Alivia comes to life

The door.
Appearance
of the narrator.

Beautiful panorama
of the Galaxy.
Close-up on the
planets.

We show
the Earth Planet.

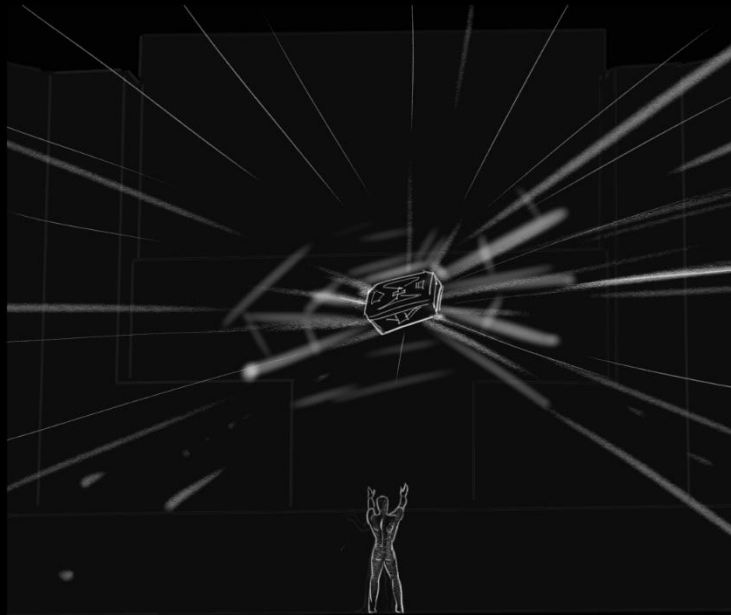

(Narrator voice):
Narrator tells a
story, that took
place 1000 years
ago.

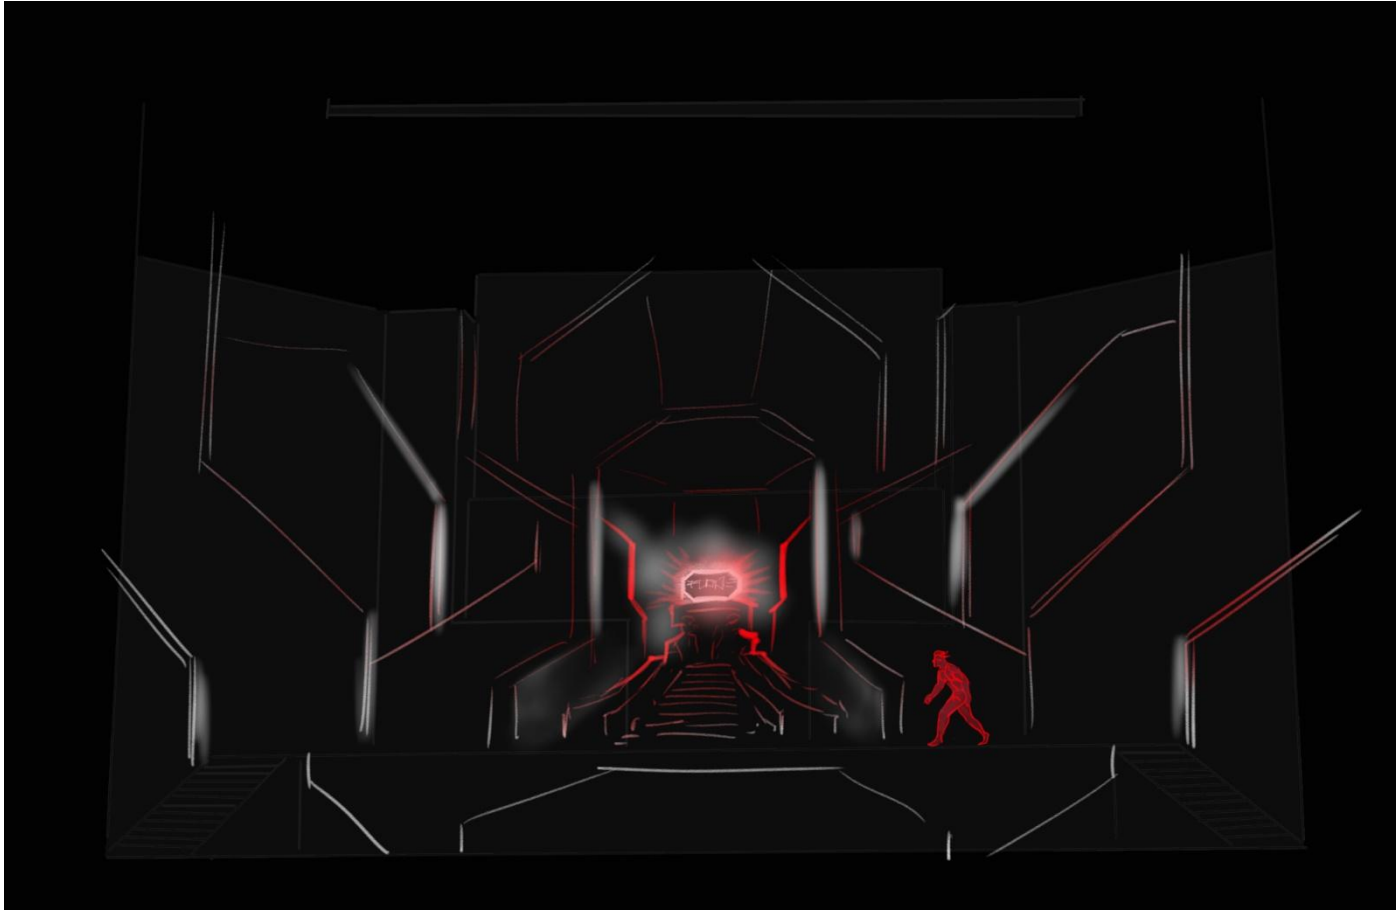

People of Earth with the help of Nebula Kingdom had won the great battle with Evil and imprisoned it's life power in ancient magic box.

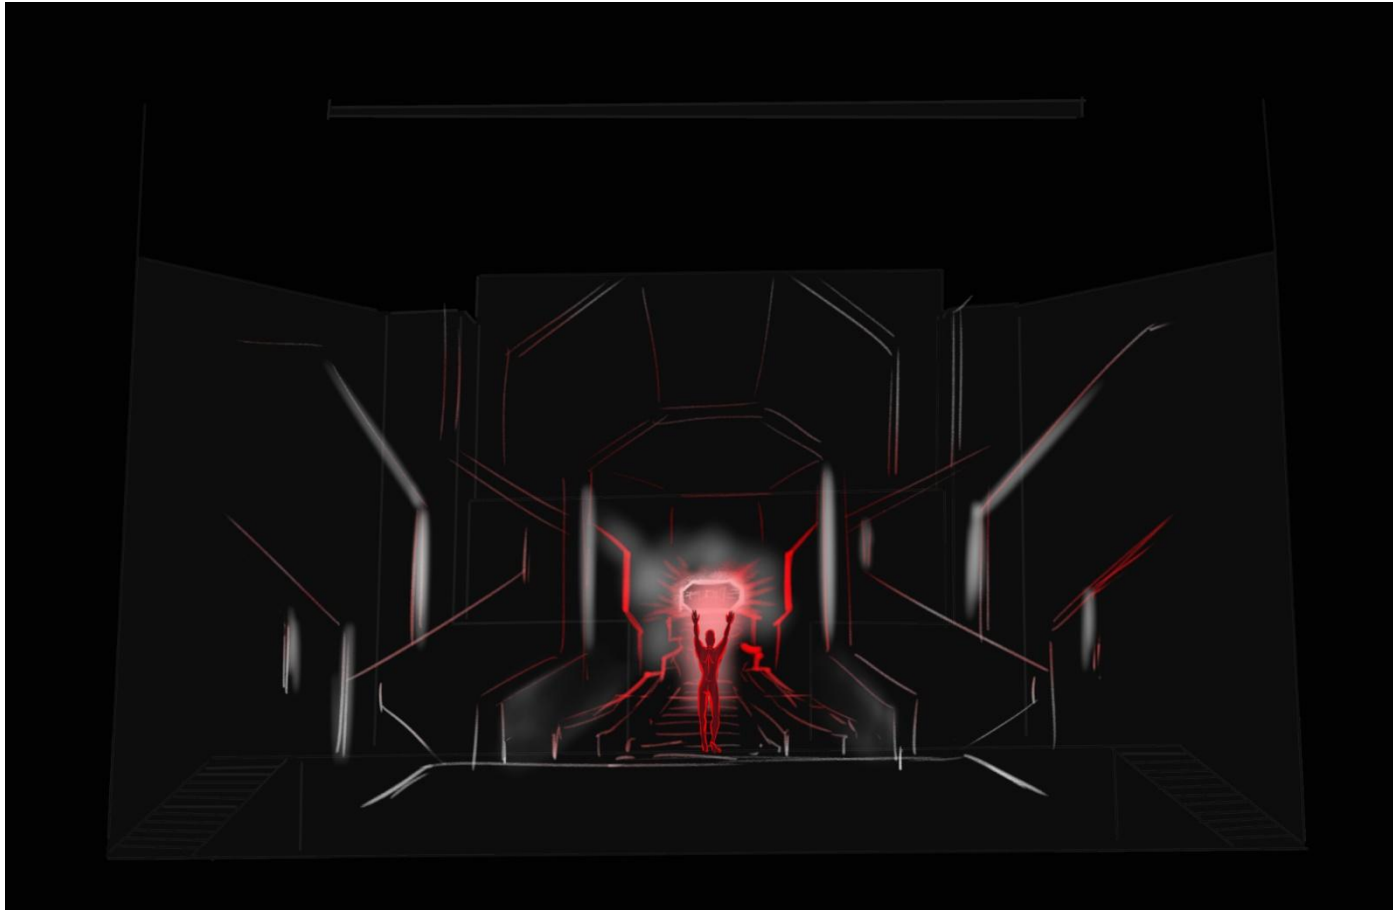

The box was hidden in special storage, which was protected by guards possessing the power of earth and air.

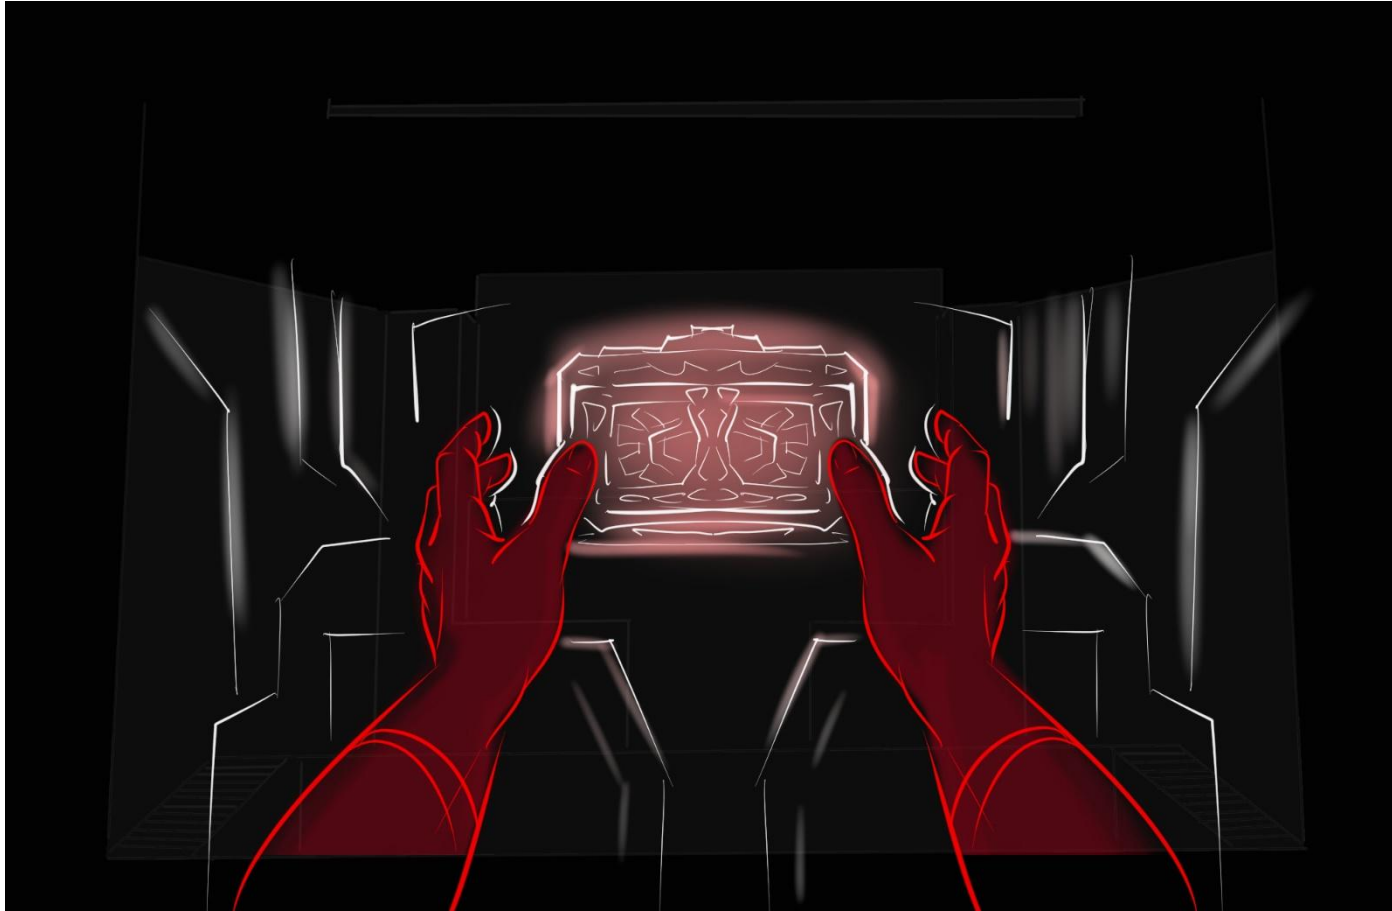

**And the Earth was
safe for 1000
years until this
Time...**

The hero of the story Max appears.

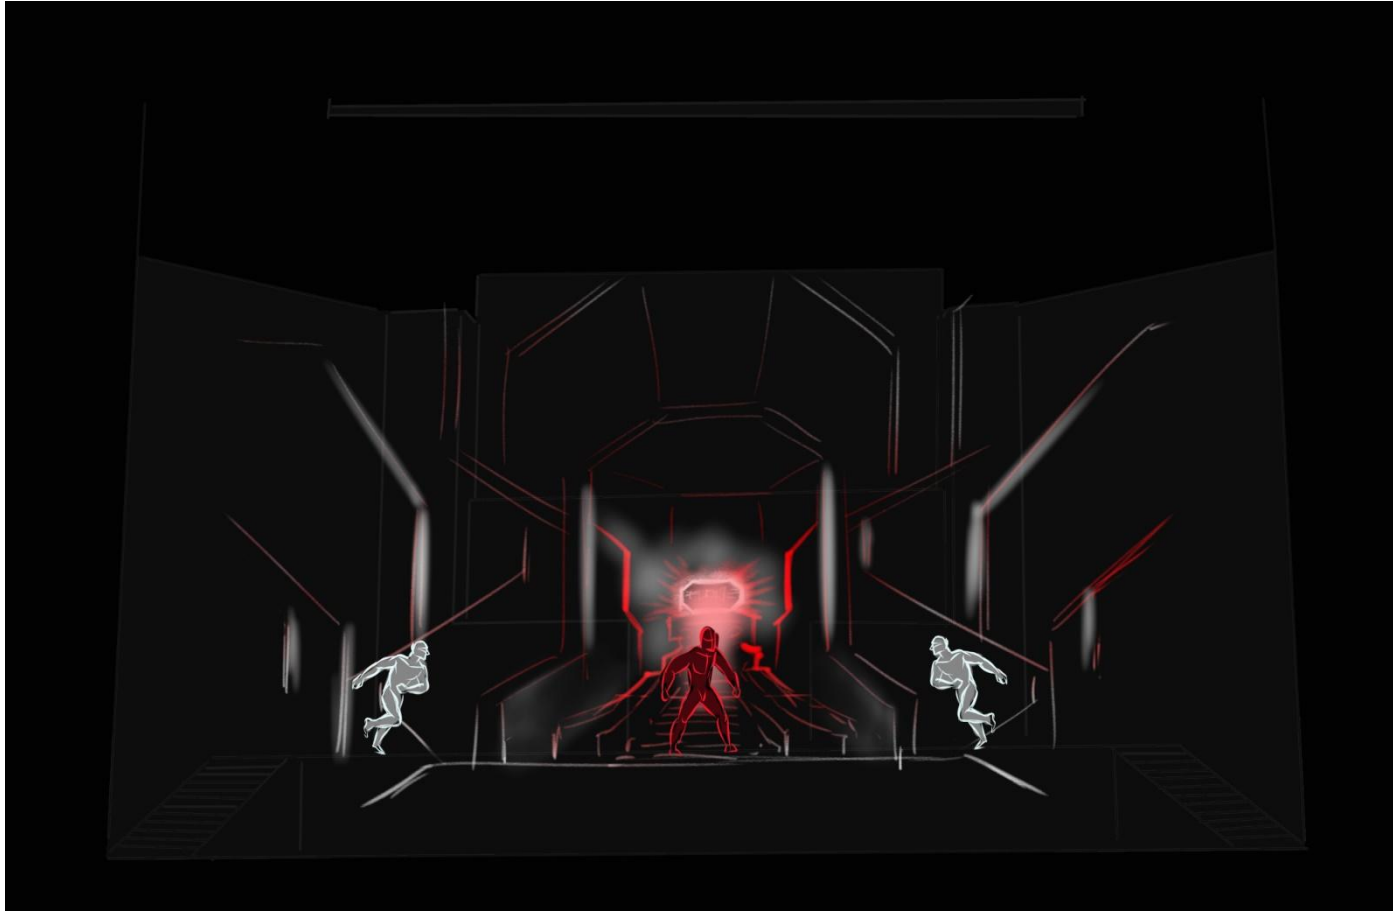

He snuck into this strictly guarded storage.

