Установка Yii2

1. Скачать актуальную версию проекта Yii2 Advanced и базу данных к ней:
<https://drive.google.com/file/d/15QxRVFf2CWIZRd6N2-ERy8abyMbEhNUQ/view?usp=sharing>

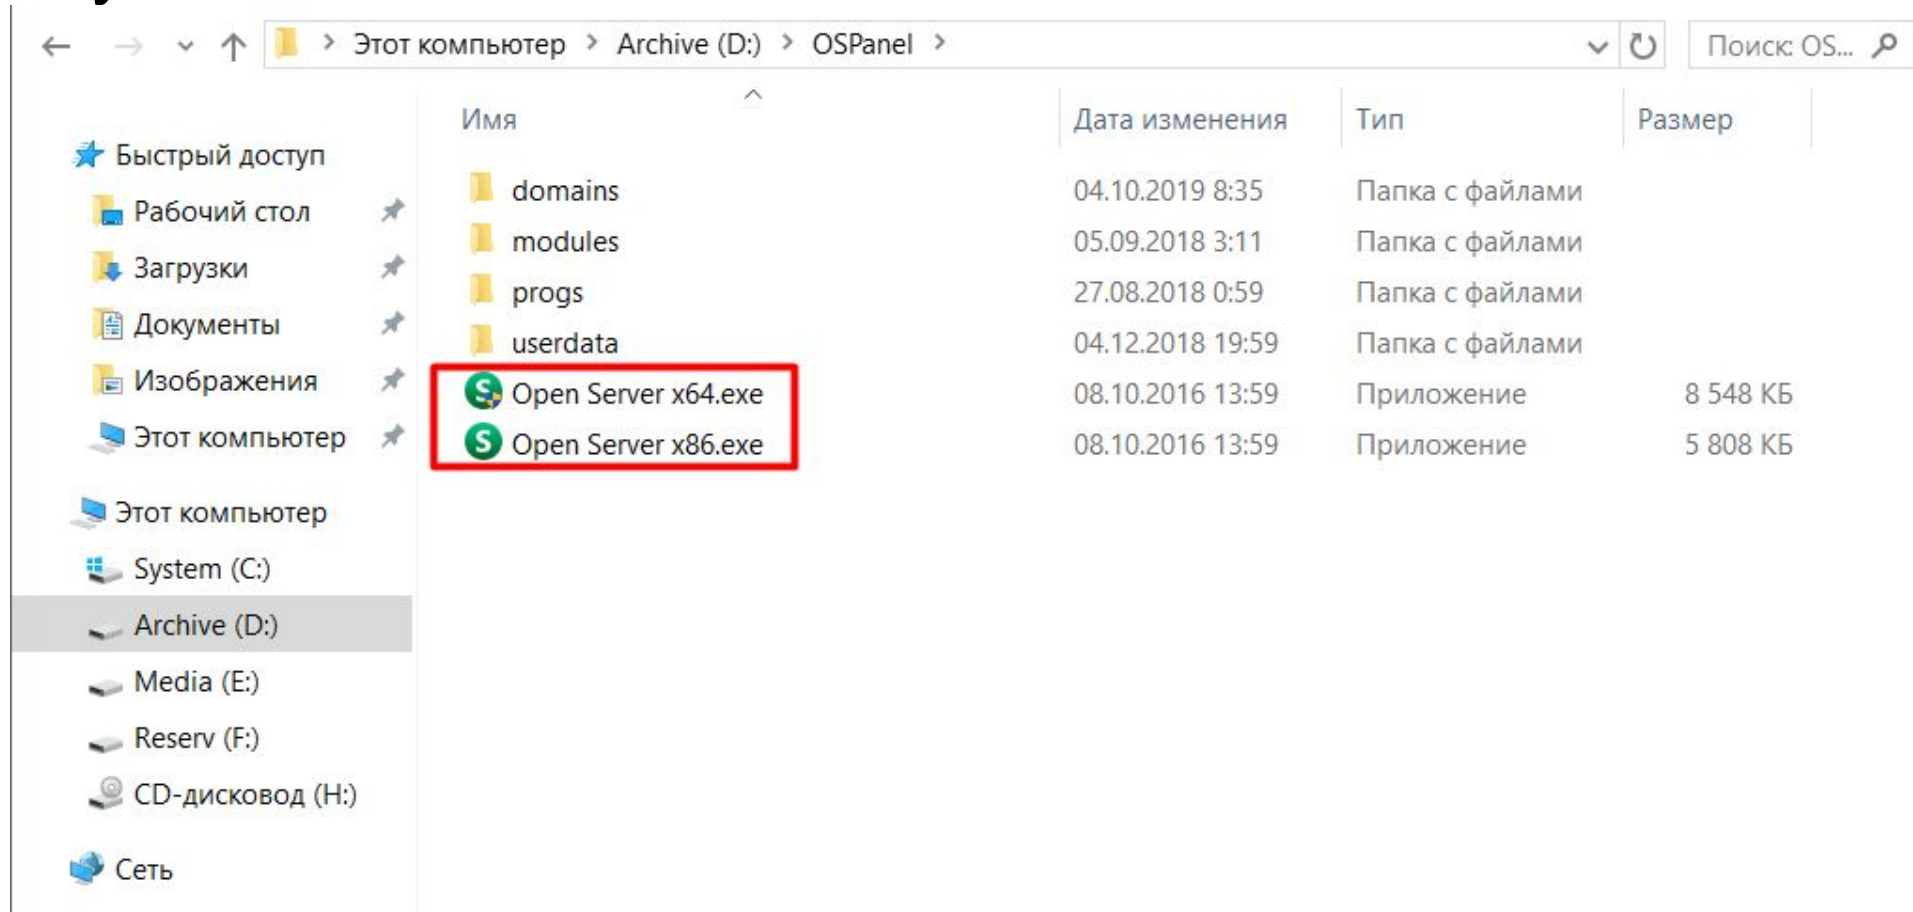

Установка Yii2

2. Разархивировать содержимое архива в папку domains в папке с установленным OSPanel

