

BELGRADE - SERBIA **EXCHANGE SUMMER 2018.**

INVITATION PACKAGE

designed for students and young professionals

Students of Science * Biology * Biochemistry * Young Doctors * Pharmacist * Veterinarians *

About **Torlak Institute**

The Institute of Virology, Vaccines and Sera “Torlak” is a national institution for prevention, treatment and monitoring of infectious diseases. It was founded by the Government of the Republic of Serbia.

The Institute “Torlak” is one of the oldest institutions of this kind in the world, with more than 80 years of tradition and experience.

The Institute “Torlak” has four national reference laboratories for diagnostics, three of which are certified by the World Health Organization.

About **Torlak Institute**

The Institute carries out scientific research and educational activities in cooperation with the **University of Belgrade**.

The Institute “Torlak” is engaged in:

- ▶ Production of vaccines, sera and other immunobiological and diagnostic preparations
- ▶ Virological, bacteriological and immunological-allergological diagnostics
- ▶ Supplying domestic market with the vaccines from the obligatory immunization program
- ▶ Vaccines storage and distribution - National Vaccine Store Certificate by WHO and UNICEF, 2009.

Torlak Institute **MISSION AND VISION**

With its extensive experience, the Institute “Torlak” contributes to the worldwide efforts aimed at the prevention and eradication of infectious diseases.

The production of recognizable, top quality, safe and efficient vaccines, sera, allergens, dehydrated bacteriological media and food supplements is the basis of the Institute`s strategy. It is carried out through continuous quality assurance processes, from the procurement of starting materials, through production, to the final control, storage and distribution to the market.

With the continuous development of microbiological diagnostics, the Institute’s reference labs represent a significant factor in the healthcare system of our country and the world.

Our goal, as a respectable manufacturer of vaccines and immunobiologicals, is to meet market needs of the countries in the South-East Europe, and to remain recognizable as the institution one can rely on.

Torlak Institute WELCOME MESSAGE

Dear students and young professionals,

We are inviting you to grow your knowledge with us. Our Institute is opened for young people who are willing to put effort in professional improvement. Education at our Institute is carried on in cooperation with University of Belgrade. History and contemporary practice at Torlak Institute are gurantee that you will participate in one of the best European exchange programs.

Our beautiful city of Belgrade and Republic of Serbia are very popular destination for many people round the Globe. You will have also rich social program together of guests of our partner organizations: SrMSA (Serbian Medical Students' Association) and BOSS (Biomedical Assotiation of Serbian Students). Join us and have great summer of 2018. in Belgrade!

Dejana Kosanovic, Torlak exchange program coordinator

WHY BELGRADE?!

Serbia is situated “somewhere in the middle of Europe”. It offers visitor many different things to see and explore. Serbian people are traditionally hospitable, friendly and opened, they like to share, enjoy free time, drink, eat and talk a lot with their friends. Beside Serbian original culture, tradition and history you will find out much more thanks to geography.

Belgrade is seriously old town, with signatures of Celts, Romans, Hungarians, Ottomans and Serbs of course. It is capital and largest city of Serbia and it has great places for exploring arts, culture, history, nature and so on. During summer “Ada lake” is known as “See of Belgrade”. Night life and many popular festivals situated Belgrade in top of destinations for young people according to worlds’ top travel guidebooks.

There are so many more reasons why you should visit Belgrade and probably you will have one of your own after summer 2018. You will plan to revisit Belgrade, same as many “old guests”, because of that one “personal” reason.

Dr Djordje Indjic, Serbian Students’ Medical Association

Institute of Virology, Vaccines and Sera

WHY BELGRADE?!

WHY BELGRADE?!

torlak

Institute of Virology, Vaccines and Sera

Training in Laboratory of Immunology at the Institute “Torlak“ is for:

- ✓ Students of Science,
 - ✓ Biology,
 - ✓ Biochemistry,
 - ✓ Young Doctors,
 - ✓ Pharmacist
- ✓ and Veterinarians

You will get the opportunity to see the housing of experimental animals (mice, rats and guinea pigs), and handling of them for experimental purposes (the anesthesia application, collection of biological samples and their preparation for histological and immunochemical analyses).

After two weeks of clerkship students will get knowledge in:

Histological methods:

- preparing of paraffin embedded samples
- use of microtome for making histological slides
- hematoxylin and eosin staining of prepared samples
- microscopy

Immunological method:

- ELISA (Enzyme-linked immunosorbent assay) is used to detect the presence of an antibody or an antigen in a sample.

Laboratory animals welfare:

- according to SLASA (Serbian Laboratory Animal Science Association)
- and European ethical standards

Aseptic techniques:

- work in laminar flow cabinet

Students will get the tour of the Institute “Torlak”:

- Diagnostic sectors - Bacteriological, Virological, Immunological.
- Production sectors - Vaccines, Sera, Probiotics, Nutrient Culture Media.
- Animal facilities - Horses, snakes, rats, guinea pigs, mice, sheep.

ABOUT ACCOMODATION

We take pride in the accommodation. All our guests will stay in one of the best student dorms in the city.

Hostel is located near the center. Rooms are safe, clean and comfort each with it's own bathroom. It has reception and wide yard. Staff is friendly and professional. Each room has it's own safe, but there is also central one at reception. Laundry service is available on demand.

Beside wide yard hostel has relaxation area with darts and 8 ball pool, and in the campus you will have opportunity to use a newly renovated gym and a swimming pool. There are also outside sport fields, computer hall, party rooms and arts gallery so you will always have something new to do.

ABOUT SOCIAL PROGRAM

Together with partner organizations we offer:

Exploring Belgrade, main squares and streets like historical bohemian street “Skadarlija”

Visits to museums, festivals, temples, old fortifications, monuments

Traditional Serbian barbeque at Ada lake wher you can swimm and relaxation

Field trips to other cities in Serbia (Novi Sad, Jagodina,...)

Field trips to Montenegro Sea coast

And many other different programs...
