WHAT DOES 'FANTASY' MEAN?

The term «fantasy» is used to describe the specific genre that uses magic and uses other supernatural phenomena's as the main subject or the key element of the basic plotline.

Many films within this genre take place in imaginary worlds where magic and magical creatures are common.

Fantasy is generally distinguished from the genres of science fiction and horror although there is a great overlap of these three genres.

TYPICAL FEATURES:

Usually low lighting to create a very spooky atmosphere.

This also makes everything mysterious and unknowing

Mythical creatures or monsters, for example Vampires,
Dragons, Goblins.

The trailers aren't very revealing, and don't give away much of the plotline like trailers in other genres do. This intrigues the cinema aficionados to watch the film

Unexpected and fast-paced actions which leave the deep and lasting impression on the audience.