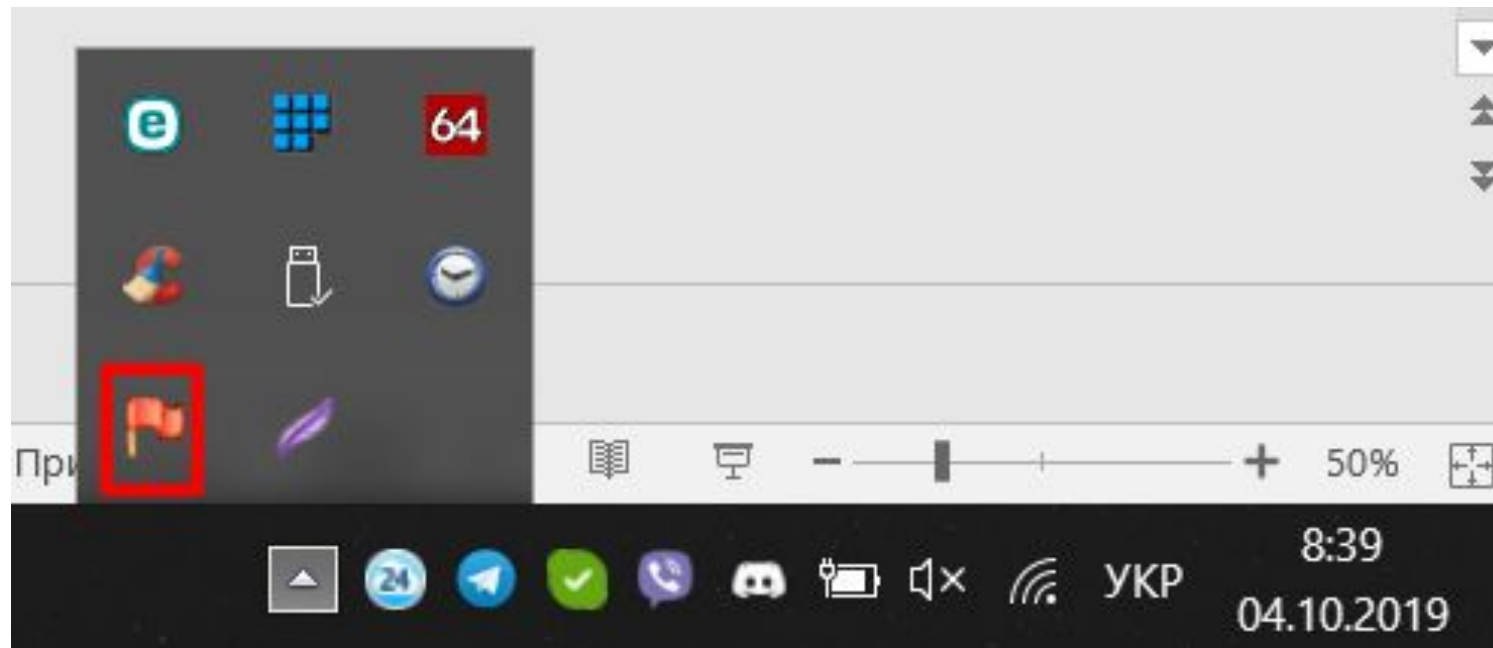

Установка YII2

3. Запустить OSPanel

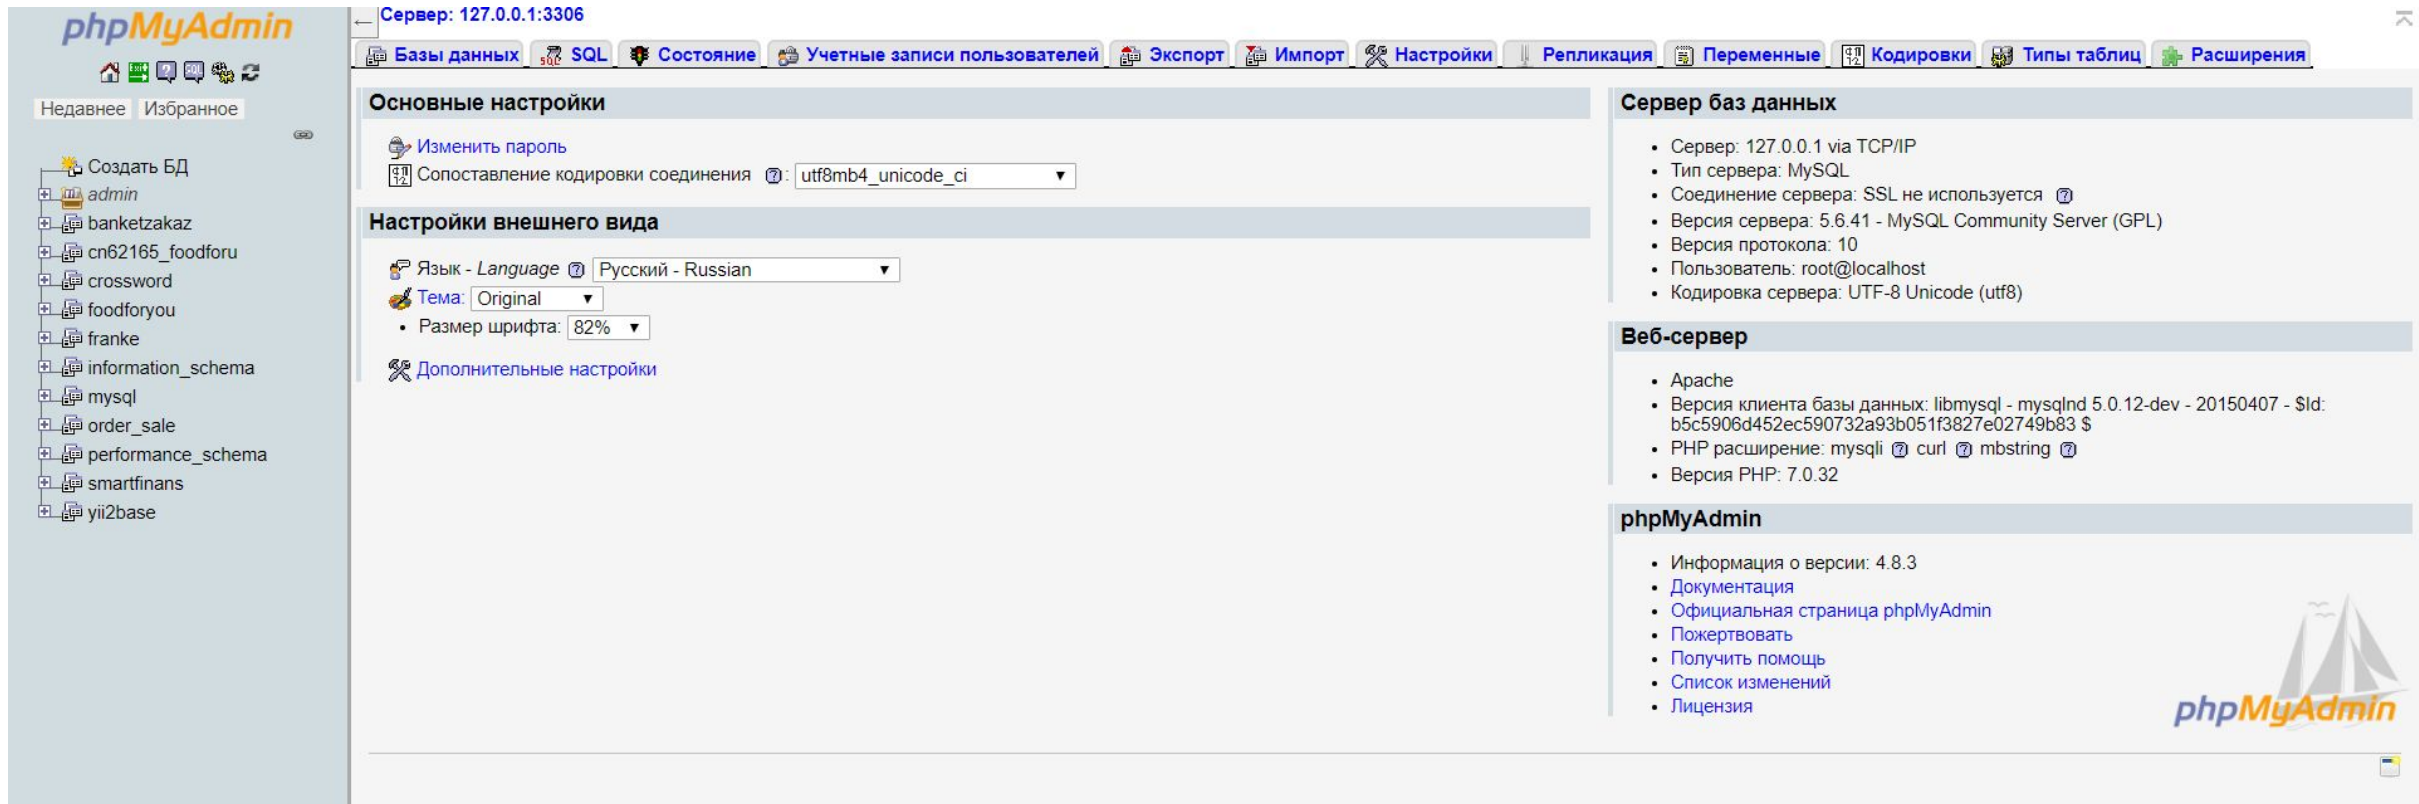

Установка YII2

4. После запуска программы запустить сервер (правой кнопкой мыши по ярлыку -> запустить)

Установка Yii2

5. Выбрать пункт меню «Дополнительно» -> PhpMyAdmin

The screenshot shows the phpMyAdmin web interface. The top navigation bar includes the following menu items: Базы данных, SQL, Состояние, Учетные записи пользователей, Экспорт, Импорт, **Настройки**, Репликация, Переменные, Кодировки, Типы таблиц, and Расширения. The 'Настройки' (Settings) menu is currently active, and the 'Дополнительно' (Additional) sub-menu item is highlighted. The main content area displays the 'Основные настройки' (Basic Settings) section, which includes options for changing the password, connection charset (set to utf8mb4_unicode_ci), and external appearance settings (Language: Русский - Russian, Theme: Original, Font size: 82%). The right sidebar contains information about the database server, web server, and phpMyAdmin version.