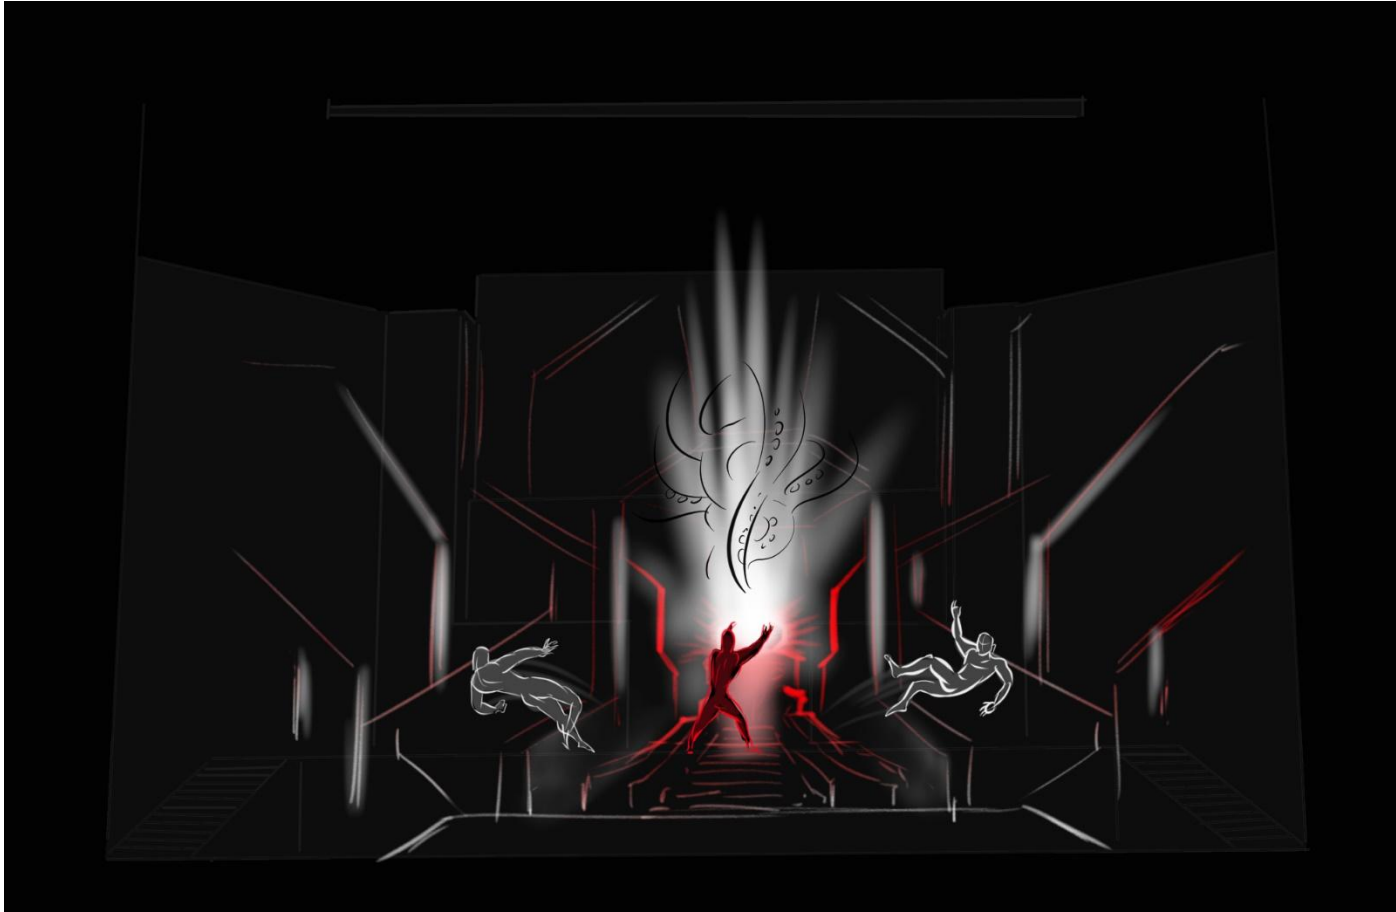

Max burns out of curiosity, he is reaching out his arms to the box.

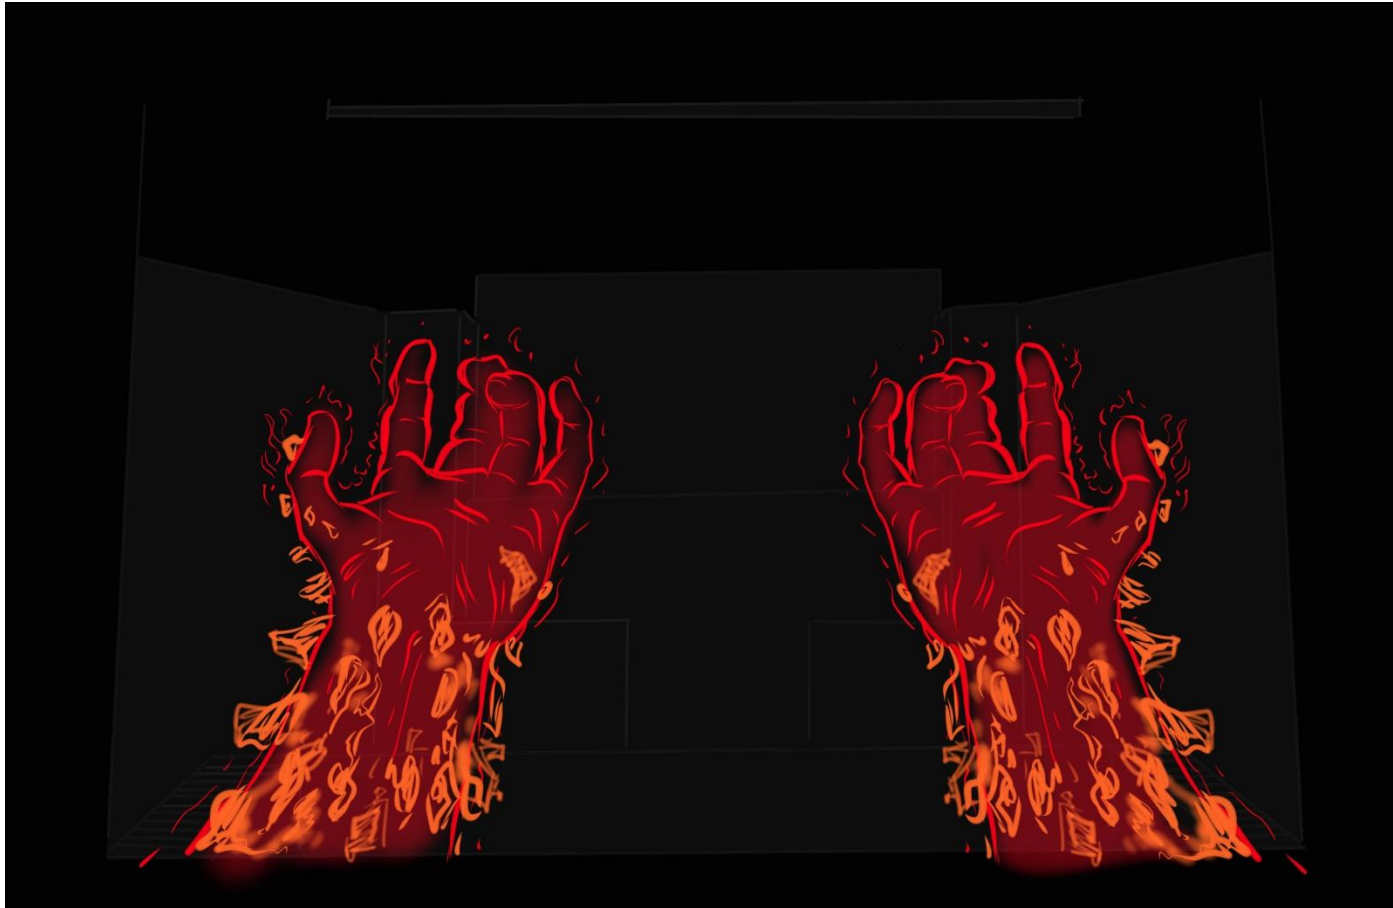

The image of incredible girl appears in front of a hero, warning him.

Max freezes, at the same time the guards break into the vault.

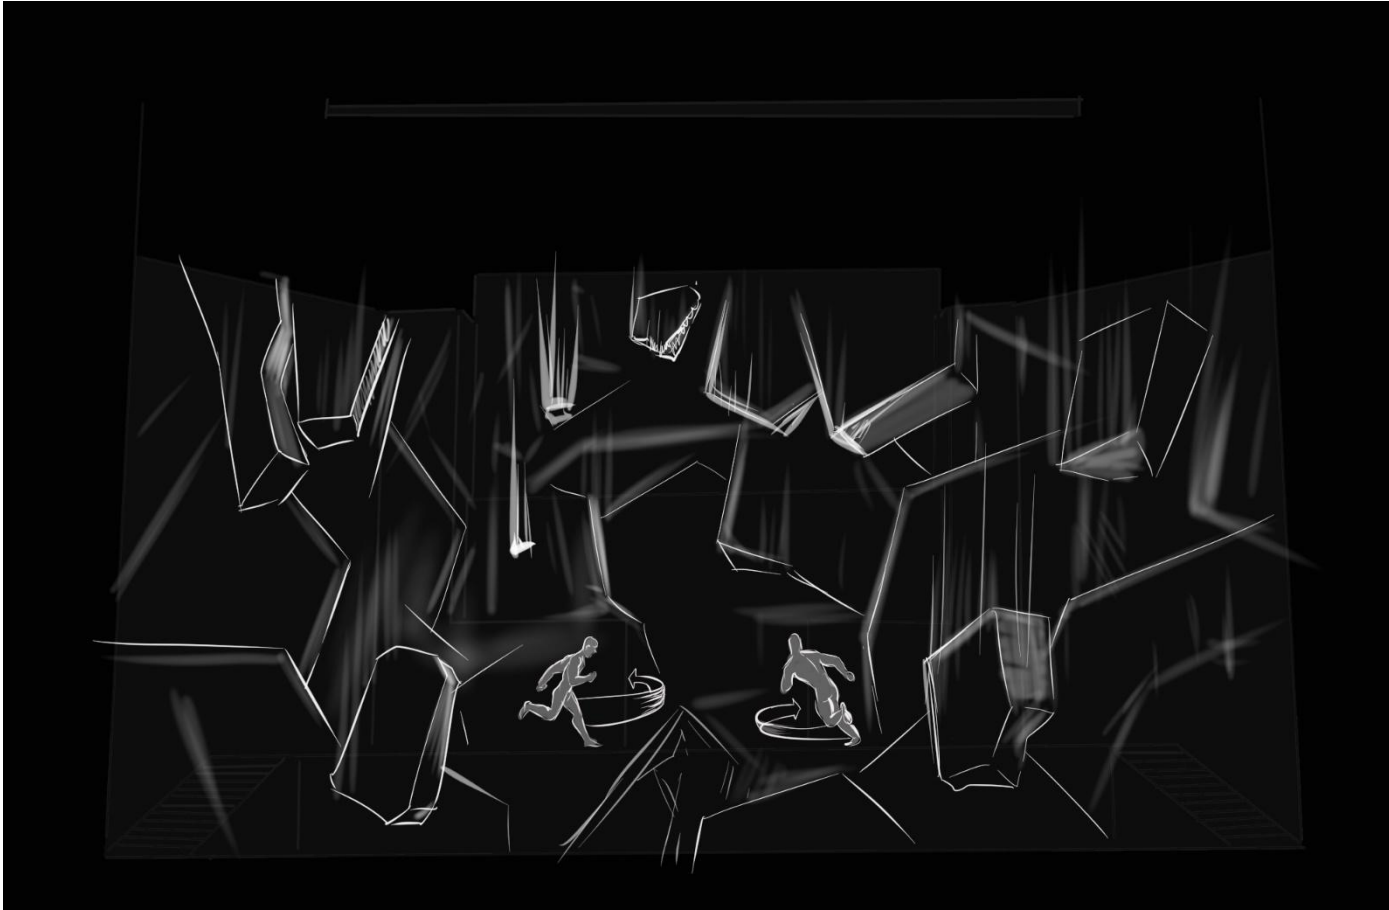

A fight ensues, the guards try to hold Max, but he breaks free, opens the box and releases an ancient Evil. A bright red beam breaks out from the box.

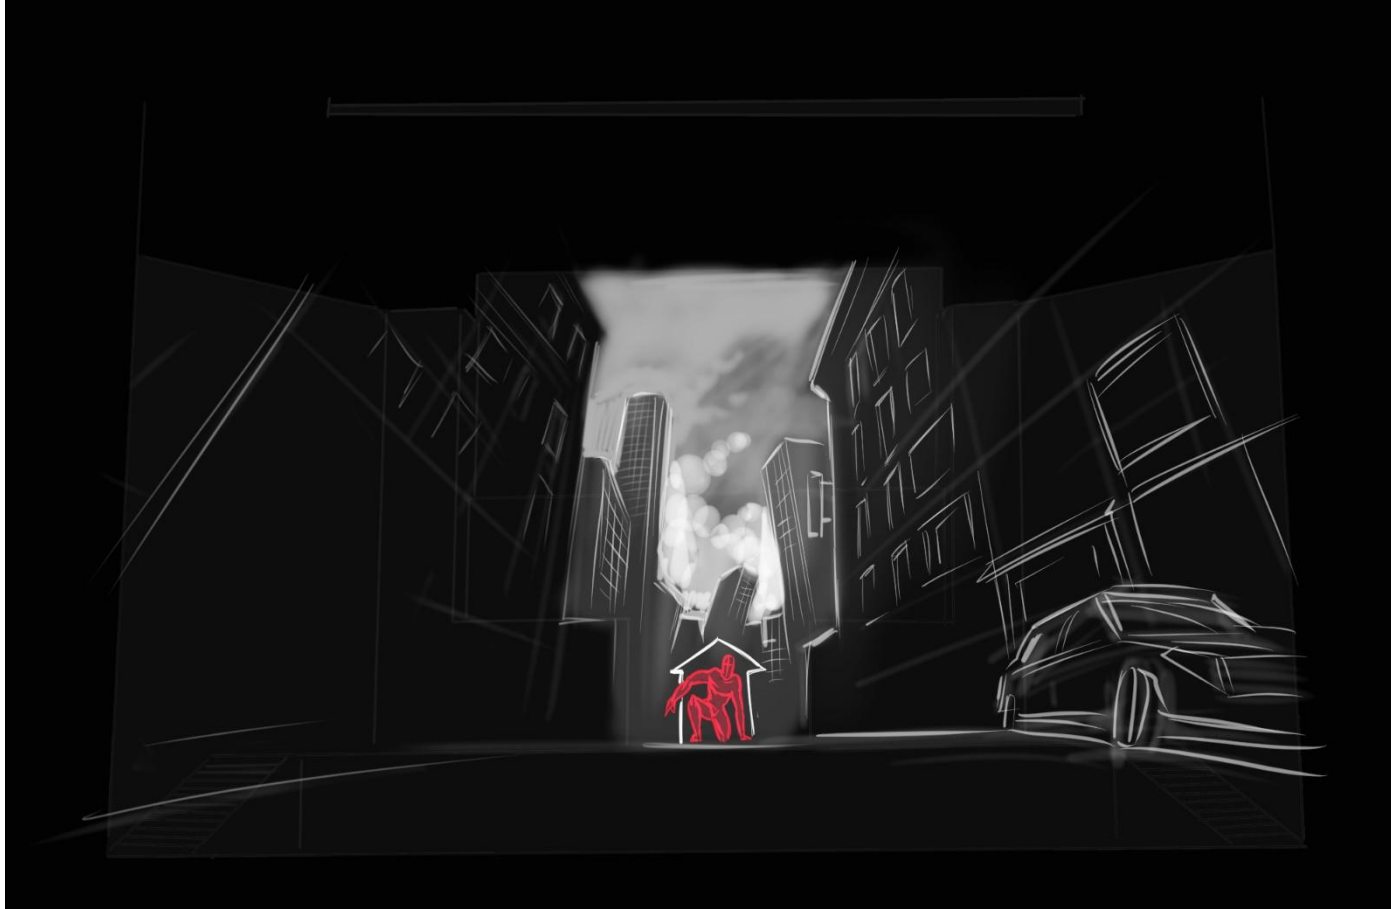

Max's hands are covered with red stigmata. (covering with shining red crystals)

