water pollution

# Soil pollution

# Light pollution

A composite image where the map of Europe is filled with a dense field of multi-colored stars (red, yellow, blue, white) against a black background, symbolizing light pollution. The stars are scattered across the landmasses, with some appearing as bright, multi-pointed shapes, while others are smaller and more numerous. The overall effect is a vibrant, starry representation of the continent.

Littering

# Homegrown foods

Dump

# Carbon dioxide

Until recently the planet was a large world in which human activities and the nature were in balance. The people lived in harmony with nature and didn't pollute it.

But nowadays, environmental problems are the most burning for the modern society. The air we breath, the water we drink, the ground where we grow our food, and even the increasing noise we hear every day, that`s all contribute to health problems and a lower quality of life. People cut down trees, destroy the habitats of thousands of animals and contaminate water in rivers and seas. The increasing numberof cars in towns and cities has led to the growth of the level of carbon dioxide in the atmosphere. Also, you know, that many rare animals and plants are disappearing, so I think it`s our duty to care and save animals. The problems are so serious nowadays, that they should be solved without delay.

We must care, where we live, because we can change the world and we can make it better! If the Earth is green, it's a healthy planet, and I want to make it green. As for me a green Earth means that water, air and soil are clean. People breath fresh air and I hope our future generations will do it too.

# So, let`s leave in peace with our environment!

**Save the nature!!!**