phpMyAdmin

Установка Yii2

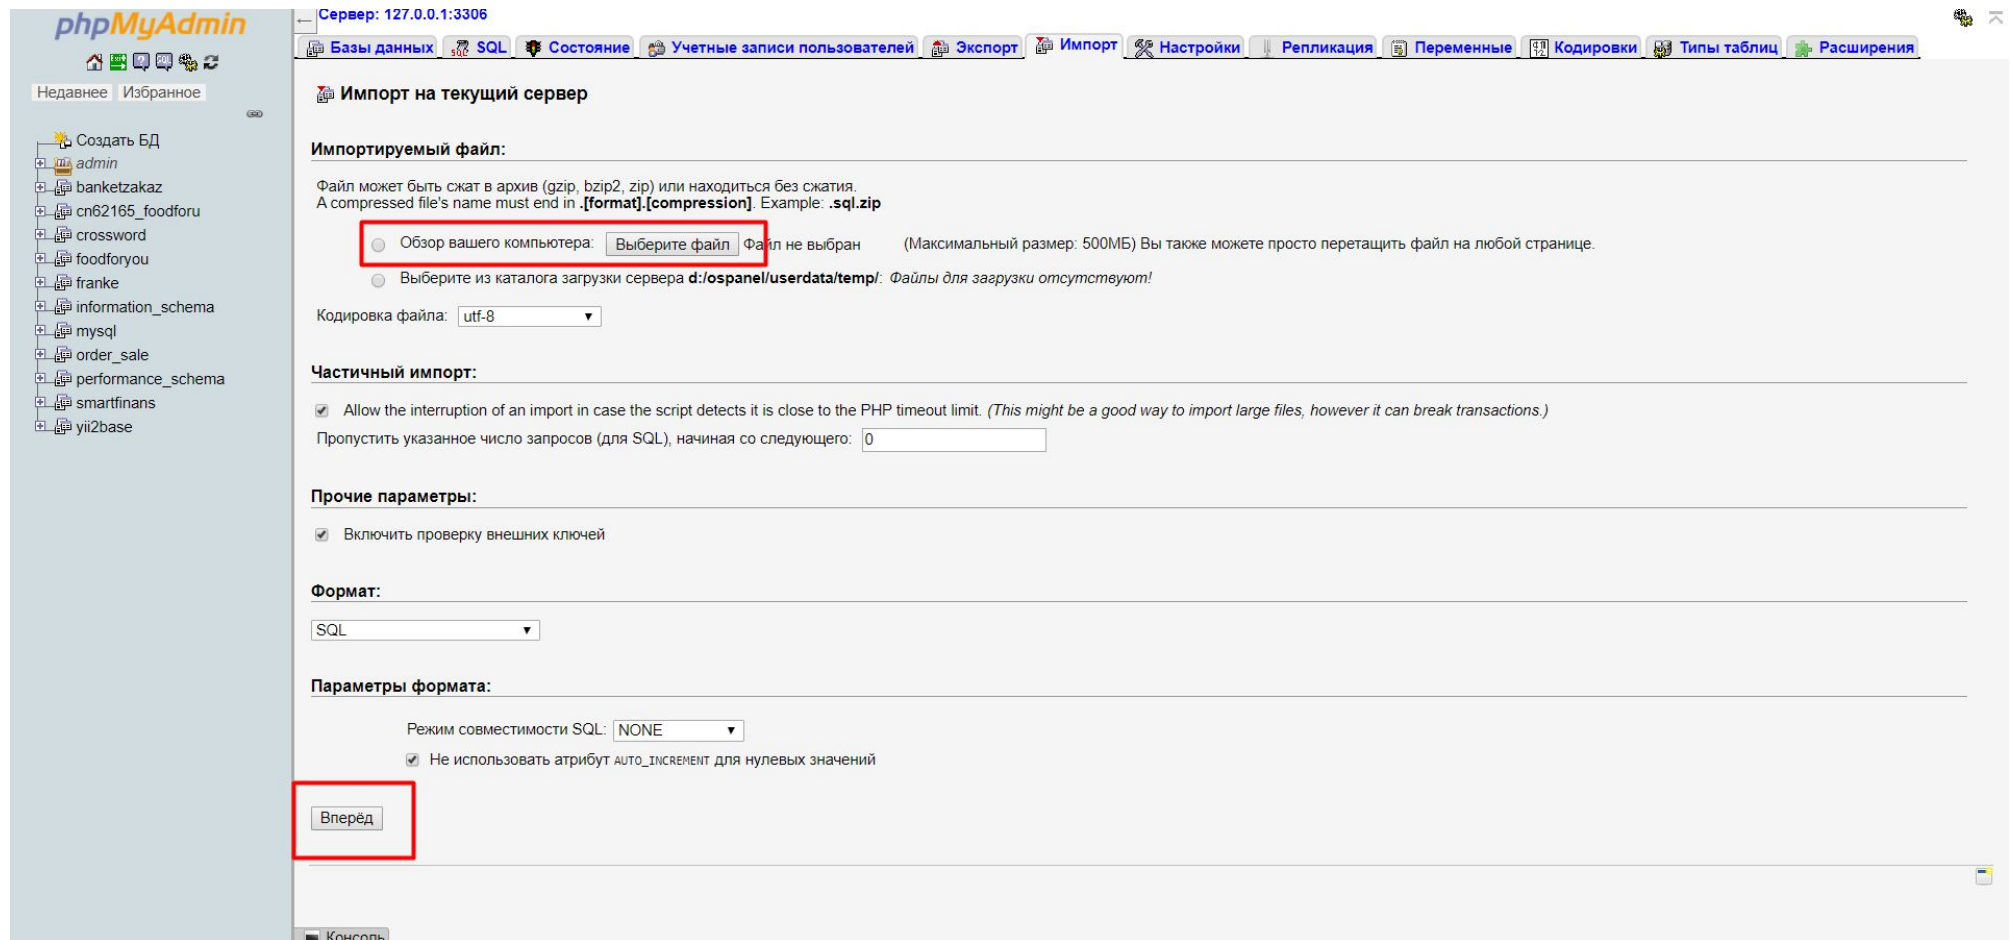

6. Зайти в пункт меню «Импорт»

The screenshot shows the phpMyAdmin web interface. The top navigation bar contains several menu items: Базы данных, SQL, Состояние, Учетные записи пользователей, Экспорт, **Импорт** (highlighted with a red box), Настройки, Репликация, Переменные, Кодировки, Типы таблиц, and Расширения. The main content area is divided into three sections: 'Основные настройки' (Basic settings), 'Настройки внешнего вида' (Appearance settings), and 'Сервер баз данных' (Database server information). The 'Основные настройки' section includes options for changing the password, connection character set (utf8mb4_unicode_ci), language (Русский - Russian), and theme (Original). The 'Настройки внешнего вида' section includes font size (82%) and additional settings. The 'Сервер баз данных' section lists server details such as IP (127.0.0.1), type (MySQL), version (5.6.41), and user (root@localhost). The 'Веб-сервер' (Web server) section lists Apache, MySQL client version, PHP extension (mysqli, curl, mbstring), and PHP version (7.0.32). The 'phpMyAdmin' section provides version information (4.8.3) and links to documentation, official site, help, changes, and license. The left sidebar shows a tree view of databases, including 'yii2base'.

Установка Yii2

6. «Импорт»

The screenshot shows the phpMyAdmin interface for the 'Import' tab. The left sidebar contains a tree view of databases, including 'yii2base'. The main content area is titled 'Импорт на текущий сервер' and contains the following sections:

