MONDAY, JUNE 19 1758.

CONsider the Advantage and Utility of a NEWS PAPER to the Public, into whom, that it requires little to be said to recommend a Thing of this Kind. And as the Publication of a Paper in this Colony, has long and will continue, and frequently request, the paper printed to publish one weekly, on every Monday, at the rate of one Dollar a Year, in long as the present State of this Paper is continued (see Label II may on this Paper's signature) to each Subscriber.

AND the Public may be assured, that no Party Designs will ever be had in this Paper; but in a Liberty of News, which in the remote Part of the World may sometimes be usefully be expected, wherever may be published, a lack will prevent the Interest of this Colony, and send the

Character, as Part of a new Printing-Office from London, had been associated for, by the Printer himself, principally for that Purpose, which may daily be expected, therefore to keep it there will be dispensed with till its Arrival.

The 7th of London Paper, Call Mercur, was printed at 1758 from Schomack, here, in the following form: 4000. From 7th of London's Head Quarters at Manly, Apr. 18. The 7th of London has furnished by Capitulacion within short 100 Days. It was heloged by a Captain with a Detachment of 100 Men in town Boston. The Quota consisted of 3 Companies; but what will hardly be credited, is, that upwards of 400 Pieces of Cannon and Mortars were found in the Place.
