About Olympic games

- are held every four years, with the Summer and winter games
- were held in Olympia, Greece from the 8th century BC to the 4th century AD.
- Baron Pierre de Coubertin founded the International Olympic Committee (IOC) in 1894.
- the Olympics has shifted away from pure amateurism, as envisioned by Coubertin, to allowing participation of professional athletes.
- consists of international sport federations (IFs), National Olympic Committees (NOCs), and organizing committees for each specific Olympic Games.

- Over 13,000 athletes compete at the Summer and Winter Olympic Games in 33 different sports and nearly 400 events.

- Every two years the Olympics and its media exposure provide unknown athletes with the chance to attain national and sometimes international fame.

-The Games also constitute an opportunity for the host city and country to showcase themselves to the world.

Why I am a fan of Olympic games

- This is a gathering of the world's best amateur athletes who meet in friendly rivalry in a variety of tests of prowess based on the ancient games held at Olympia in Greece.
- because The goal of the Olympic Movement is to contribute to building a peaceful and better world by educating youth through sport practiced without discrimination of any kind and in the Olympic spirit, which requires mutual understanding with a spirit of friendship, solidarity and fair play.“
- Any city which wishes to host the Games can put their bid to the IOC.

-they founded Olympic torch

Prior to each Games, the Olympic Torch or Flame is lit in Olympia, Greece and brought to the host city by runners carrying the torch in relay.

-They have Olympic creed

"The most important thing in the Olympic Games is not to win but to take part, just as the most important thing in life is not the triumph but the struggle. The essential thing is not to have conquered but to have fought well."

-I like their emblem

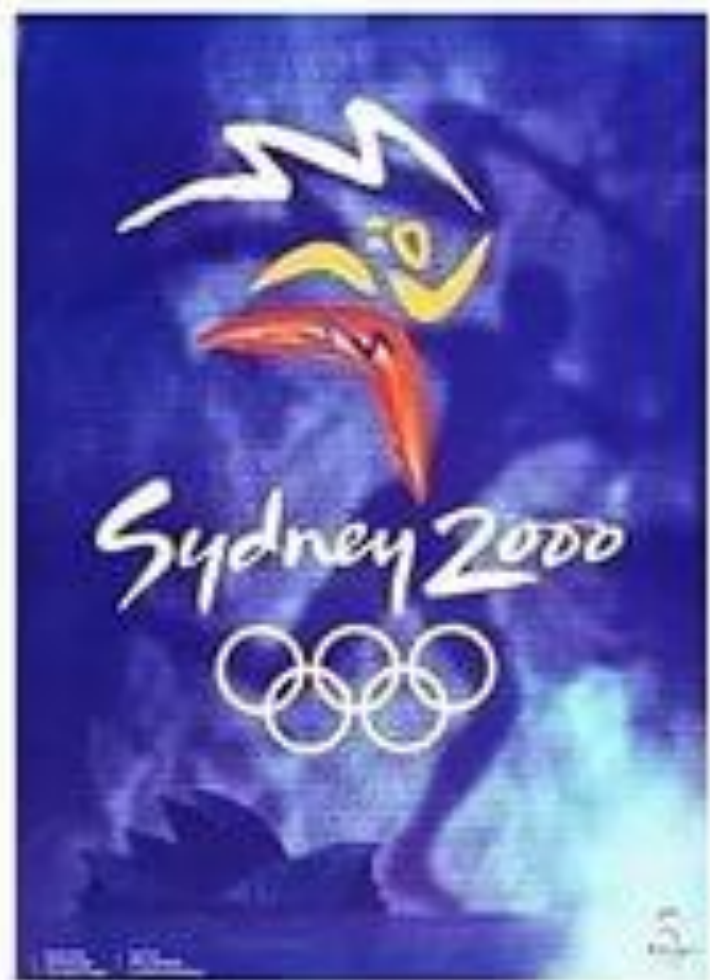

because, The five interlocking rings (blue, yellow, black, green, and red respectively) of the emblem was originally designed in 1913 by Pierre de Coubertin, to symbolize the five continents of the world taking part in the Olympic Games (the Americas are viewed as a single continent, and Antarctica is omitted).

- One important rule of the Olympic Games is that the competitors must be amateurs and I like it too.
