

Warcraft is a franchise of video games, novels, and other media created by Blizzard Entertainment.
First release was in November 23, 1994.

The series is made up of five core games: Warcraft: Orcs & Humans, Warcraft II: Tides of Darkness, Warcraft III: Reign of Chaos, World of Warcraft, and Hearthstone.

The first three of these core games are in the real-time strategy genre, where opposing players command virtual armies in battle against each other or a computer-controlled enemy.

The fourth and best-selling title of the franchises hise is a massively multiplayer online role-playing game (MMORPG), where players control their character and interact with each other in a virtual world. The most recent title is Hearthstone, a digital collectible card game.

In 2013, Blizzard announced a new online free-to-play trading card game titled Hearthstone: Heroes of Warcraft, with the beta being available in summer of 2013. In March 2014, Hearthstone was officially released.

A film adaptation called Warcraft was released in 2016

Now let's talk about video game dependence. In our day, many people become dependent on them.

That's why you must be careful, if you don't want to spend all your life on the monitor and in dirty clothes! 🧟🐷

Thank you for attention! 😊
