Ryazan State University

Ryazan State University named for S. Yesenin is an institution providing higher education services, aiming at innovations based on up-to-date educational strategies.

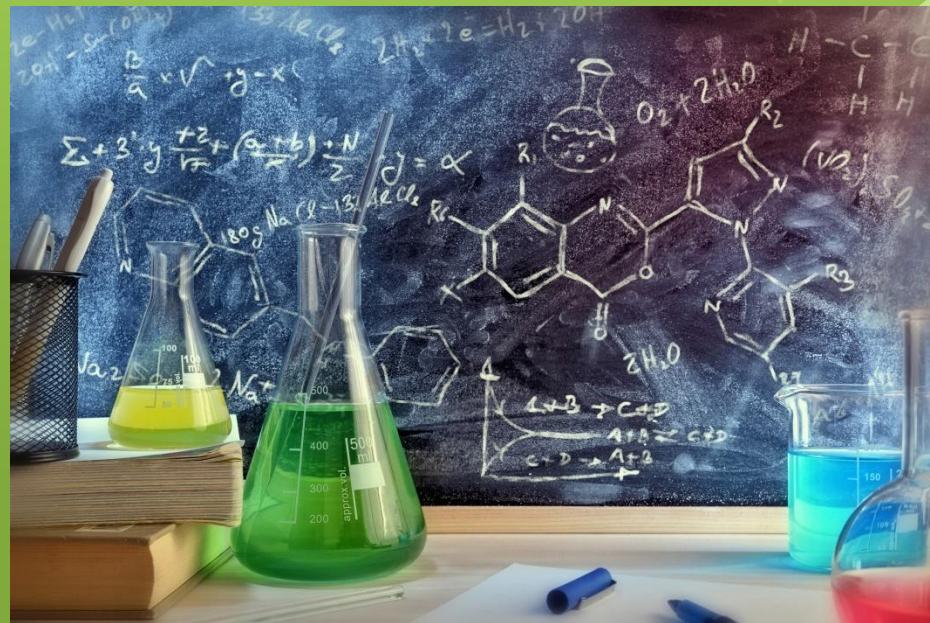

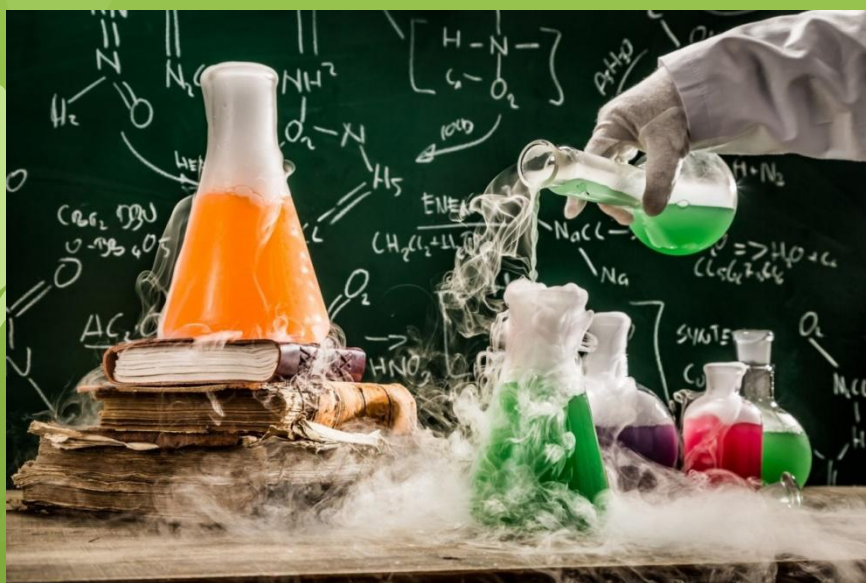

The Faculty of Natural Sciences

The Faculty of Natural Sciences has six Departments. They turn out ecologists, biologists, chemists, geographers, hotel managers and tourism specialists. I'll tell you about the Chemistry Department.

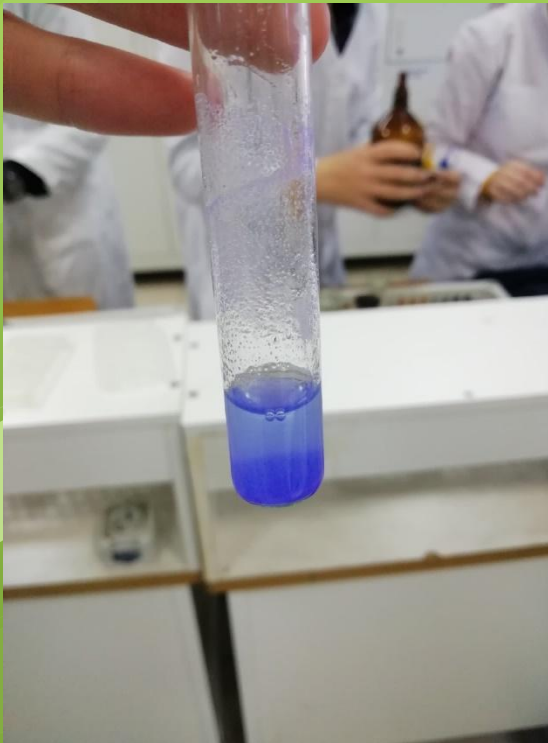

Chemistry Department

Courses in organic and inorganic chemistries give would be specialist an insight into the chemical structure of animate and inanimate matter. It is very interesting and exciting to study chemistry and conduct various experiments.

Chemistry

Chemistry is the study of substances, mixtures, compounds, their properties, structure and transformations.

Chemistry

We learn a lot of new things at lectures. In practical classes, we apply our knowledge and conduct experiments. It is very interesting to be in the chemistry room, because only here you can see a lot of different chemical solutions.

Chemistry

I chose the Chemistry Department because chemistry is a very interesting science. It can be tested by experiments, which only increases my interest. I think that chemistry is a very beautiful science, because you can get different colors of solutions. This is surprising.

The end

In the end, I want to say that I have never regretted that I chose this Institute. I am sure that this is here I will learn a lot of new and interesting things.
