# Middle school

- The student is provided with the study of each subject by level:

Level 1 - the easiest

Level 2 - more difficult

Level 3 - the most difficult

The student chooses the level of each subject.

Each child's schedule is individual.

Level 1 items must be no more than four.

# Middle school

- Another student can sign up for additional classes at the school. These courses are sponsored by the state. Additional classes at school develop the child's creative abilities. They are absolutely free.

***At the end of secondary school, there is an exam that tests the child's knowledge for 4 years of study. The exam does not affect the transition to high school!***

# High school

From 14 to 18

High school is like a College. You can already start getting a specialty. The child chooses which additional subjects to study. Native language, foreign language, and mathematics are mandatory. Also, the child has the right to make their own schedule. He can choose the number of free days (no more than 4) and the start time of lessons. The lesson lasts 1.5 hours.

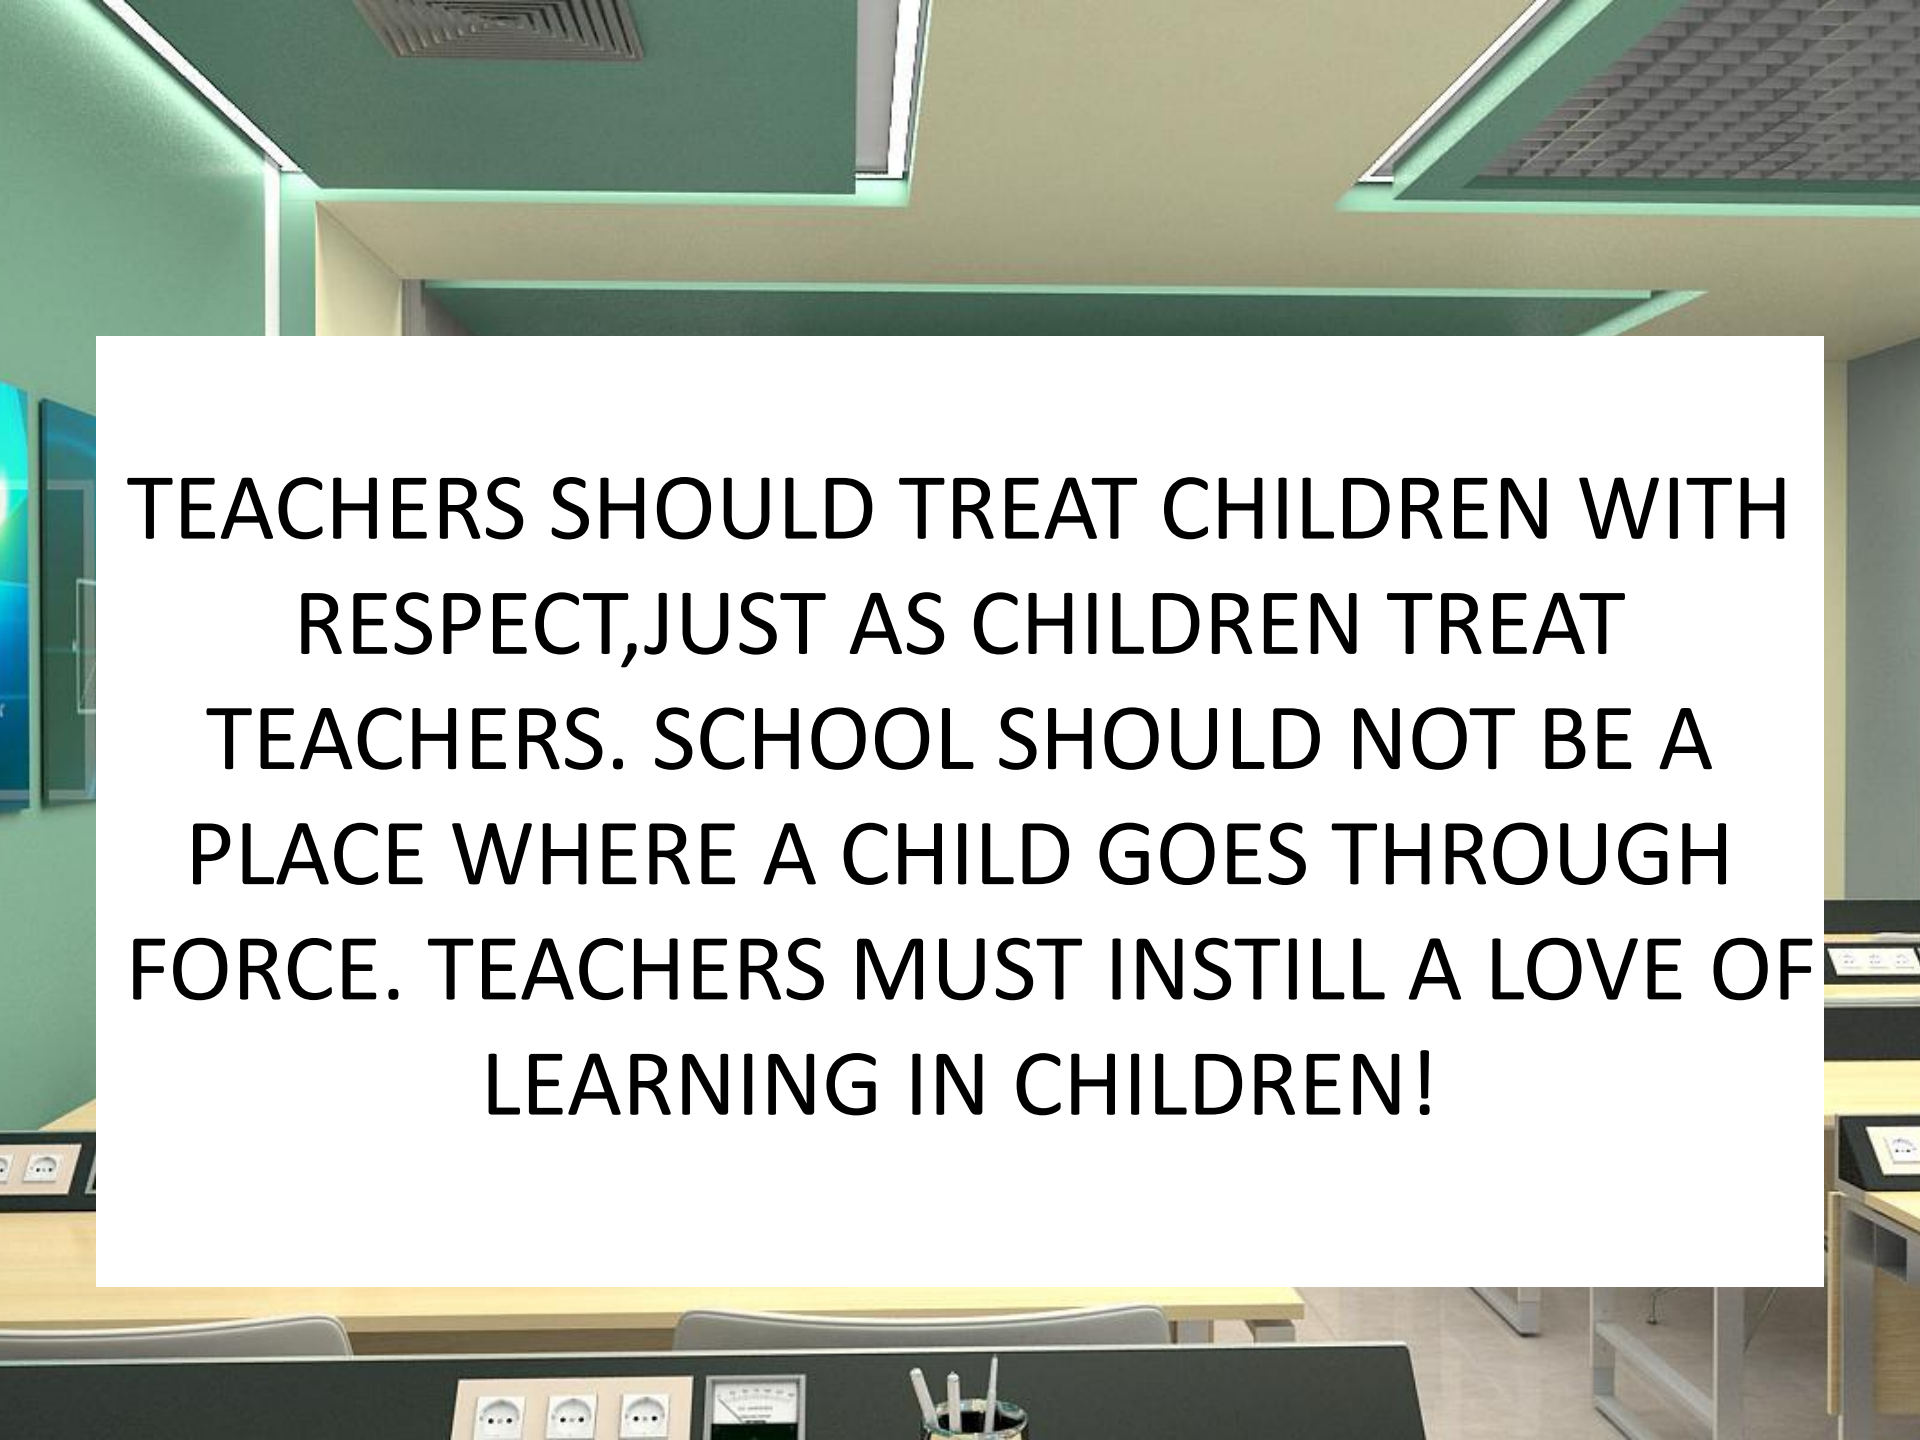

**A sex education lesson should be held once a year**  
***At the end of training in high school, an exam is held, the result of which depends on graduation from school and admission to University!***

# University

The age and time of study depends on the University

At the University, a person receives a specialty. Training takes place as in the most ordinary universities.

**TEACHERS SHOULD TREAT CHILDREN WITH RESPECT,JUST AS CHILDREN TREAT TEACHERS. SCHOOL SHOULD NOT BE A PLACE WHERE A CHILD GOES THROUGH FORCE. TEACHERS MUST INSTILL A LOVE OF LEARNING IN CHILDREN!**

A modern classroom with green walls and a blackboard. A portrait of Albert Einstein is on the wall. Rows of desks with electronic devices are visible. A white banner with the text "Thanks for your attention" is overlaid on the image.