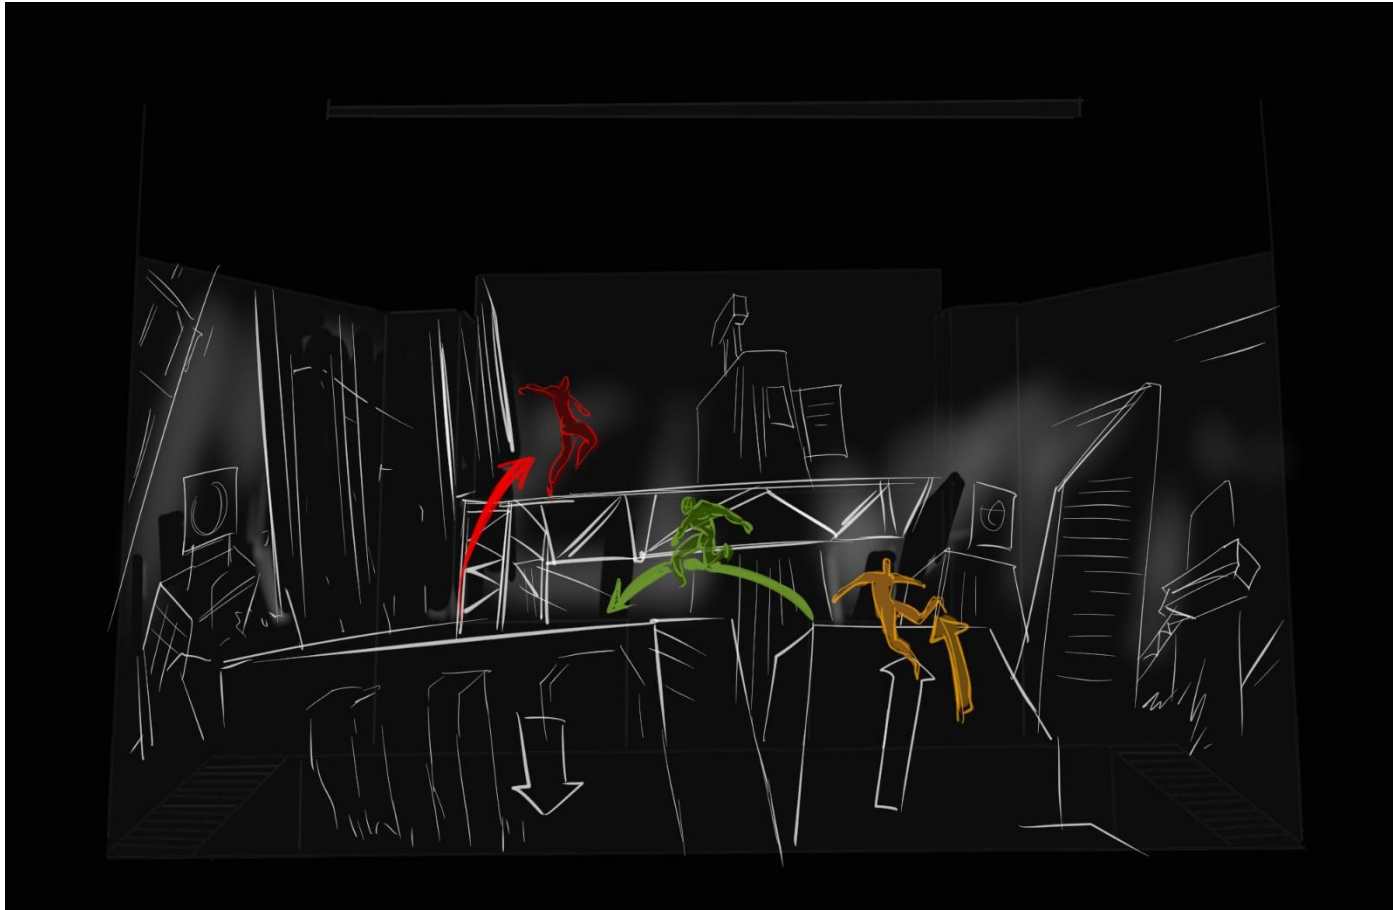

(Narrator voice):
Prophecy: the one who opened the box will be damned, and will perish, if evil be not defeated within 24 hours. Crystals will point the way to the Evil.

The building and the whole environment begins to crumble. Max and the guards run through the sewer into the city.

They emerge from a hatch in the ground.

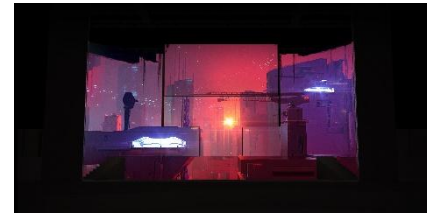

The city collapses,
Max and the
guards flee through
the city, climbing
higher and higher.

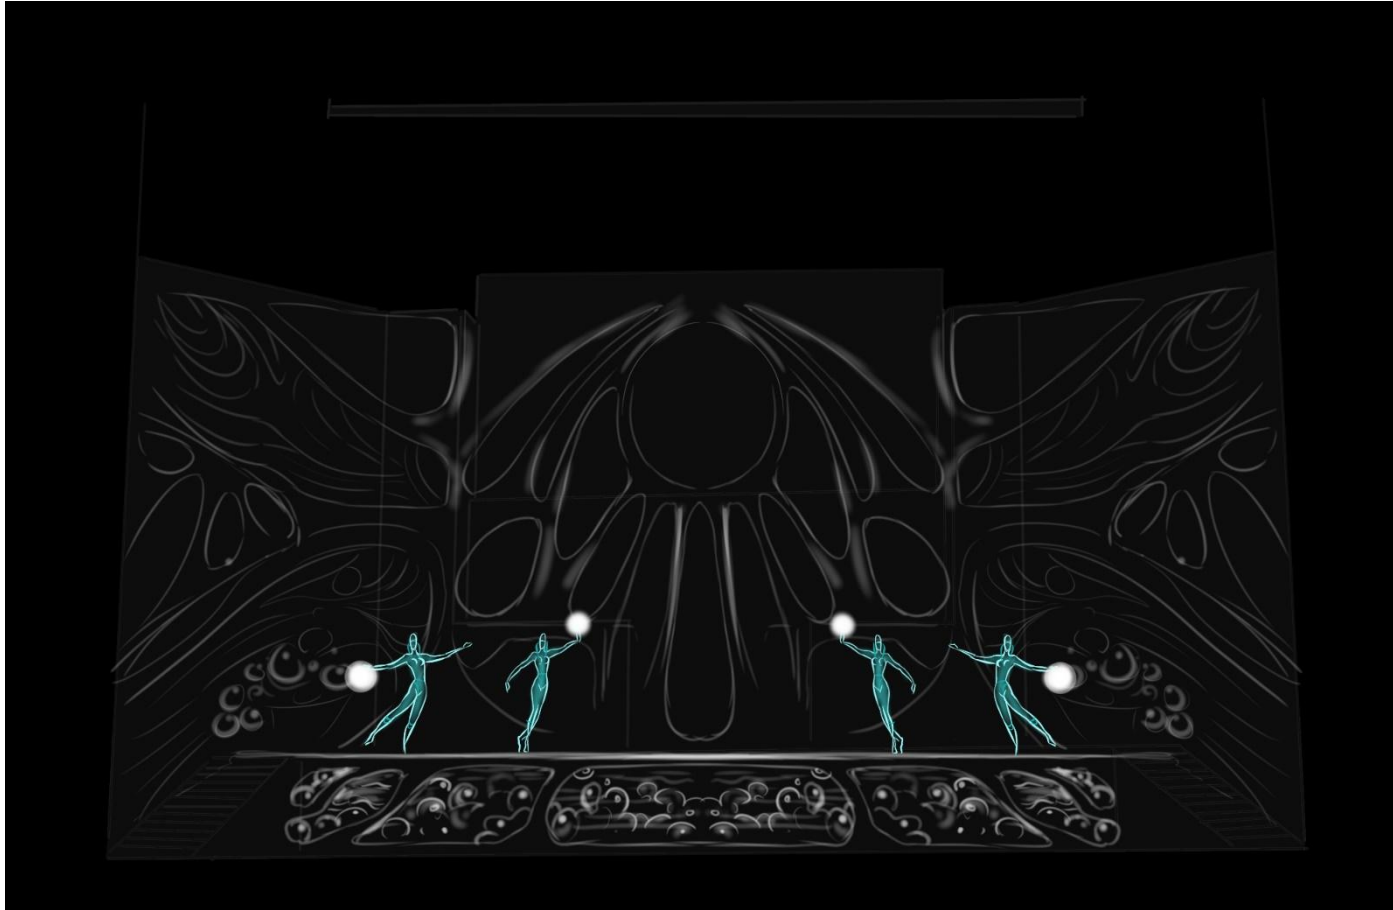

Storyboard

Scene 2

Max breaks away from the guards and stops, looking at the panorama of the collapsing city.

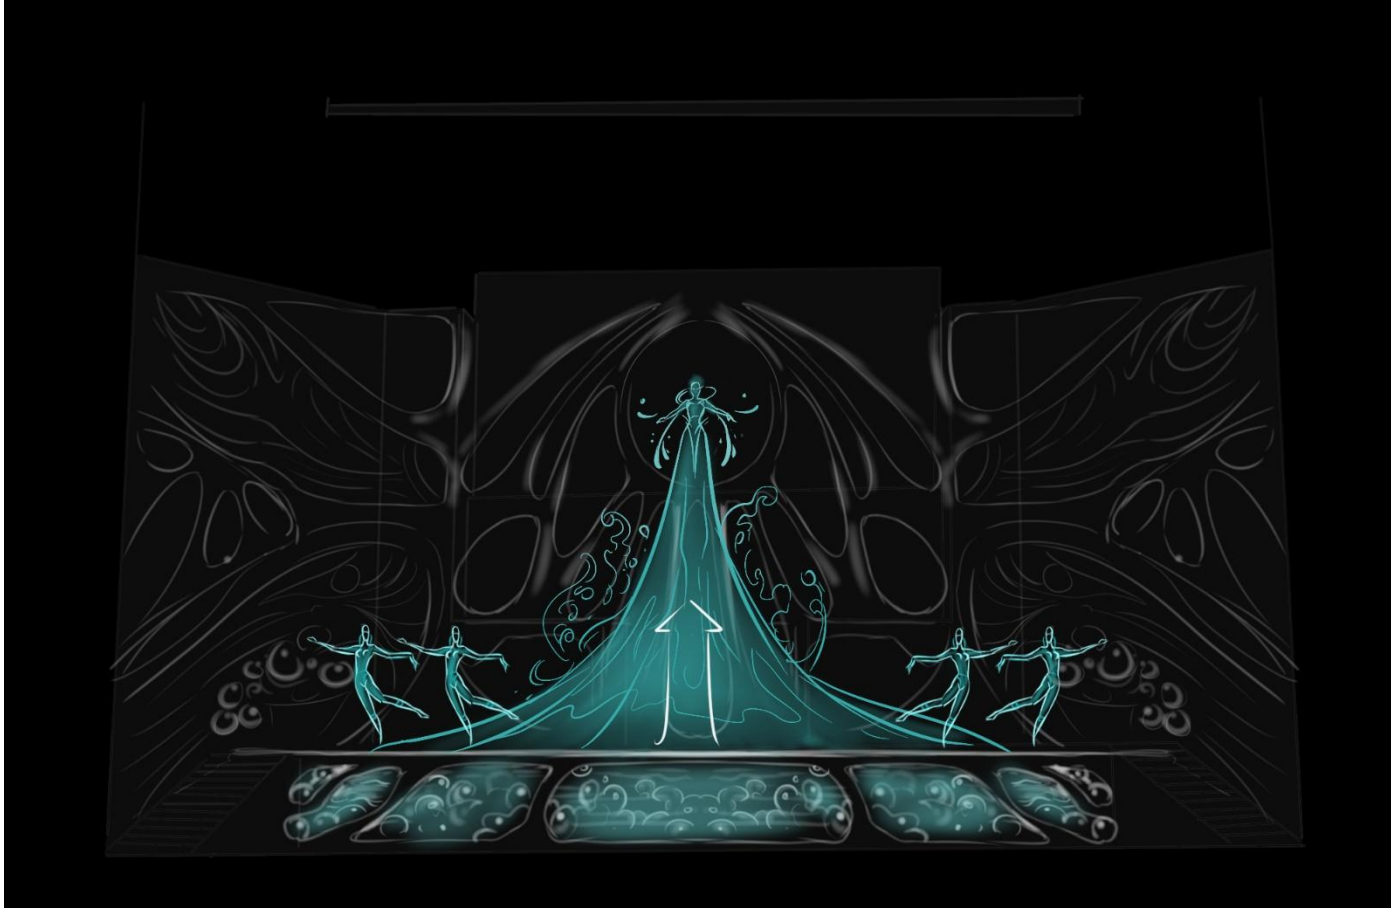

In the dark little points of light come on, it move. The courtiers of the castle dance with lights.

(Narrator voice):
Nebula planet is the only one, who ever could defeat the great Evil on Earth, thanks to magical reviving power of it royals.

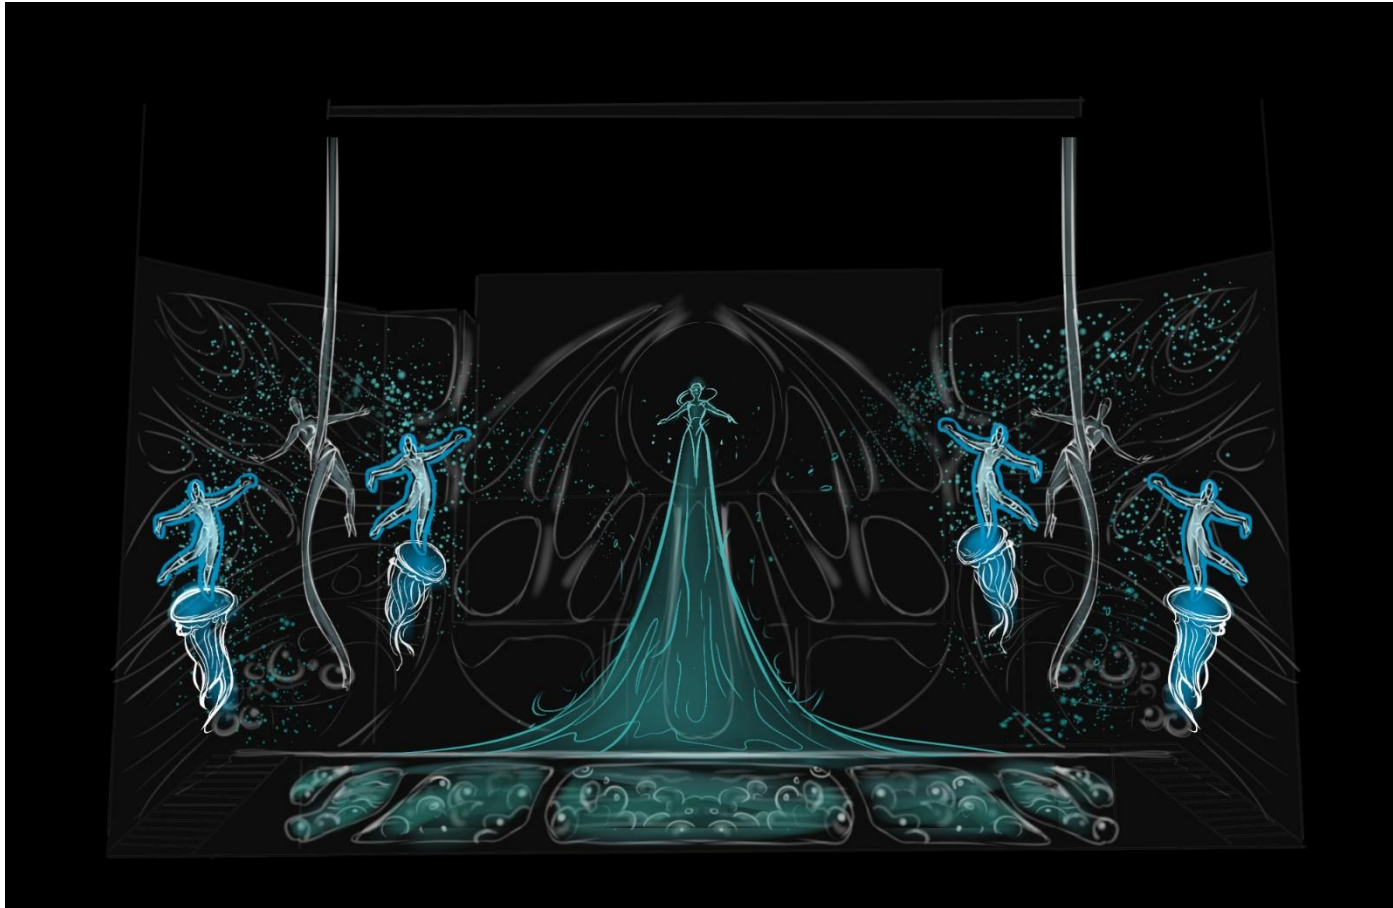

The courtiers of the castle immerse the light in the water.