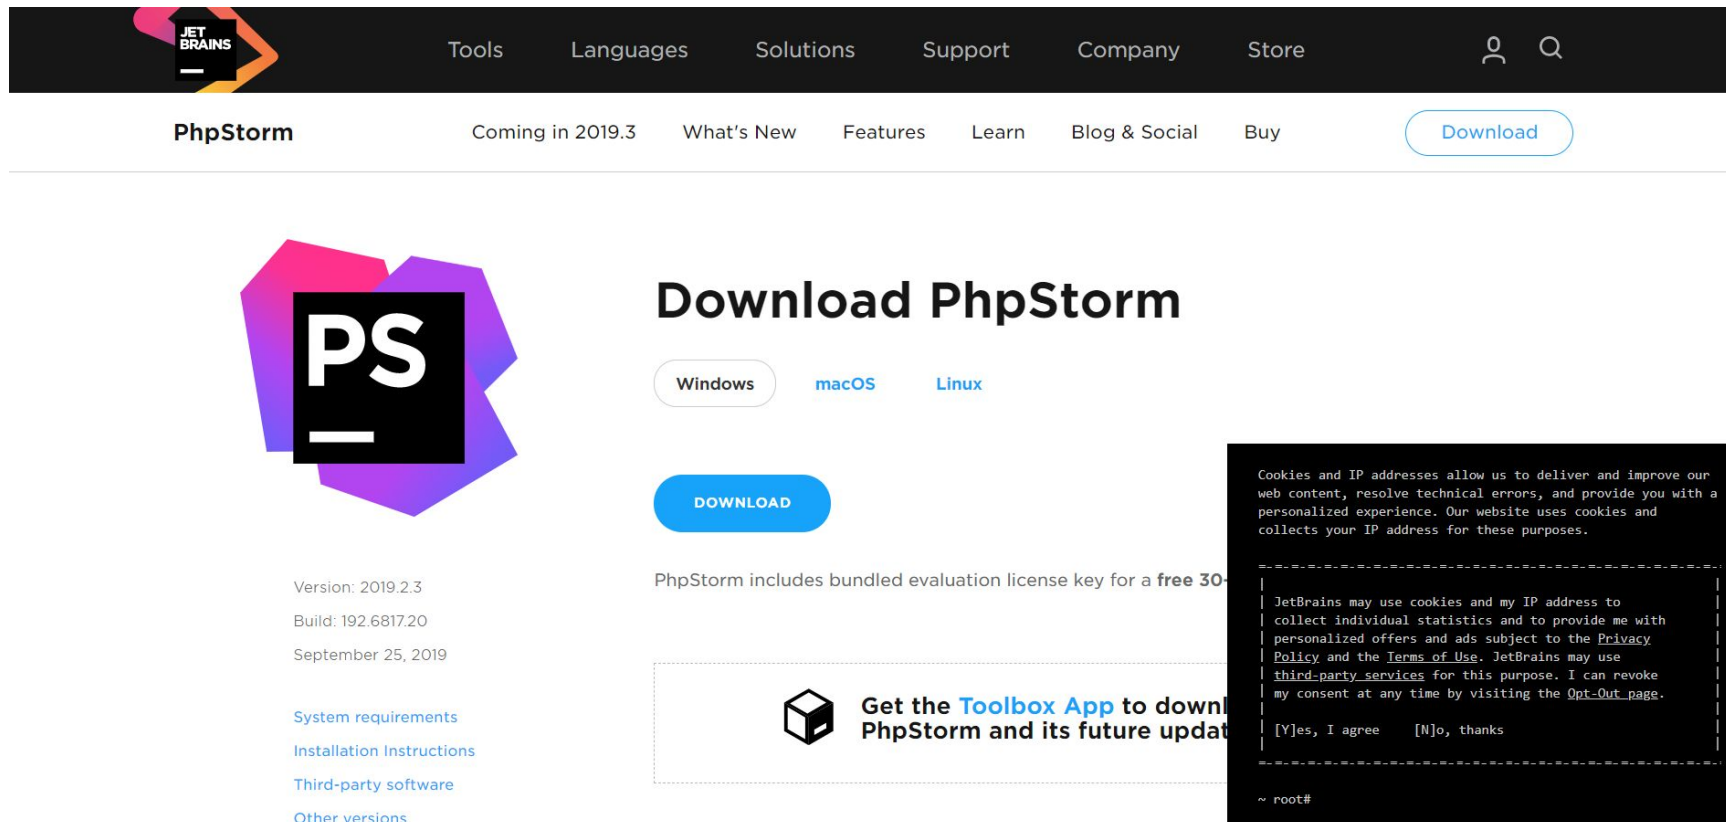

- Импортируемый файл:** A section for selecting a file to import. It includes a text box for the file name, a 'Выберите файл' button (highlighted with a red box), and a note that the file name must end in a specific format (e.g., .sql.zip). There is also an option to select a file from the server's upload catalog.
- Кодировка файла:** A dropdown menu set to 'utf-8'.
- Частичный импорт:** A section with a checked checkbox for 'Allow the interruption of an import in case the script detects it is close to the PHP timeout limit.' and a text input for the number of queries to skip (set to 0).
- Прочие параметры:** A section with a checked checkbox for 'Включить проверку внешних ключей'.
- Формат:** A dropdown menu set to 'SQL'.
- Параметры формата:** A section with a dropdown for 'Режим совместимости SQL' set to 'NONE' and a checked checkbox for 'Не использовать атрибут AUTO_INCREMENT для нулевых значений'.

