

Harvard University

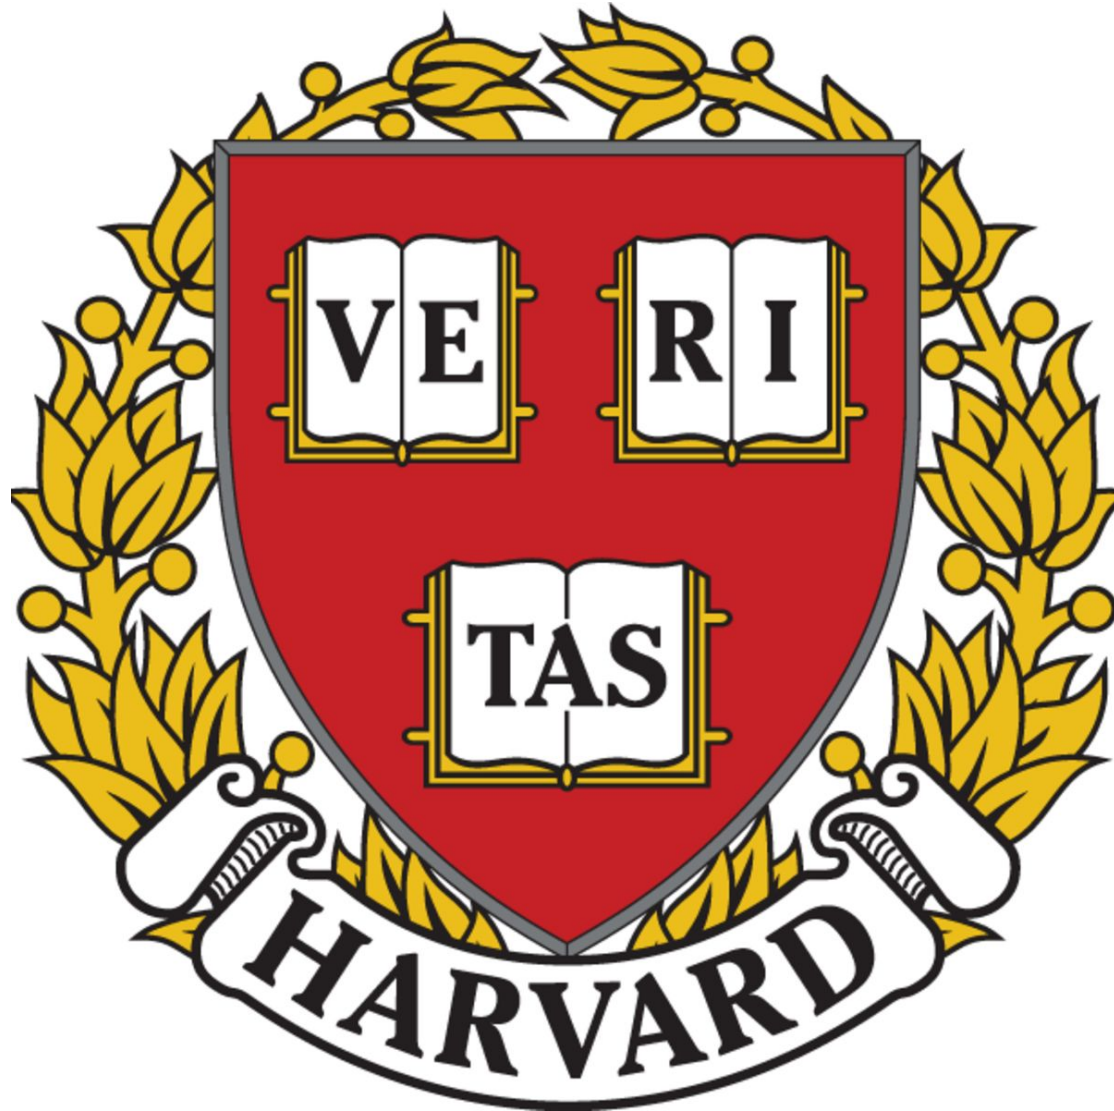

Harvard University

One of the most famous, old and prestigious universities in the US and around the world. Located in Cambridge, the State of Massachusetts.

