# THIS IS YOUR PRESENTATION (OR SLIDEDOC) TITLE

# Instructions for use

## EDIT IN GOOGLE SLIDES

Click on the button under the presentation preview that says "Use as Google Slides Theme".

You will get a copy of this document on your Google Drive and will be able to edit, add or delete slides.

You have to be signed in to your Google account.

## EDIT IN POWERPOINT®

Click on the button under the presentation preview that says "Download as PowerPoint template". You will get a .pptx file that you can edit in PowerPoint.

Remember to download and install the fonts used in this presentation (you'll find the links to the font files needed in the Presentation design slide)

# This template is for a SlideDoc

*A slidedoc is a visual document, developed in presentation software, that is intended to be read and referenced instead of projected.*

Slidedocs help you spread your smart thinking by combining visual communications with short chunks of written copy. Their scannable nature makes them great pre-read, reference, and leave-behind materials. Their modularity makes it easy for people to incorporate your ideas into their own communications. And these features together make slidedocs the perfect companion to both written documents and presentations.

**Text from [duarte.com/slidedocs](duarte.com/slidedocs)**

# Table of contents

*This is a template optimized for SlideDocs. As it is a long document you should inform the reader about its contents.*

# Hello!
# Nice to meet you

Use the first slides to present yourself or your company. Remember that you may not be presenting this document directly.

# 1.

## TRANSITION HEADLINE

*Let's start with the first set of slides*

"

*Quotations are commonly printed as a means of* *inspiration* *and to invoke philosophical thoughts from the reader.*

# This is a slide title

SlideDocs are for distribution; they're not optimized for presenting. Slides have too much text and font size is too small for an audience to read it projected in a screen.

These documents are useful for:

- Distribute before a meeting when the topic is highly complex or technical

- To fully explain your idea before booking a meeting with someone

- As a reference and follow-up material

**Distribute** → **Explain** → **Follow-up**
# BIG CONCEPT

Bring the attention of your audience over a key concept using icons or illustrations

# You can also split your content

*Try to communicate ideas visually using graphs, icons, illustrations, photos… any resource that helps you convey your message at a glance.*

**White**

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

**Black**

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

# In two or three columns

### Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

According to surveys in Europe, Canada, and the United States, yellow is the color people most often associate with amusement, gentleness, and spontaneity, but also with duplicity, envy, jealousy, avarice, and, in the U.S., with cowardice.

It plays an important role in Asian culture, particularly in China, where it is seen as the color of happiness, glory, wisdom, harmony, and culture.

### Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Surveys in the US and Europe show that blue is the colour most commonly associated with harmony, faithfulness, confidence, distance, infinity, the imagination, cold, and sometimes with sadness.

In US and European public opinion polls it is the most popular colour, chosen by almost half of both men and women as their favourite colour.

### Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

Modern surveys in the United States and Europe show red is also the color most commonly associated with heat, activity, passion, sexuality, anger, love and joy. Red is also a color widely used for getting attention, such as stop signs or royal dresses.

In China, India and many other Asian countries it is the color of symbolizing happiness and good fortune.
# A picture is worth a thousand words

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

Want big impact? Use big image.

# Use charts to explain your ideas

**Item 1**

**Item 2**

THE
CONCEPT

**Item 3**

**Item 4**

# And tables to compare data

As a communication tool, a table allows a form of generalization of information from an unlimited number of different social or scientific contexts. It provides a familiar way to convey information that might otherwise not be obvious or readily understood.

|        | A  | B  | C  |
|--------|----|----|----|
| Yellow | 10 | 20 | 7  |
| Blue   | 30 | 15 | 10 |
| Orange | 5  | 24 | 16 |

# Maps

The word "map" comes from the medieval Latin Mappa mundi, wherein mappa meant napkin or cloth and mundi the world.

# Presentation design

This presentation uses the following typographies and colors:

- Titles: Nunito sans
- Body copy: Nunito sans
- Italic copy: Georgia (system font)

You can download the font on this page:

https://fontlibrary.org/en/font/nunito-sans

- Orange **#f67031**
- Yellow **#ffa400**
- Fucsia **#ed0036**

*You don't need to keep this slide in your presentation. It's only here to serve you as a design guide if you need to create new slides or download the fonts to edit the presentation in PowerPoint®*
**SlidesCarnival icons are editable shapes**.

This means that you can:
- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)

Examples:

**Now you can use any emoji as an icon!**
And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