At the bottom of the form, there is a 'Вперёд' button (highlighted with a red box) to proceed to the next step.

Установка Yii2

7. Скачать и установить среду PhpStorm

<https://www.jetbrains.com/phpstorm/download/#section=windows>

The screenshot shows the PhpStorm download page. At the top, there is a navigation bar with the JetBrains logo and links for Tools, Languages, Solutions, Support, Company, and Store. Below this, a secondary navigation bar includes 'PhpStorm', 'Coming in 2019.3', 'What's New', 'Features', 'Learn', 'Blog & Social', 'Buy', and a 'Download' button. The main content area features the PhpStorm logo (a stylized 'PS' on a black square) and the title 'Download PhpStorm'. Below the title are three buttons for 'Windows', 'macOS', and 'Linux'. A large blue 'DOWNLOAD' button is prominently displayed. To the right of the download button, there is a text box containing a cookie consent message: 'Cookies and IP addresses allow us to deliver and improve our web content, resolve technical errors, and provide you with a personalized experience. Our website uses cookies and collects your IP address for these purposes.' Below this message is a terminal-style interface with a dashed border, containing the text: 'JetBrains may use cookies and my IP address to collect individual statistics and to provide me with personalized offers and ads subject to the Privacy Policy and the Terms of Use, JetBrains may use third-party services for this purpose. I can revoke my consent at any time by visiting the Opt-Out page.' At the bottom of the terminal interface are the options '[Y]es, I agree' and '[N]o, thanks'. Below the terminal interface, there is a small icon of a toolbox and the text 'Get the Toolbox App to download PhpStorm and its future updates'. On the left side of the page, there is a sidebar with the following information: 'Version: 2019.2.3', 'Build: 192.6817.20', 'September 25, 2019', and links for 'System requirements', 'Installation Instructions', 'Third-party software', and 'Other versions'.

Установка Yii2

8. Запустить PhpStorm и выбрать путь к проекту

Установка Yii2

9. В случае изменения имени базы данных или настройке логина\пароля в PhpMyAdmin открыть файл `common\config\main-local.php` и внести правку в поле `dsn`

The screenshot shows the PhpStorm IDE interface. The file explorer on the left shows the project structure, with the file `main-local.php` selected under `common\config`. The main editor displays the PHP code for `main-local.php`. The `dsn` field in the database configuration array is highlighted with a red box, showing the value `'mysql:host=localhost;dbname=yii2base'`. The code is as follows:

```
<?php
return [
    'components' => [
        'db' => [
            'class' => 'yii\db\Connection',
            'dsn' => 'mysql:host=localhost;dbname=yii2base',
            'username' => 'root',
            'password' => '',
            'charset' => 'utf8',
        ],
        'mailer' => [
            'class' => 'yii\swiftmailer\Mailer',
            'viewPath' => '@common/mail',
            // send all mails to a file by default. You have to set
            // 'useFileTransport' to false and configure a transport
            // for the mailer to send real emails.
            'useFileTransport' => true,
        ],
    ],
];
```

Установка Yii2

10. Перезапустить OSPanel и в поле «Мои сайты» выбрать yii2

The screenshot shows a web browser displaying a success message for a newly installed Yii2 application. The page has a dark navigation bar at the top with the text 'My Application' on the left and links for 'Home', 'About', 'Contact', 'Signup', and 'Login' on the right. The main content area is white and features a large green heading 'Congratulations!' followed by the text 'You have successfully created your Yii-powered application.' Below this is a prominent green button labeled 'Get started with Yii'. At the bottom of the main content area, there are three columns, each with a heading 'Heading' and a paragraph of placeholder text. Each column also contains a button with a right-pointing arrow: 'Yii Documentation »', 'Yii Forum »', and 'Yii Extensions »'. The footer is a light gray bar containing the copyright notice '© My Application 2019' on the left, the text 'Powered by Yii Framework' in the center, and the Yii logo on the right.