Princess Alivia
wakes up out of the
water, she rises
above the stage -
behind her is a long
volumetric train of
shining fabric.

Princess Alivia's maids slowly descends from the ceiling along with jellyfish (on the screen)

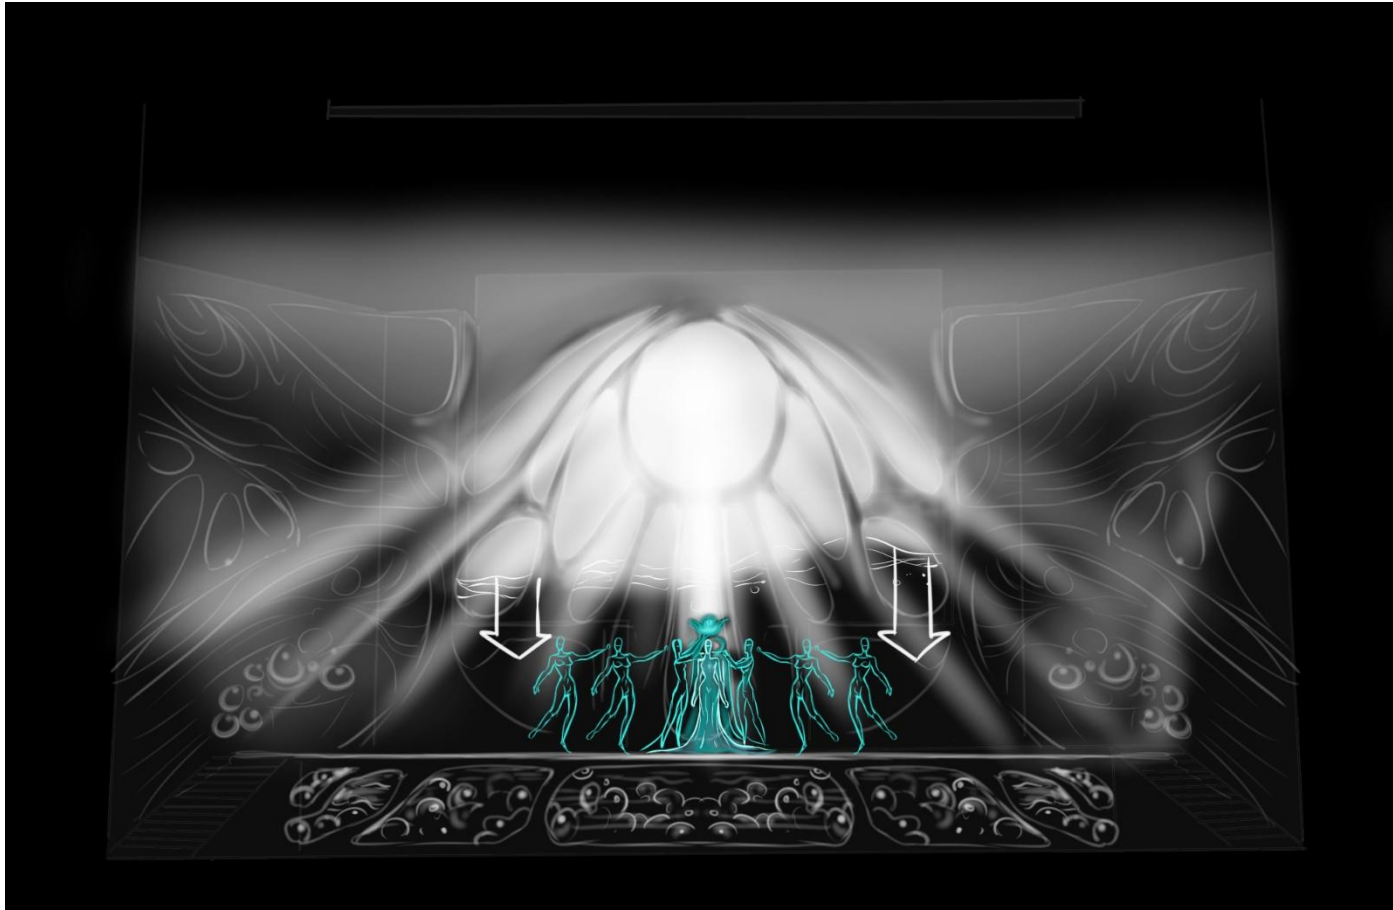

The courtiers of the castle in the dance go into the intervals between the screens and then appear in the graphic on the screen.

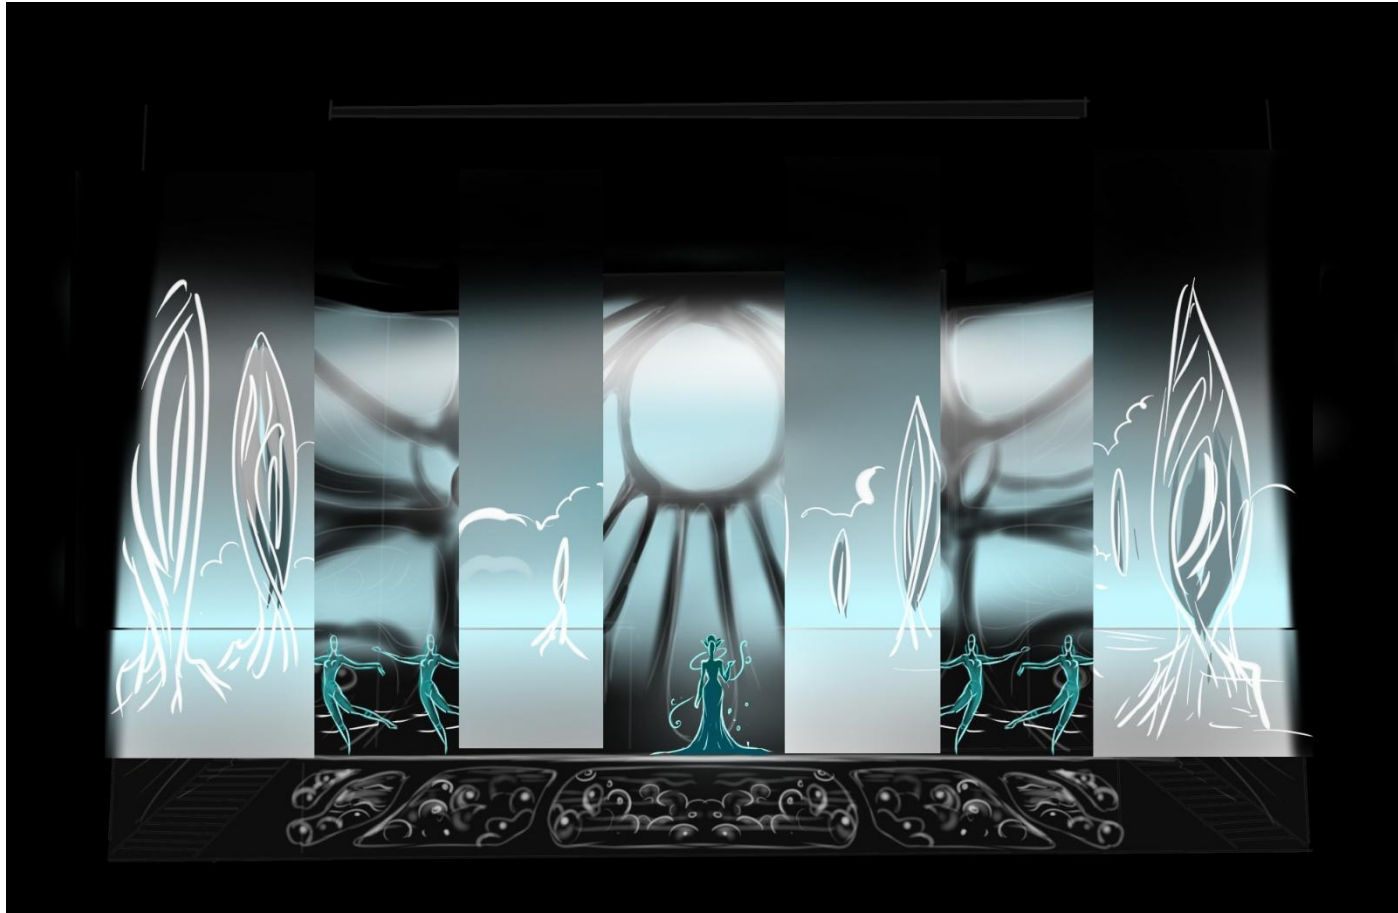

The castle is rising from the water.

The courtiers descend from the graphics on the screen and appear on the stage.

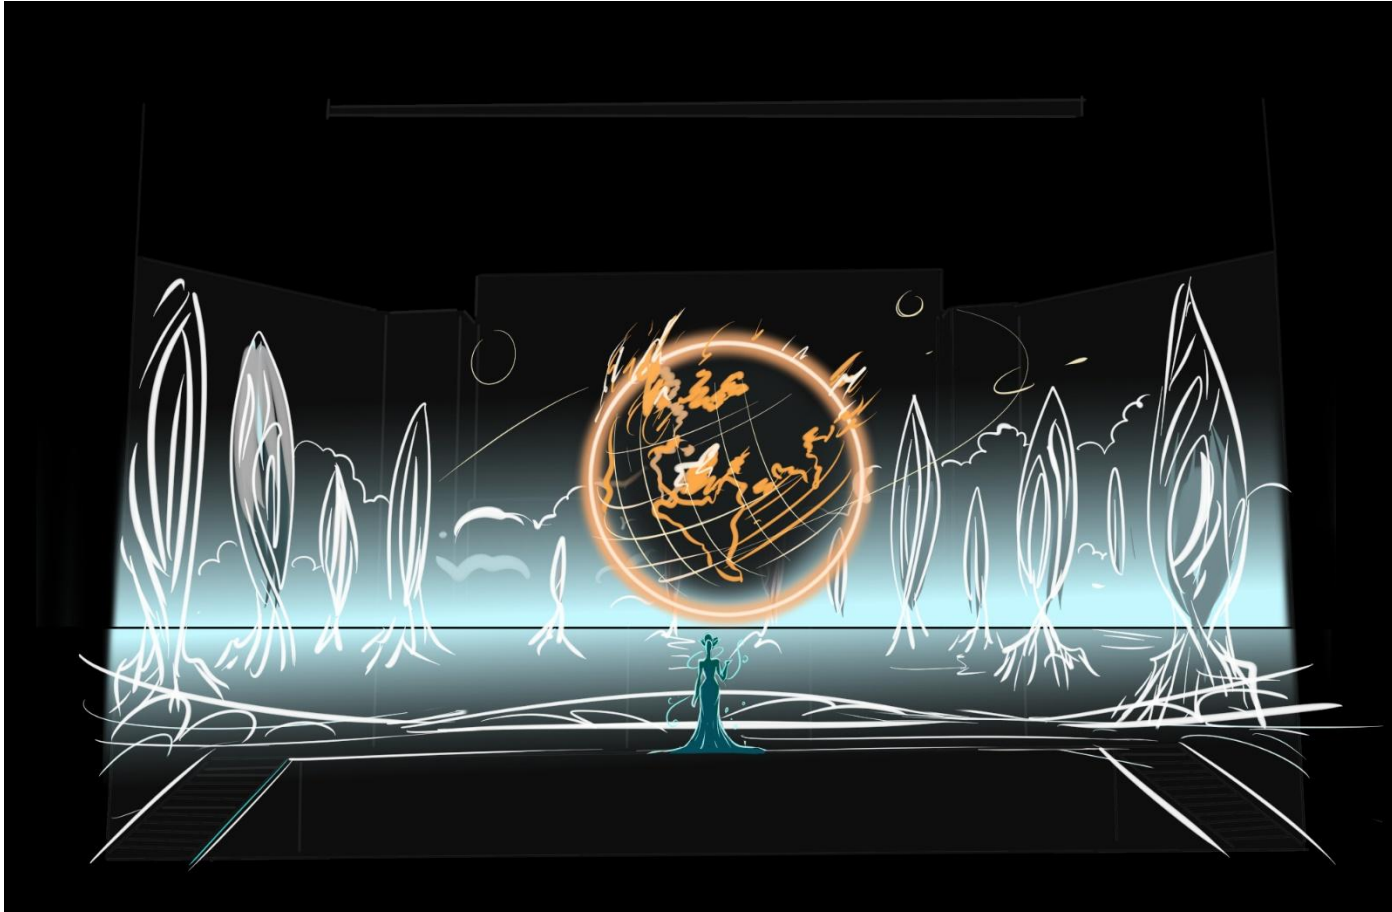

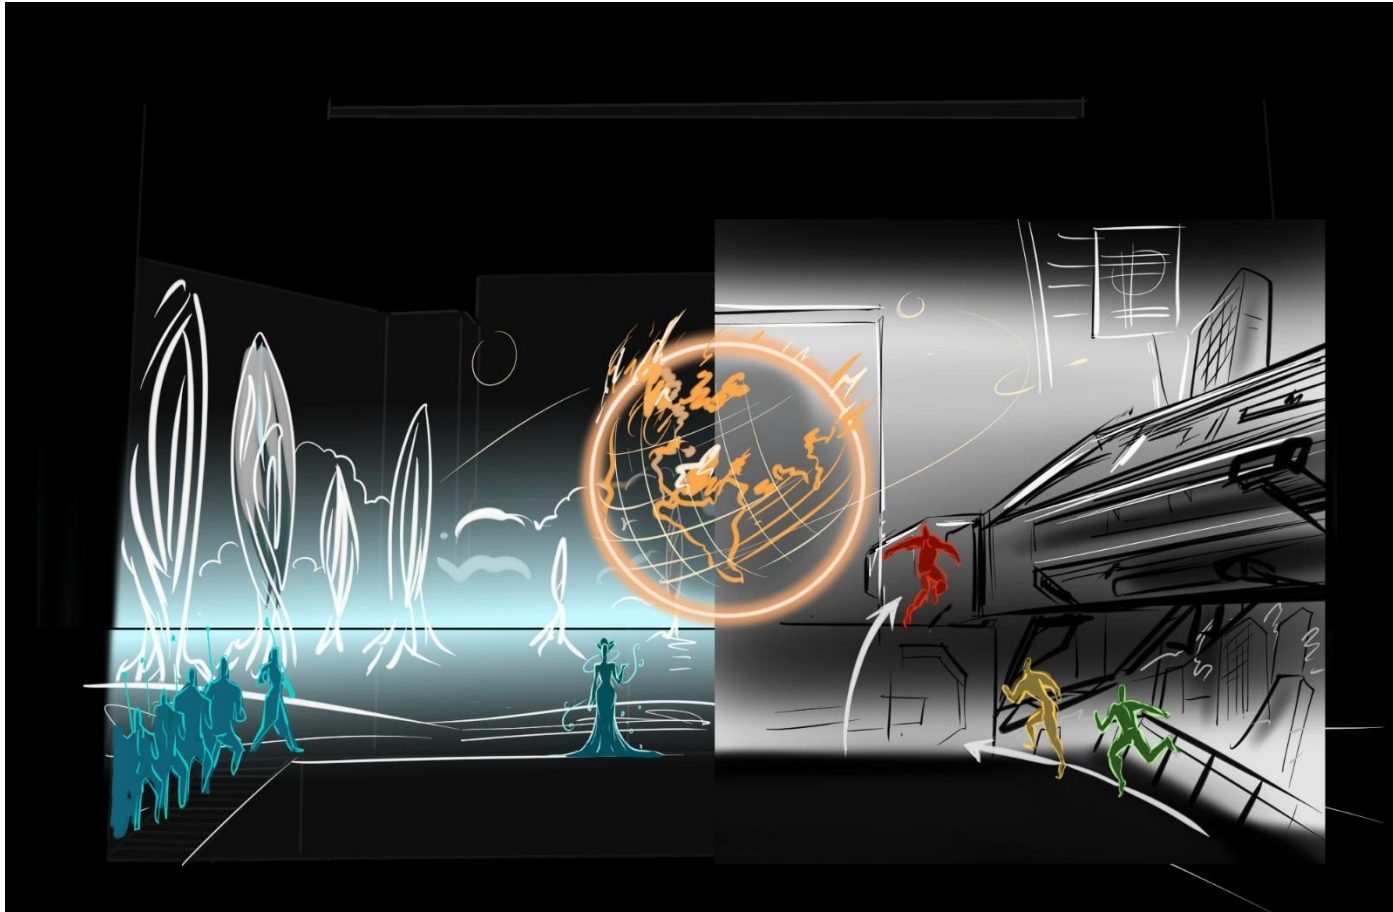

The castle of the princess rises above the surface of the Nebula planet.

