

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 1.5 minutes to read it.

Antarctica is the driest place on earth. Parts of the continent have seen no rain for two million years. A desert is technically defined as a place that receives less than 10 inches of rain a year. The Sahara gets just 1 inch of rain a year.

As well as the driest place on earth, Antarctica can also claim to be the wettest and the windiest. Seventy per cent of the world's fresh water is found there in the form of ice, and its wind speeds are the fastest ever recorded. The unique conditions in the Dry Valleys of Antarctica are caused by so-called katabatic winds. These occur when cold, dense air is pulled downhill simply by the force of gravity. Though Antarctica is a desert, these completely dry parts of it are called, somewhat ironically, oases. They are so similar to conditions on Mars that NASA used them to test the Viking mission.

**You have decided to order some food and you are calling to find out more about it.
In 1.5 minutes you are to ask five questions to find out the following:**

- availability of pizza
- if all ingredients are natural and fresh
- what kind of packaging is available
- cost of apple juice
- delivery options

Imagine that while visiting schools in Moscow you took these photos. Present one photo to your friend. You will have to start speaking in 2 minutes and will speak for not more than 2 minutes. In your talk remember to speak about:

- when you took the photo
- what/who is in the photo
- what is happening
- why you took the photo
- why you decided to show the picture to your friend

Study these two photographs. In 2 minutes be ready to compare and contrast the photographs .

- 1) give a brief description of the photos (action, location)
- 2) say in what way the pictures are in common
- 3) say in what way the pictures are different
- 4) say which way is more preferable for you
- 5) explain why
