

Winter

twinkl

It is really cold in the winter...

It is too cold for some birds so they fly
away to warmer countries!

Cats and dogs grow extra fur so they
can stay warm...

Some animals even sleep throughout the whole of winter and then wake up once it is warm again!

In the winter it can
be very windy...

PotzuYoko 2013

and very rainy!

Sometimes hailstones
can fall from the sky...

and sometimes it's icy.

Sometimes it's frosty in the
morning...

And sometimes it snows!

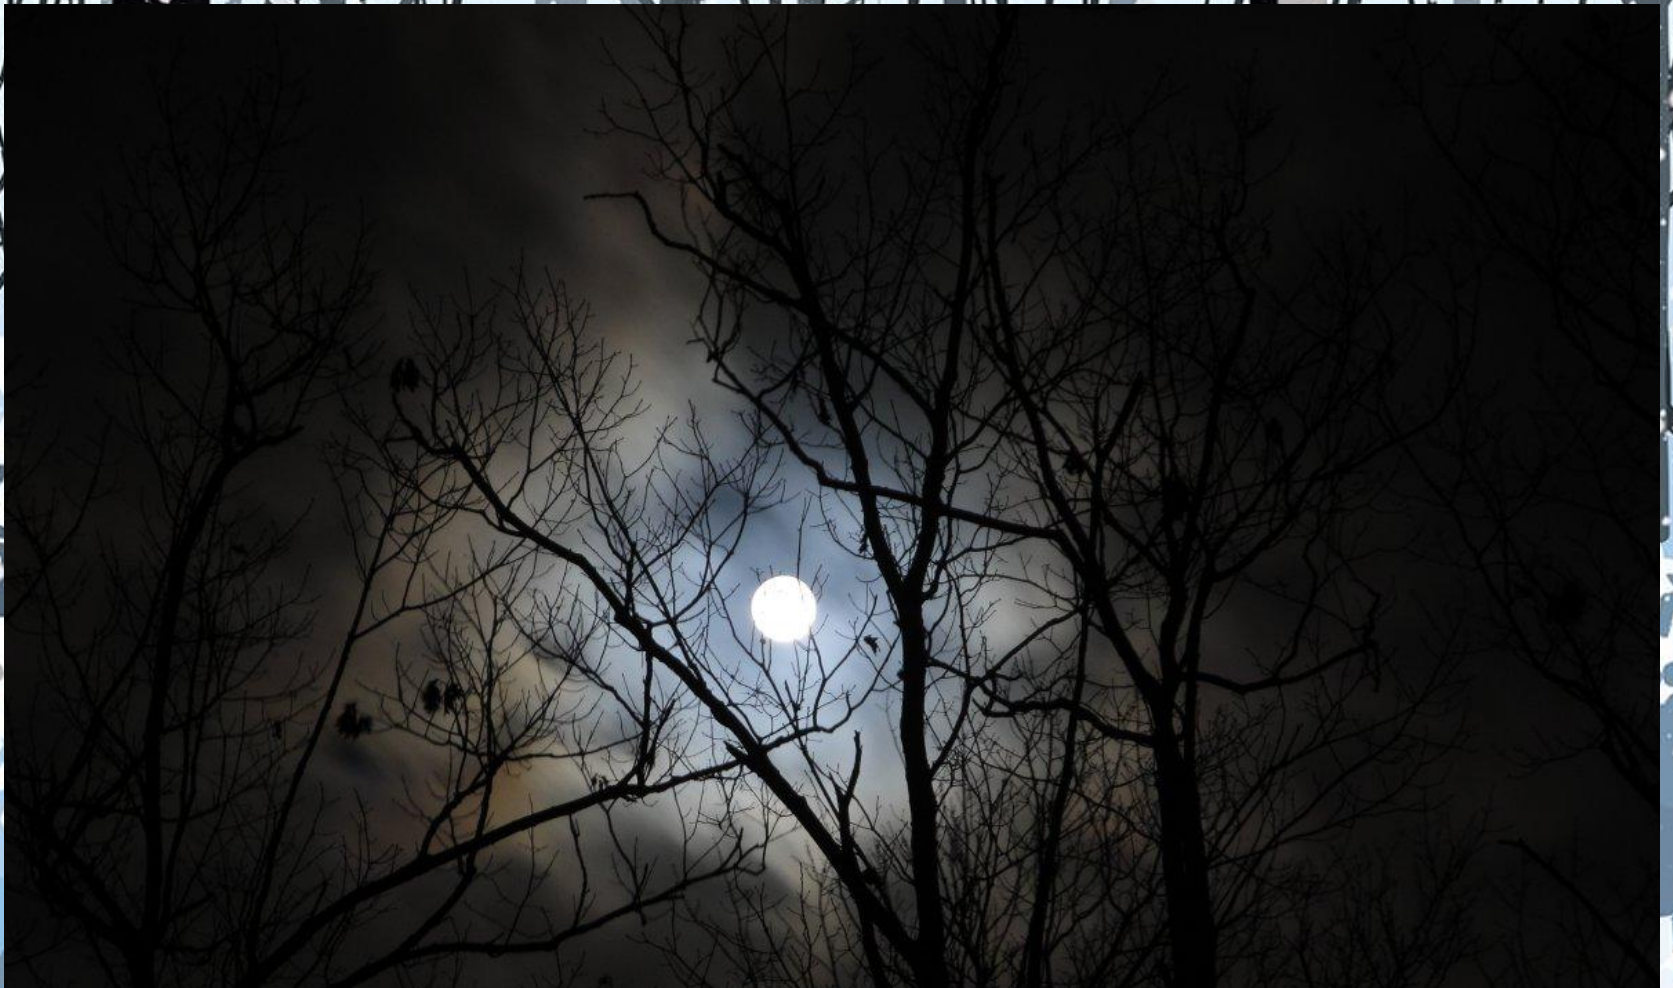

To keep ourselves warm we wear thick clothes.

To keep our houses warm we light the fire
or turn on the heating system.

In the winter it is dark because the sun rises later and also sets earlier.

In the summer, the sun rises earlier
and sets a lot later.