Storyboard

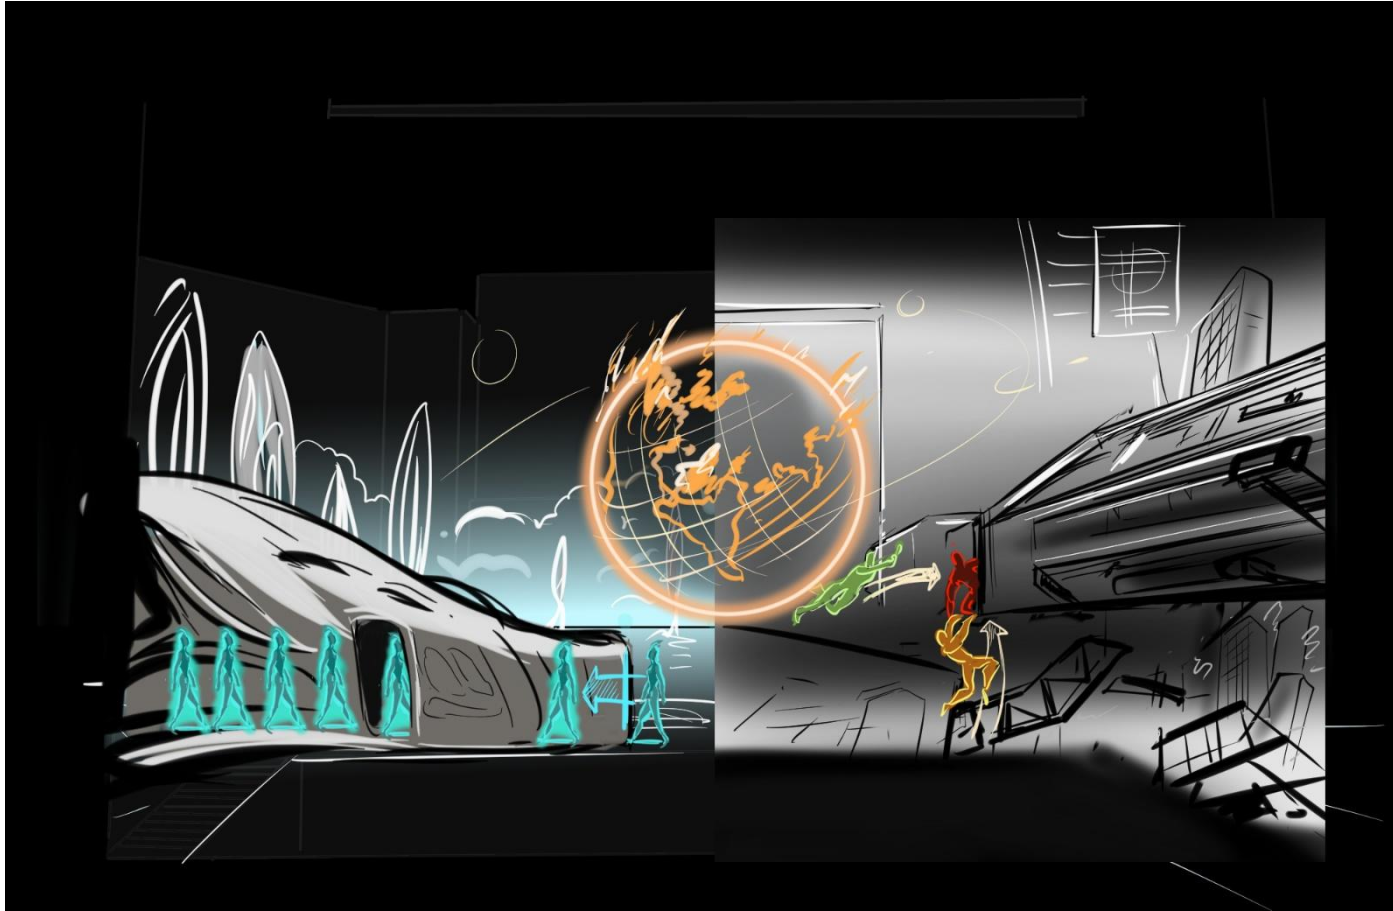

Scene 3

A few more parts of the princess's city rise to the surface of the planet. The image Earth planet appears in front of the court kingdoms, they are looking at it. The planet is covering with black moving substance.

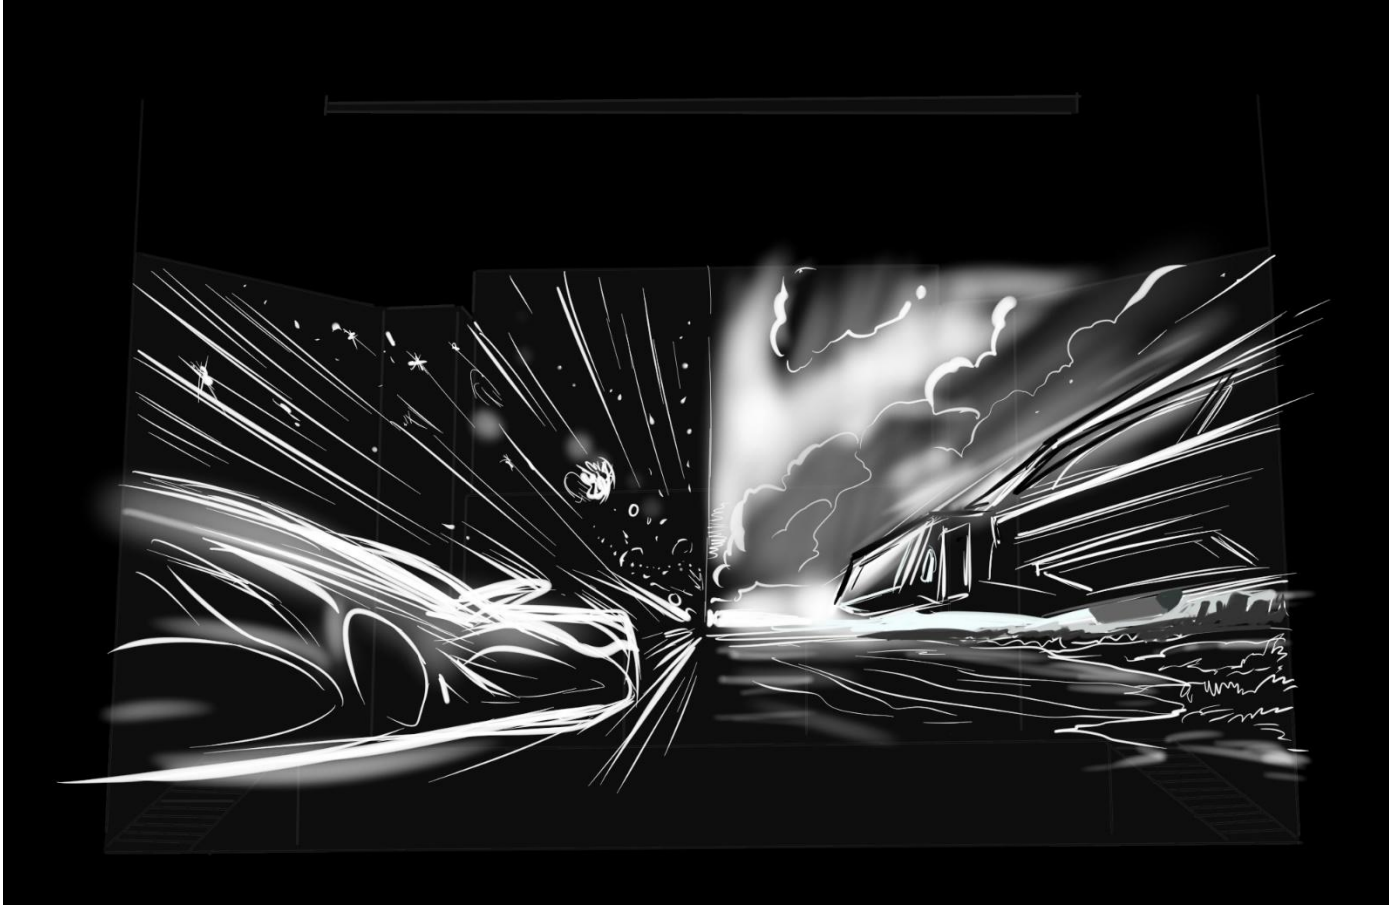

The picture on the screen splits. In the second part of the screen there is a large image from the Earth and a flying Max spaceship appears. Max enters it, the guards run in the distance.

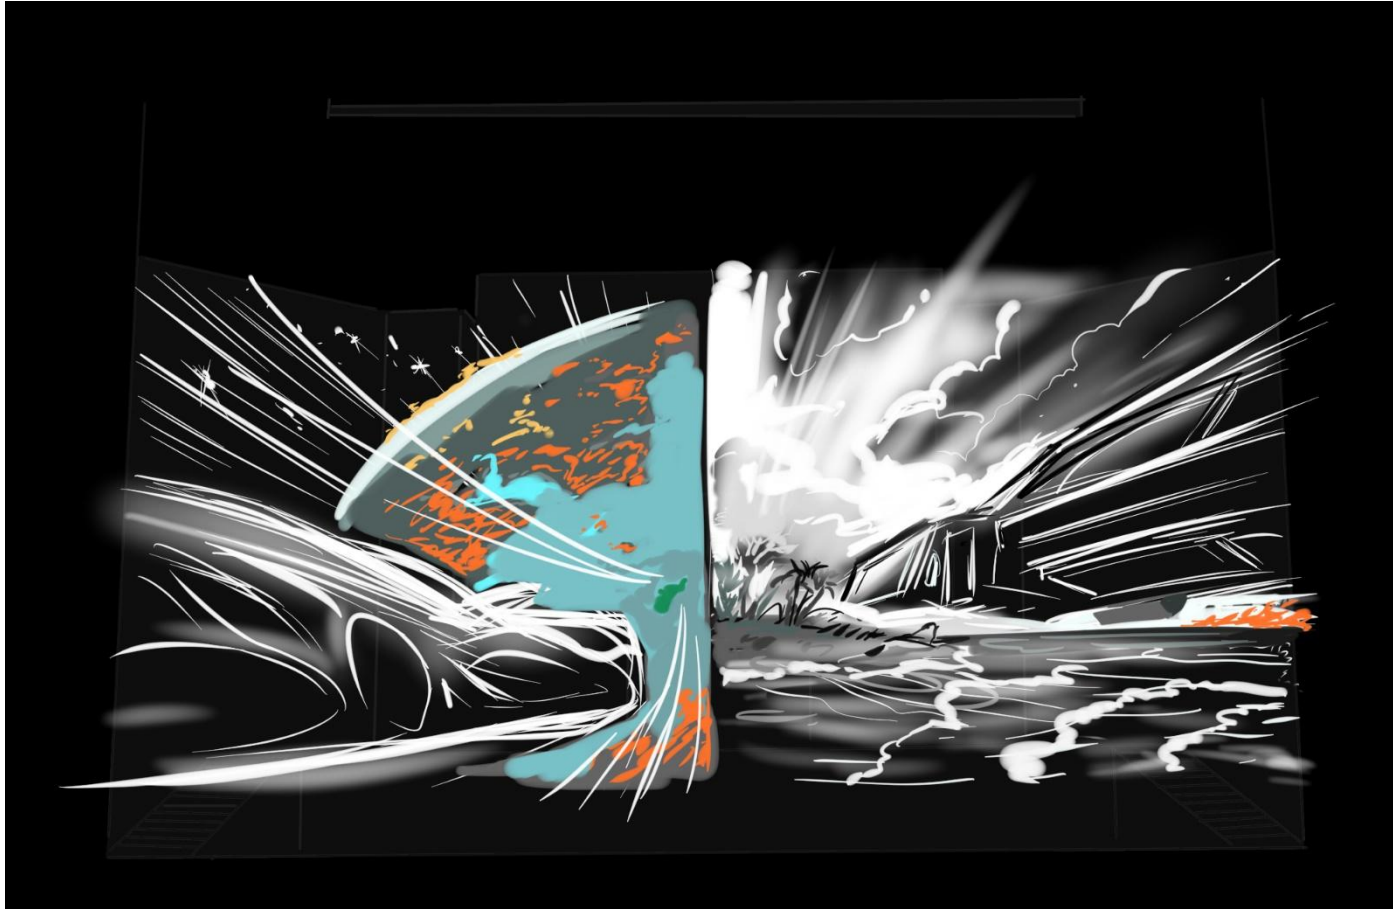

The city begins to crumble, the ground destroys under the guards and the guards grab to the edge. Max returns and helps the guards escape. They climb aboard the Max's spaceship.

The army of Alivia rises aboard her spaceship. Princess Alivia's spaceship flies up.

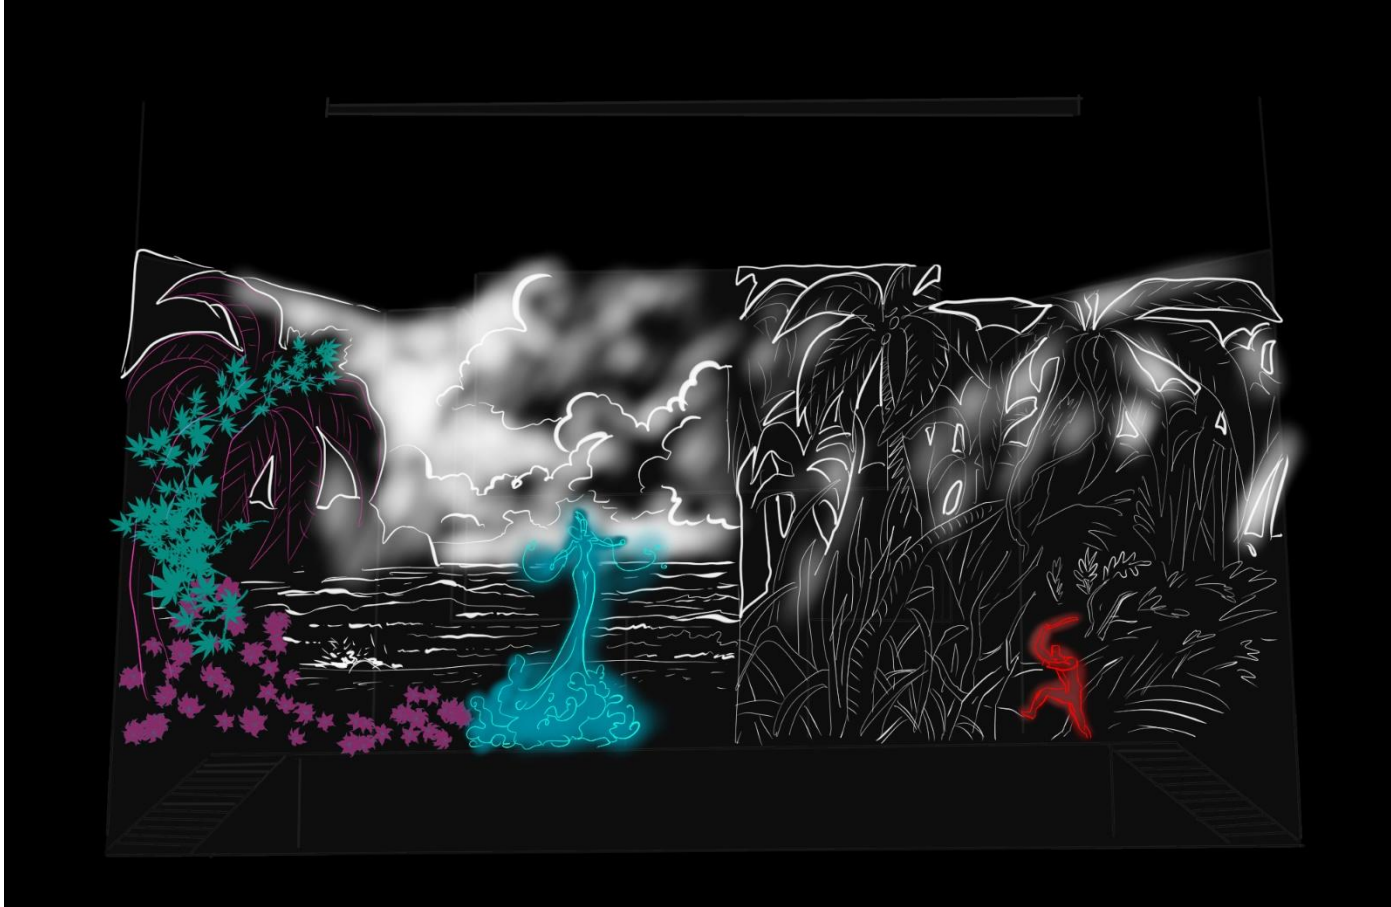

Both ships rise into the air and fly rapidly.