Coat of arms of Harvard University

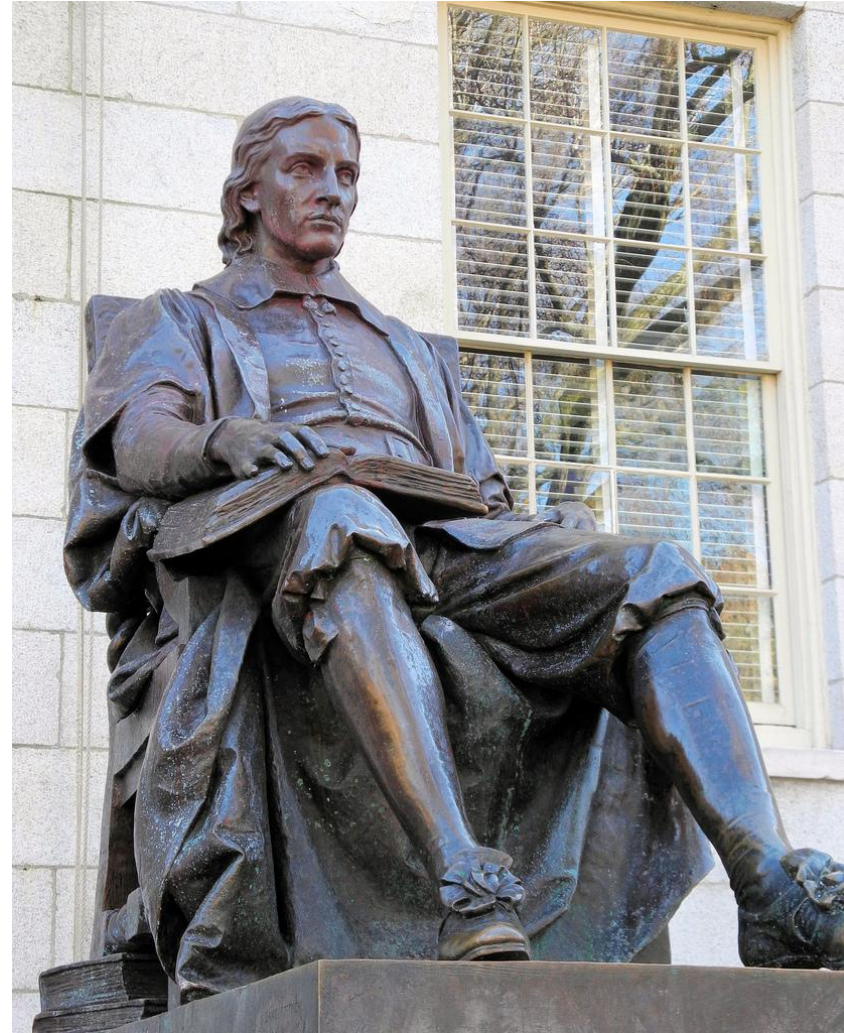

Prestige

Harvard is in the Ivy League and dreams in his sleep from childhood to all careerists. The Harvard Diploma is a pass to the higher world and the elite in any field.

History

Harvard University was founded in 1636. Named after the English missionary and philanthropist John Harvard. Prior to the 19th century, emphasis was placed on religion and spiritual disciplines. The first college graduate numbered only 9 people. The 20th century was a turning point in the history of the university. Professors and teachers with a world-wide reputation were involved in the work. The number of students was constantly increasing, the magistracy program was opened in many faculties.

Faculties

Harvard is a versatile university where you can study any science. But the medical faculty remains one of the most prestigious and popular. In the institute of public health services it is offered to pass master's programs, to finish postgraduate study, to be engaged in scientific activity.

The medical structure of the University includes:

- Harvard Medical School;
- Harvard School of Dentistry;
- Institute of Public Health.