On one side of the screen, the Alivia's ship is moving in space to Earth. On another, the Max ship is flying over the surface of the Earth.

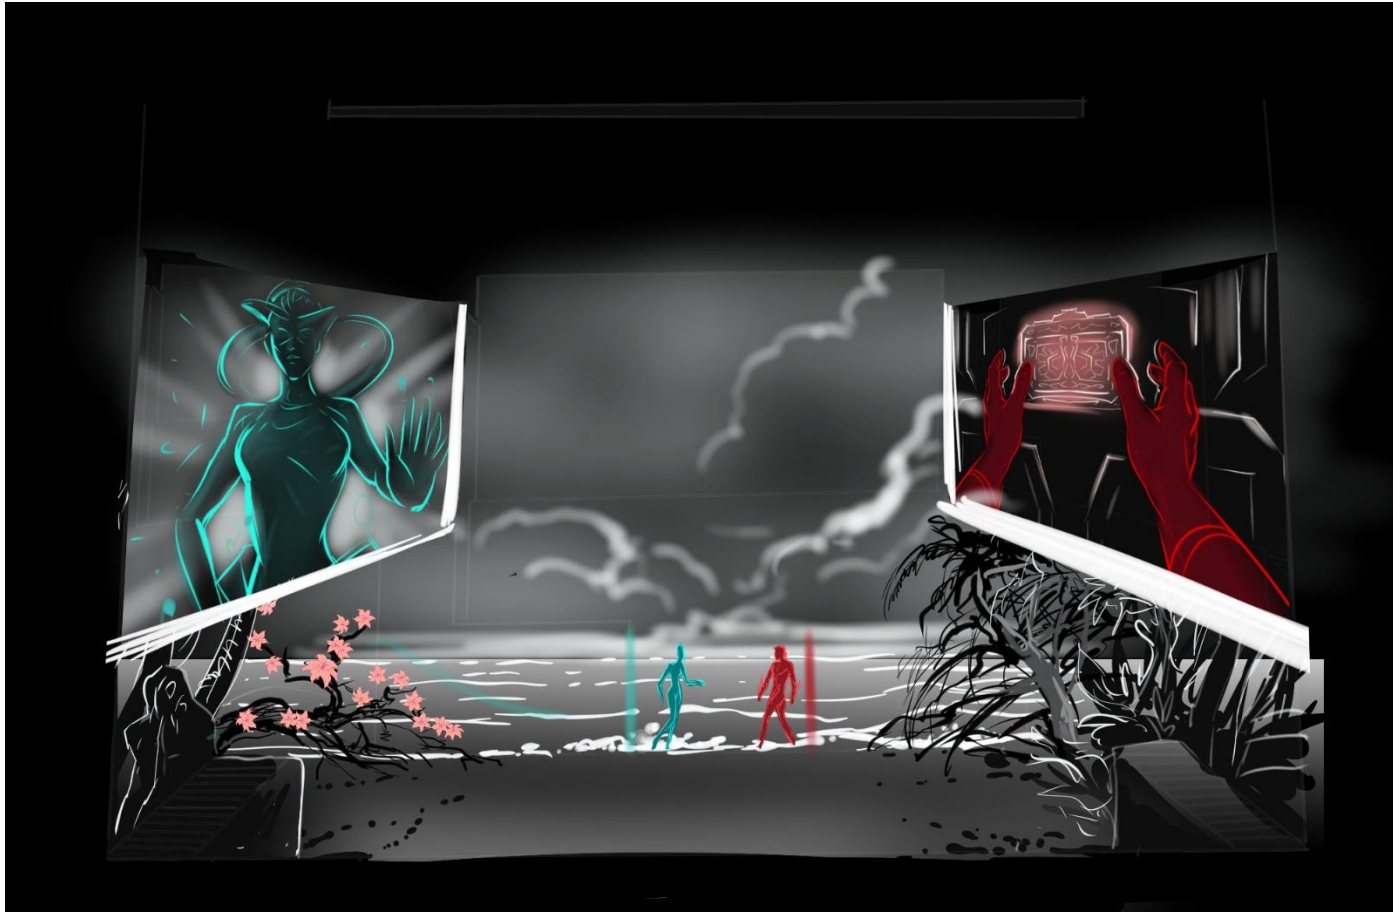

Both ships land on different parts of the island. Alivia with her army and Max with the guards come out of the spaceships.

Alivia in the left part moves from left to the right (graphics on the screen moves along the coast). She is like flying on the bubbles cloud (graphic beneath Alivia).

Max in the right part moves from right to the left (graphics on the screen moves through the thicket of the jungle). Max jumps on the trampoline, creating a image of fast running through the thicket of the jungle.

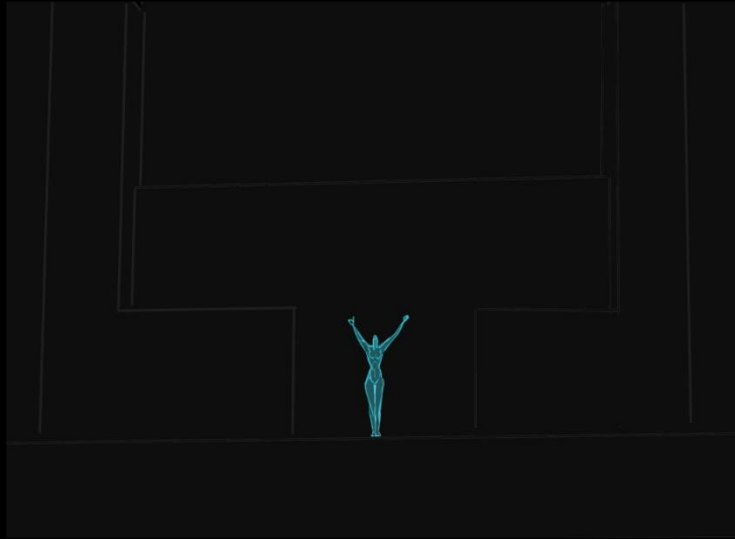

Alivia and Max collide in the same place (2 screens in the graphic merges).

Max flashback: he remembered Alivia, who appeared in front of Max in storage before he opened the magic box.

Alivia freezes. Max kneels and pulls the box to the Princess

Alivia touches the box and the light goes out, only Alivia glows in the darkness.

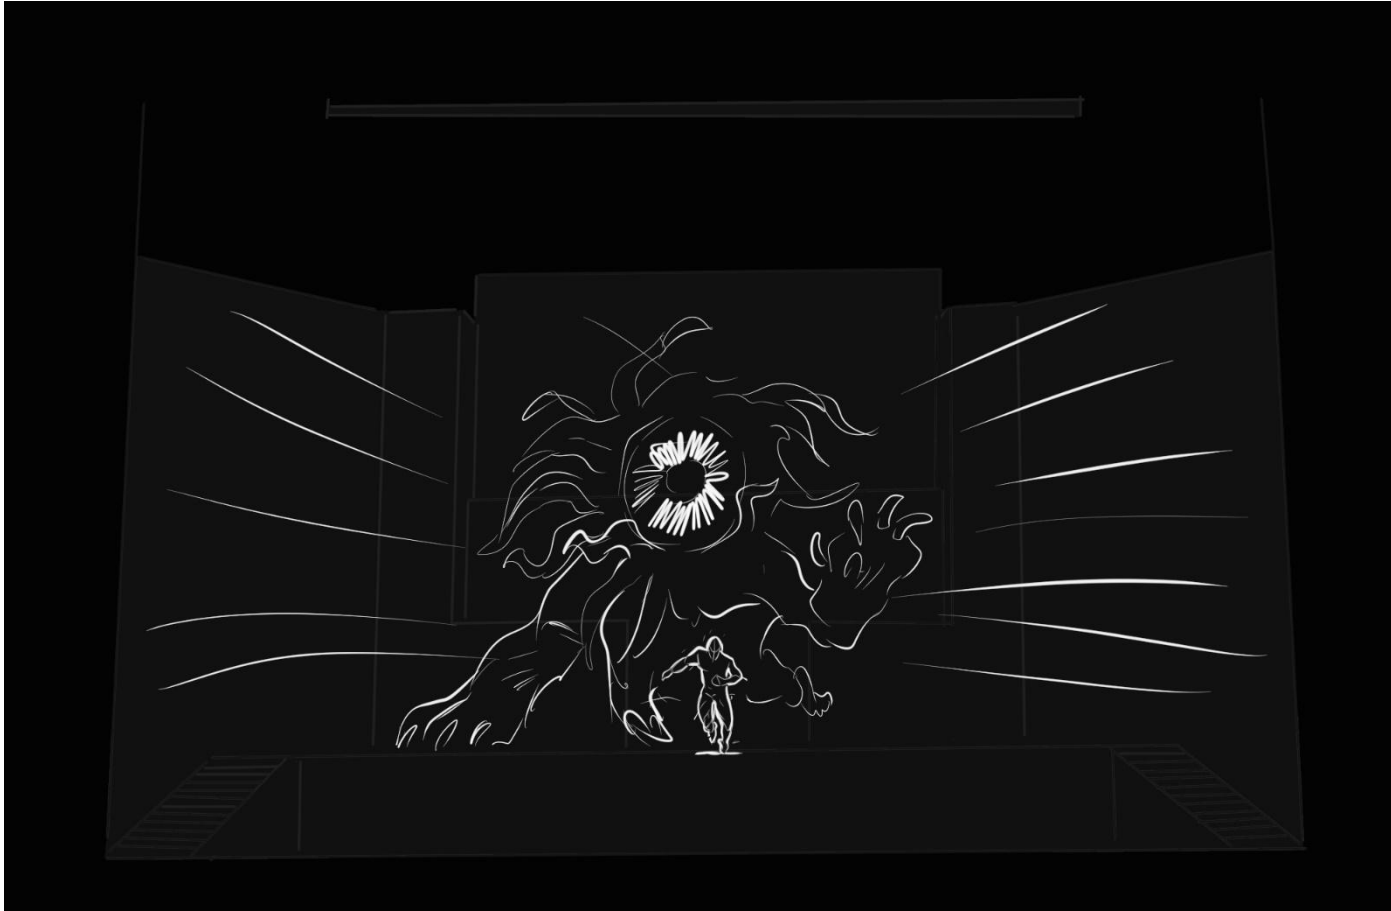

The light inflames - Alivia with her warriors conducts the rite of calling Evil into battle. In the dark glow symbols and signs on the bodies of warriors appear.

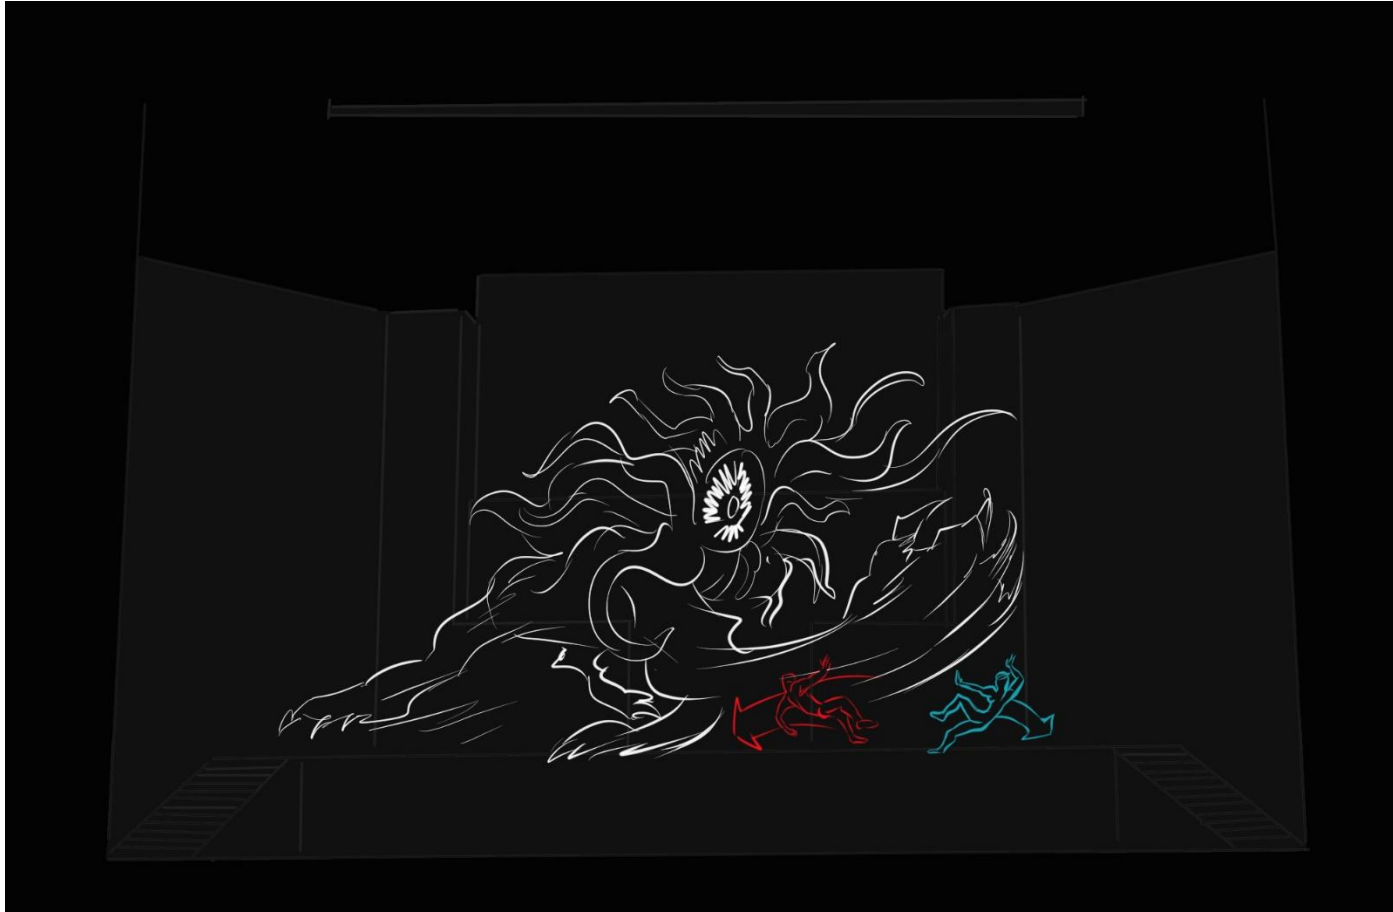

Max and the guards observe from the side.

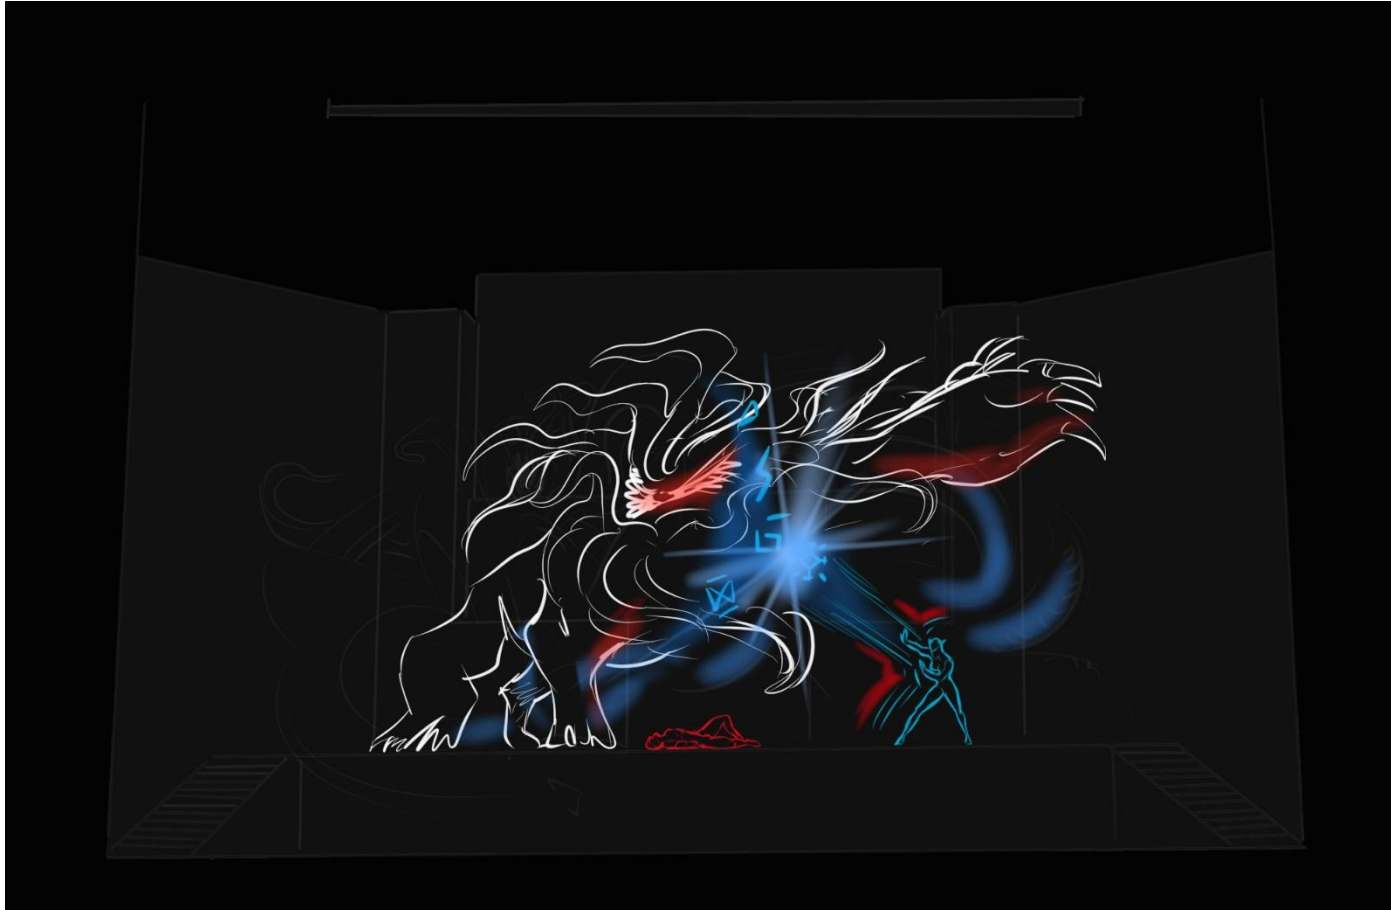

All heroes disappear from the stage.
Graphic on the screen is moving far from the action place.
The Evil is rising far in the sea.

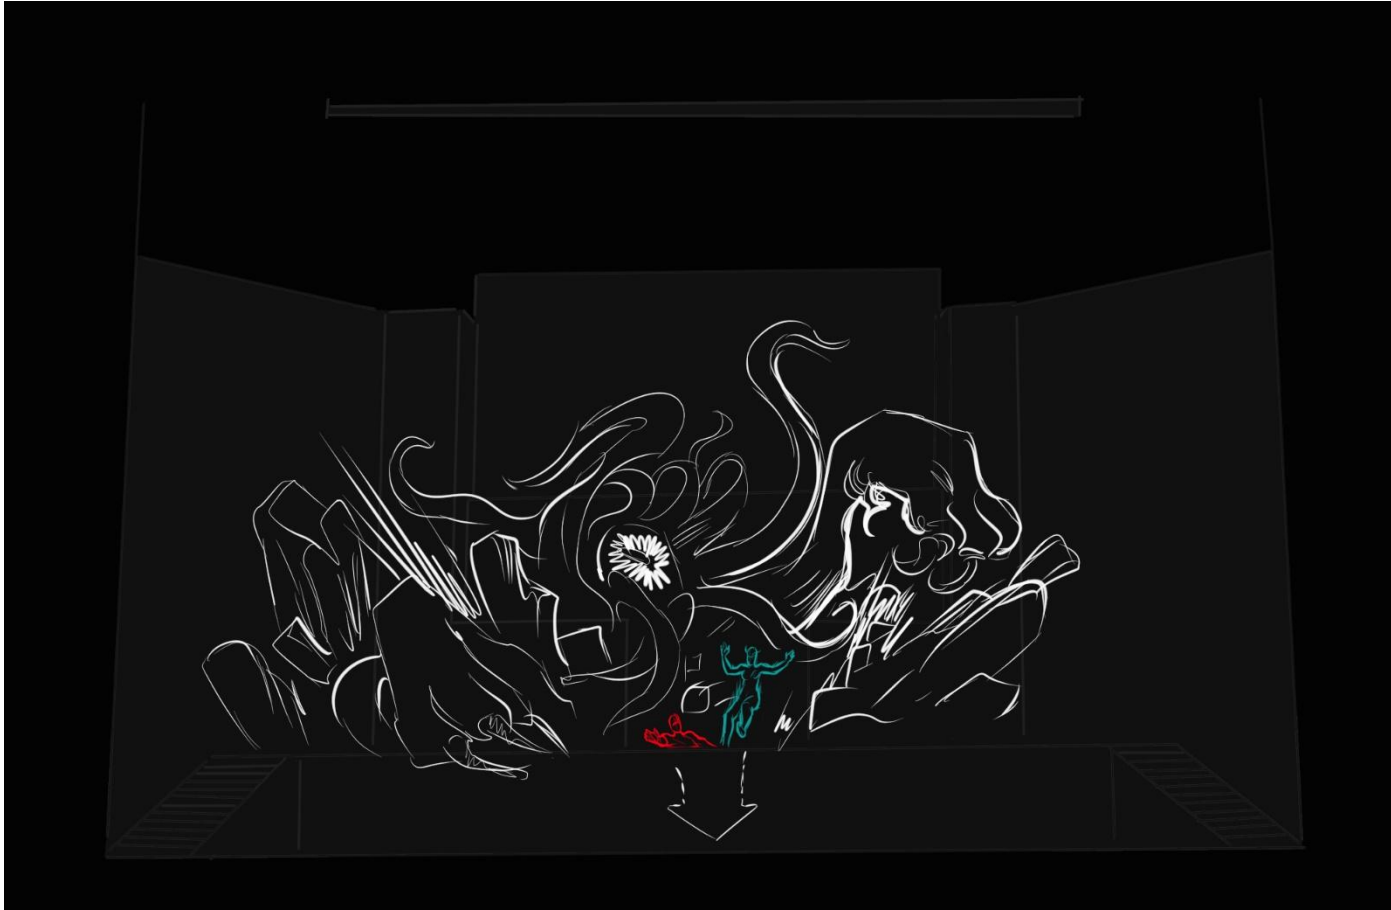

The Evil moves forward(using treadmill) and behind it is his monster avatar (on the graphics on the screen)

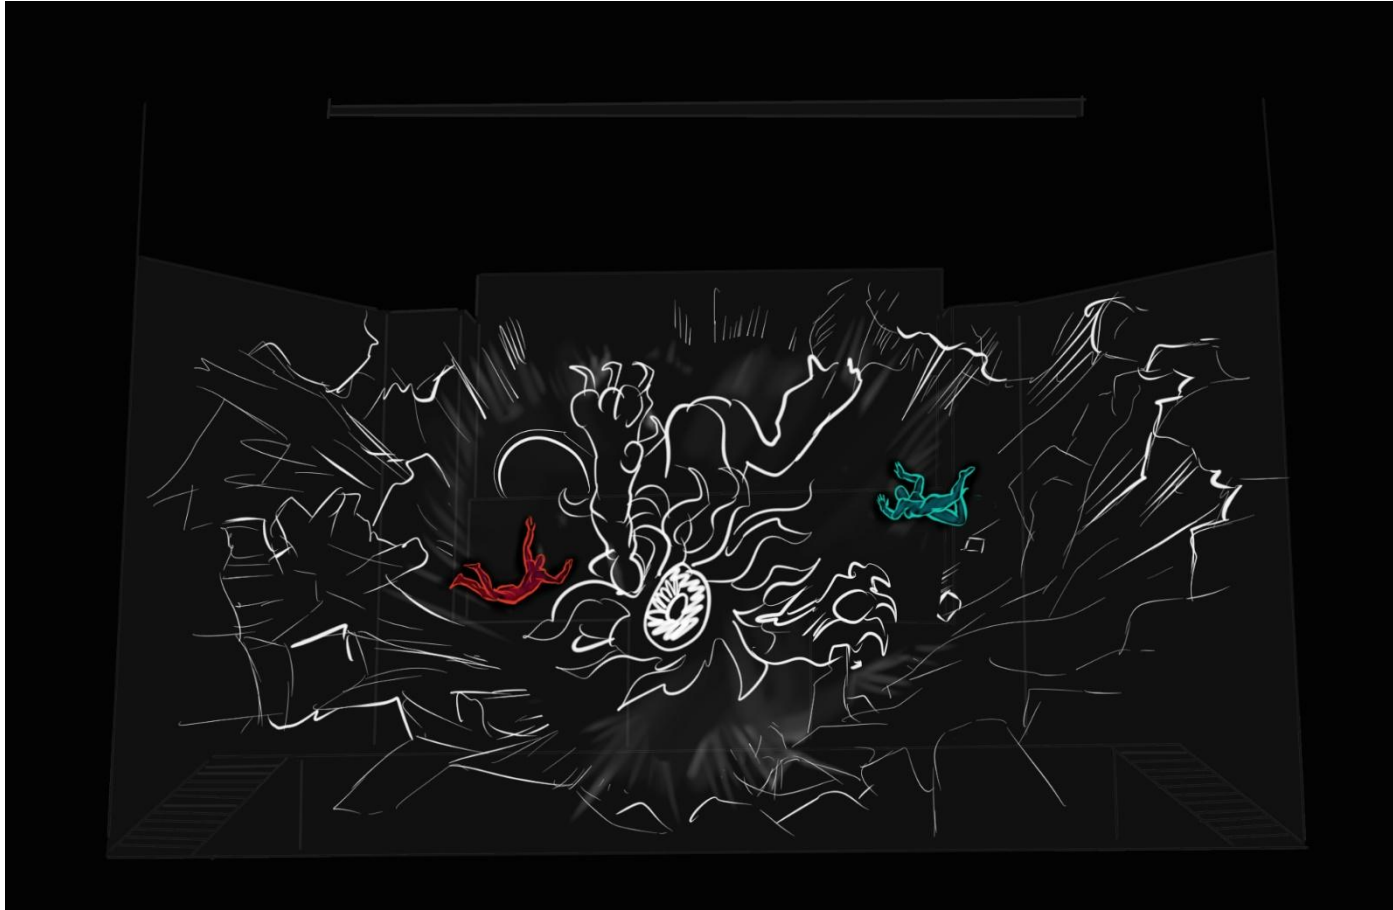

The monster is thrown onto the beach and instantly strikes the first blow, throwing a couple aside. Max shields Alivia from the blow and takes it upon himself. Max falls.

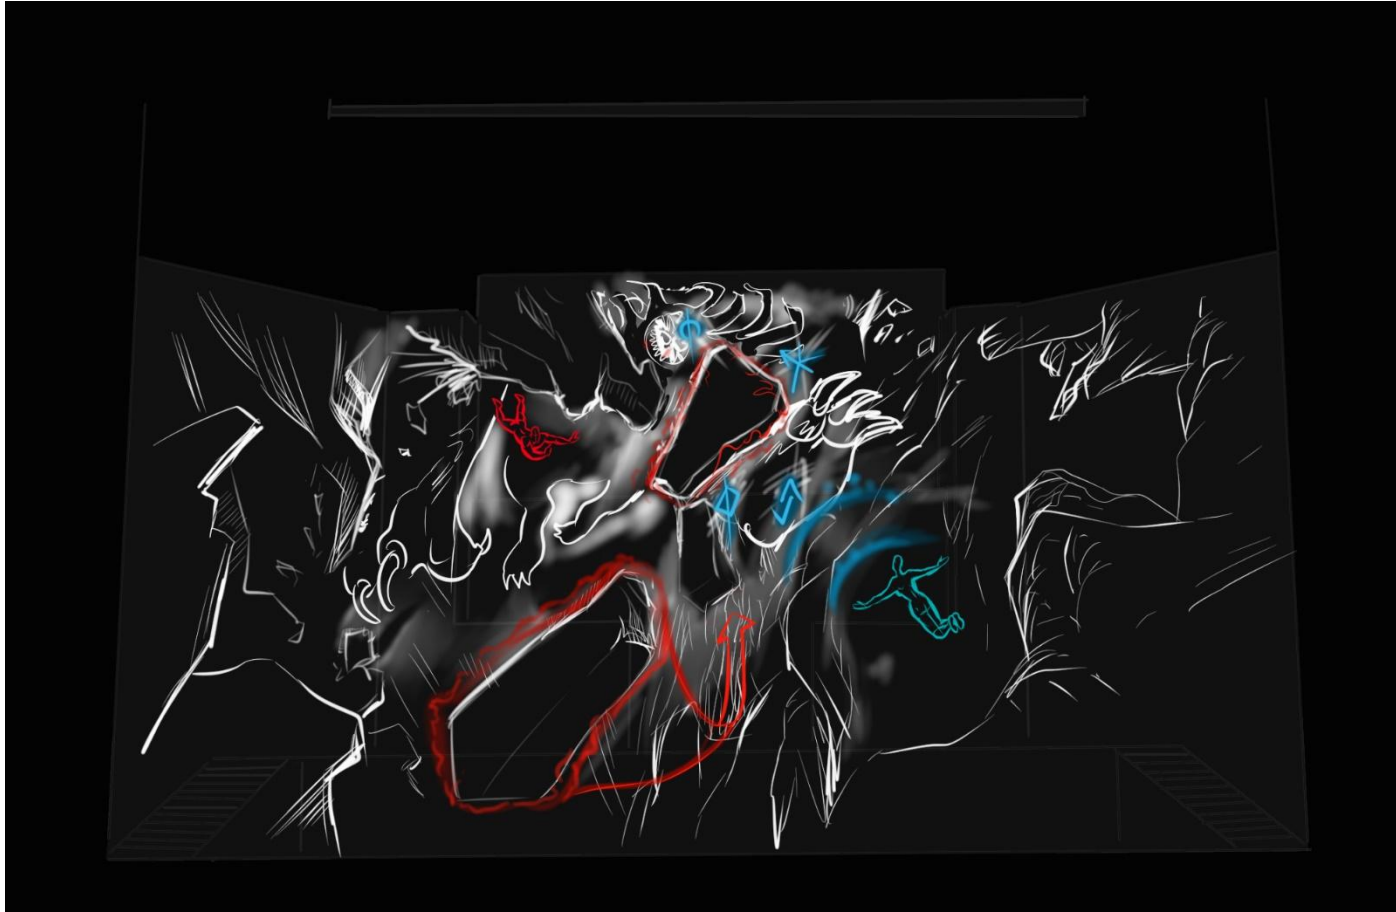

Alivia fights with the monster. Using runes against dark matter. The graphics rotate a bit, creating a parallax motion.

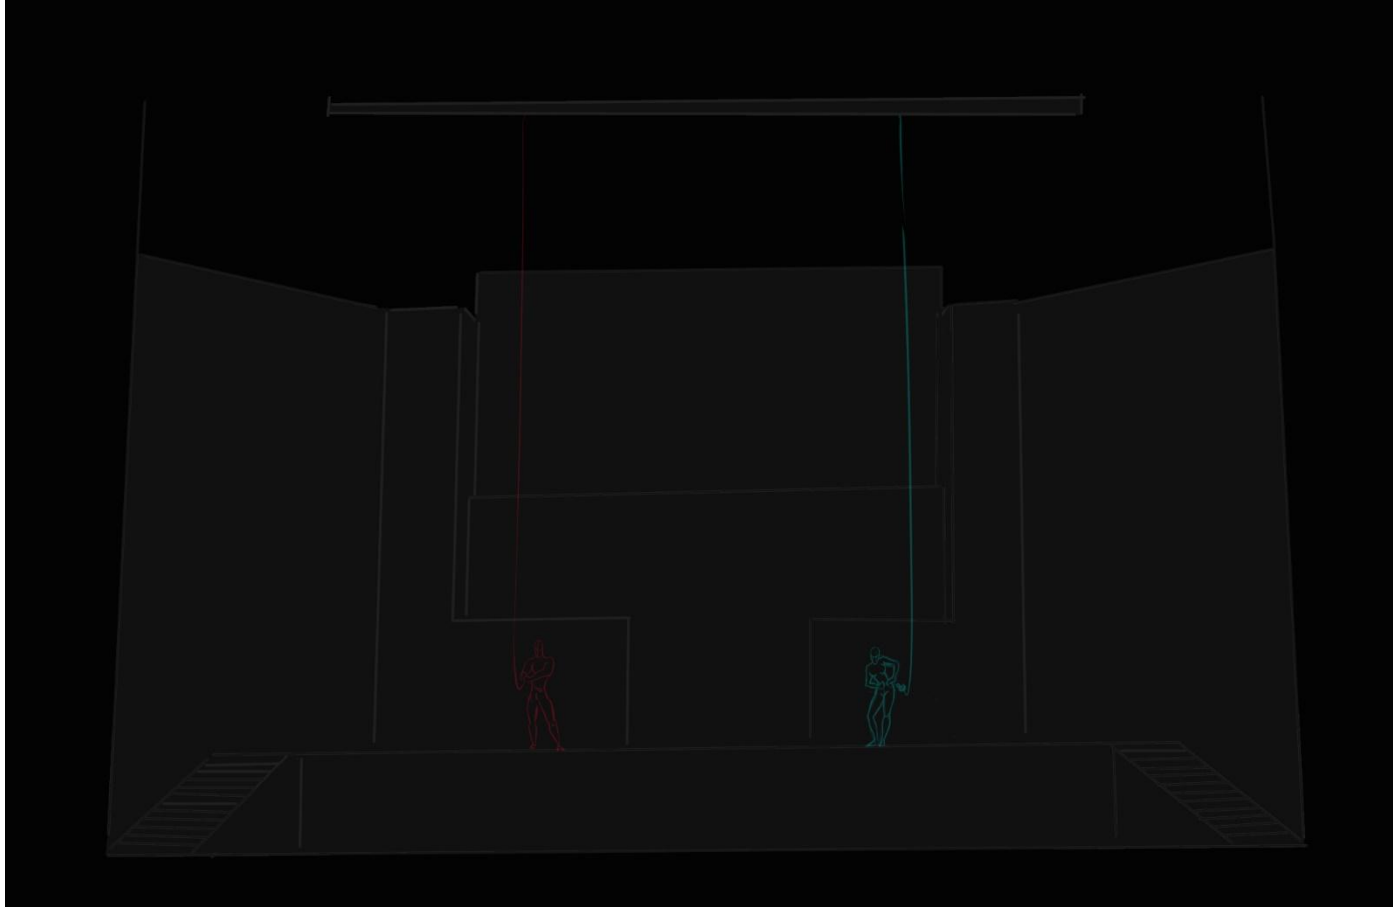

A monster beats
a tentacle on the
ground.

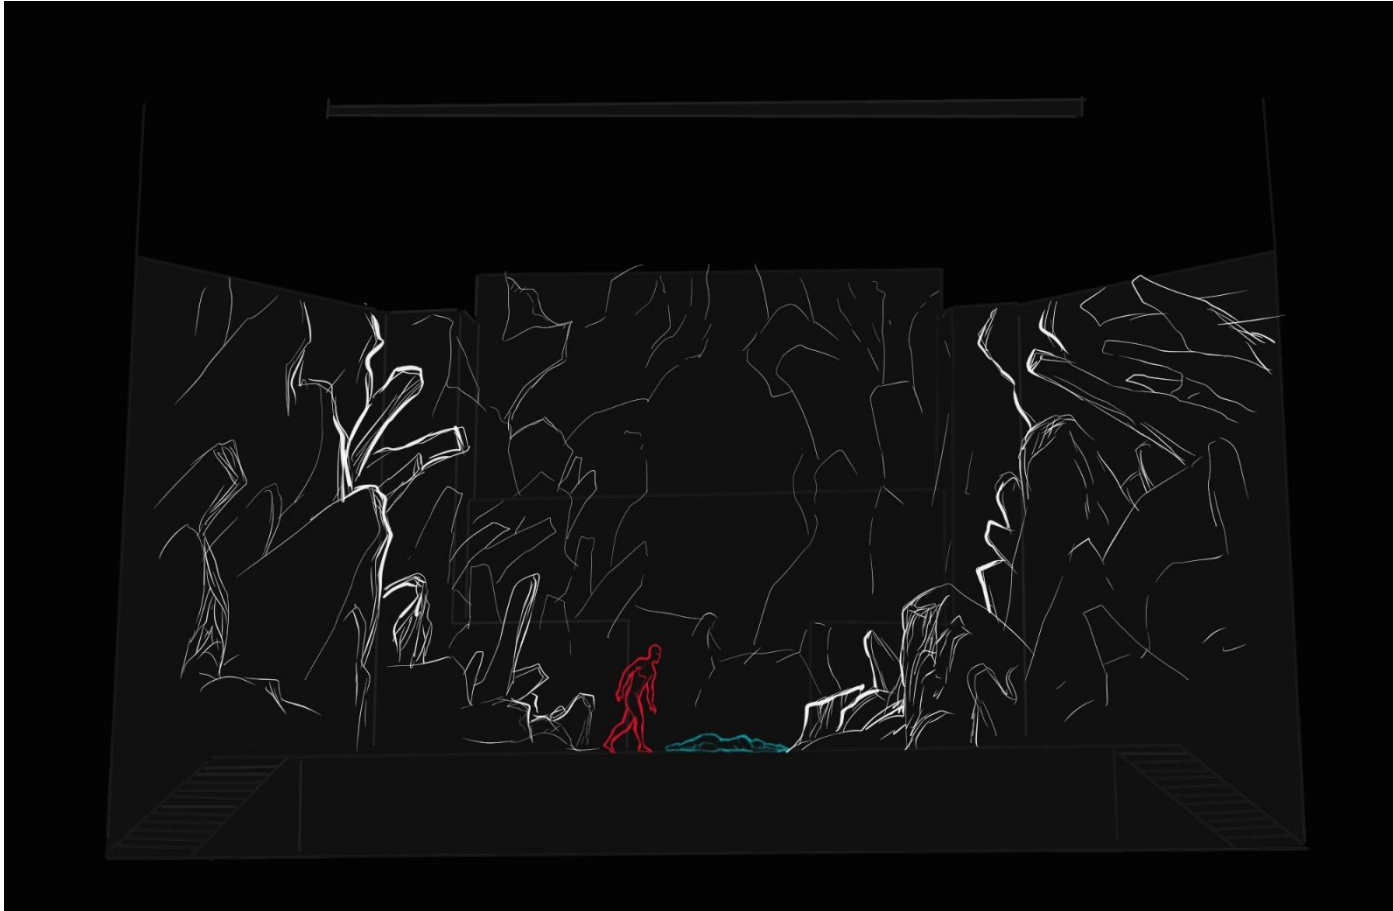

All are falling through the appeared hole in the ground.

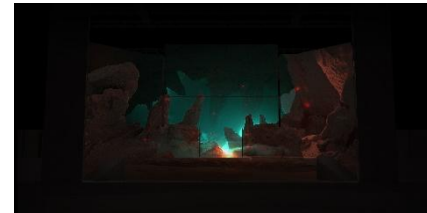

Max and Alivia fly down (on the screen, the movement of the fall in the well, Max and Alivia "fall" back to us. Winches). Max, using his power, forms interference for monster. Monster slows down, but then with a new force it breaks down obstacles. One of the landslides touches Alivia.

Max and Alivia
drown in the
darkness, moving
away from the
monster. Blackout

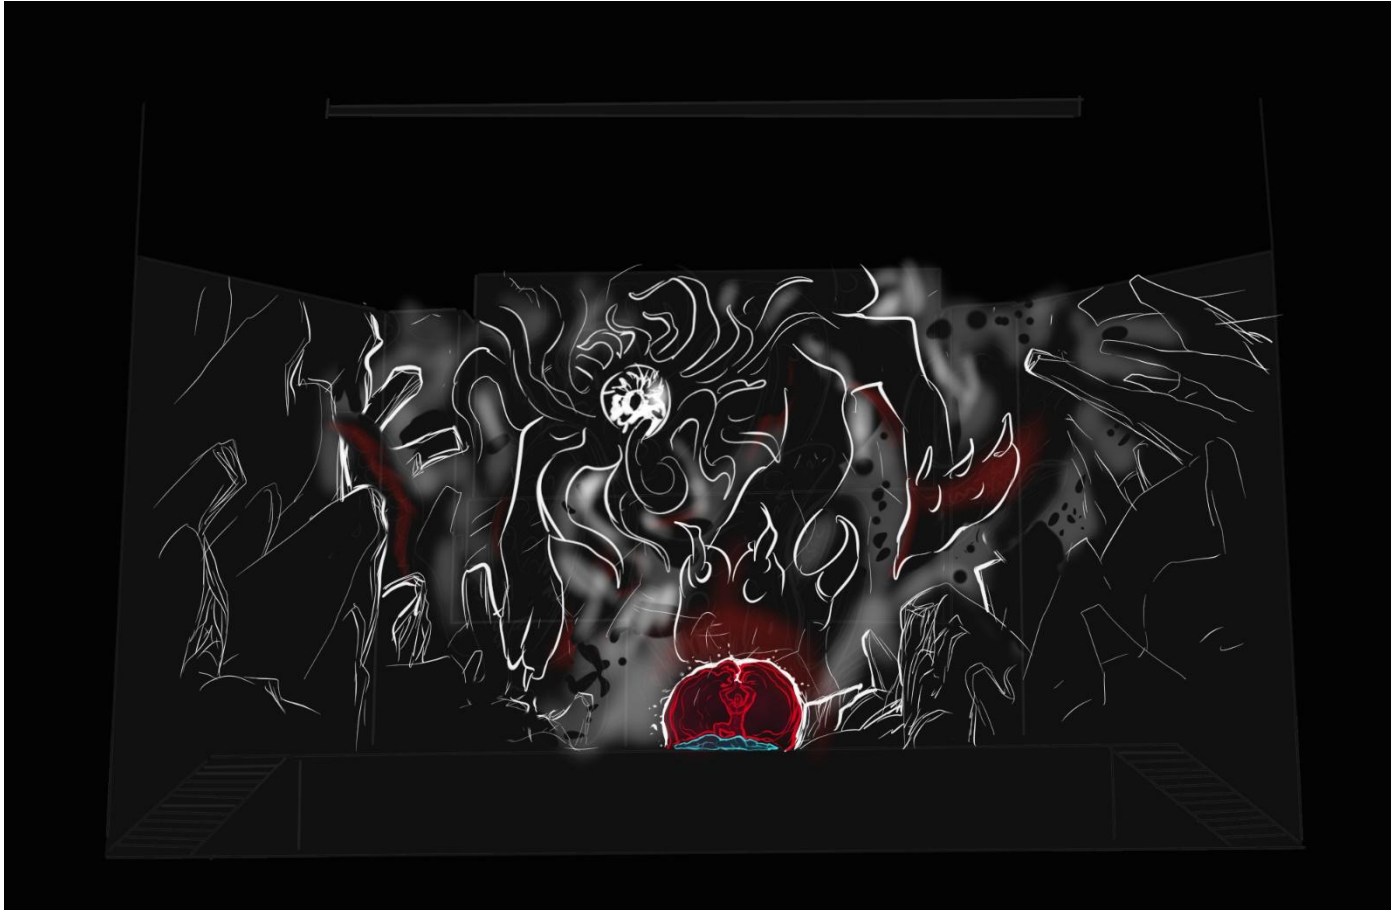

Alivia lies on the ground, Max runs up to her.

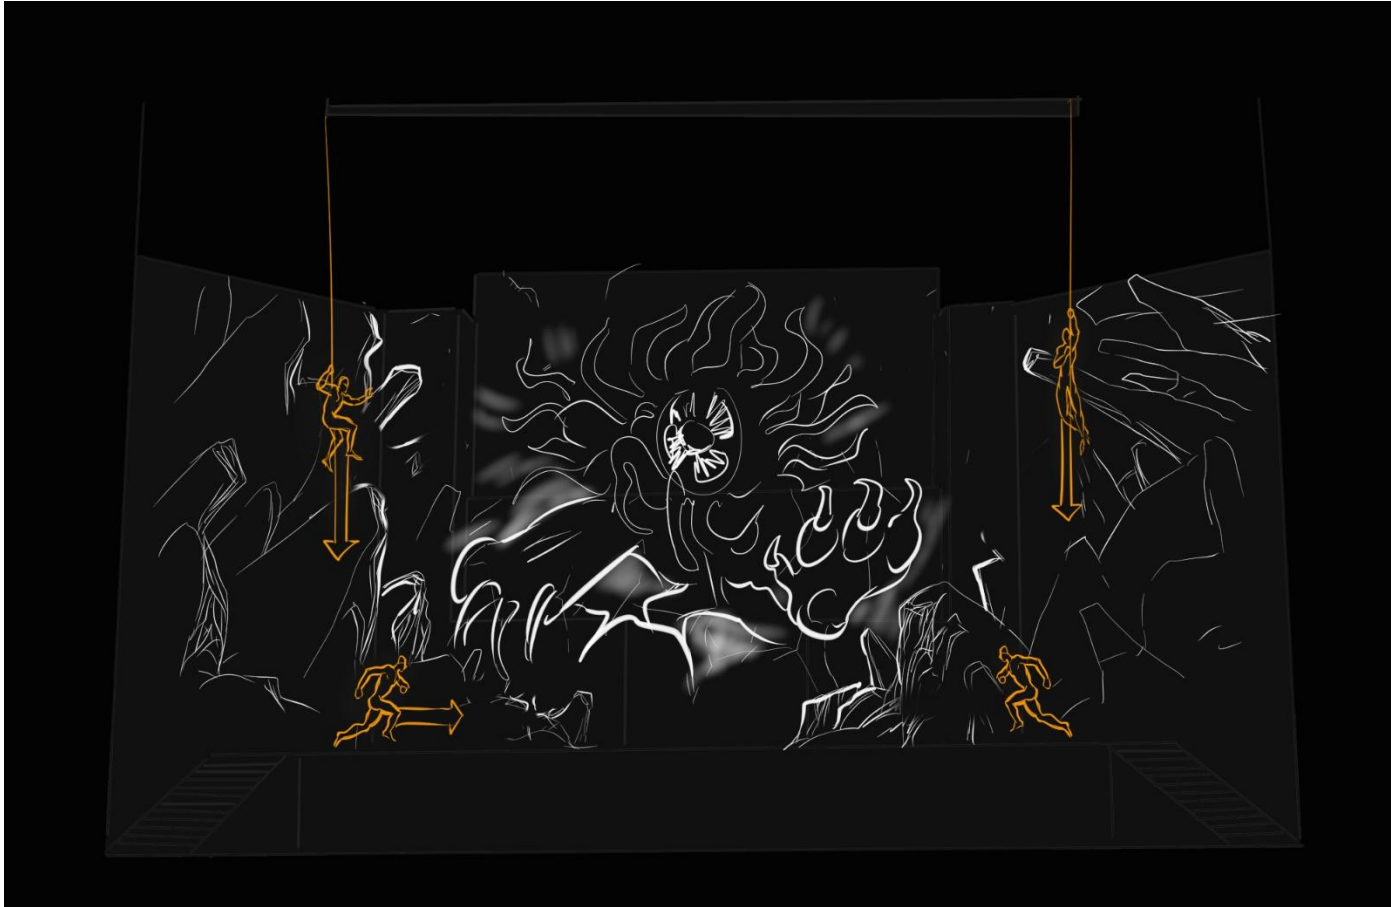

Monster enters the cave.

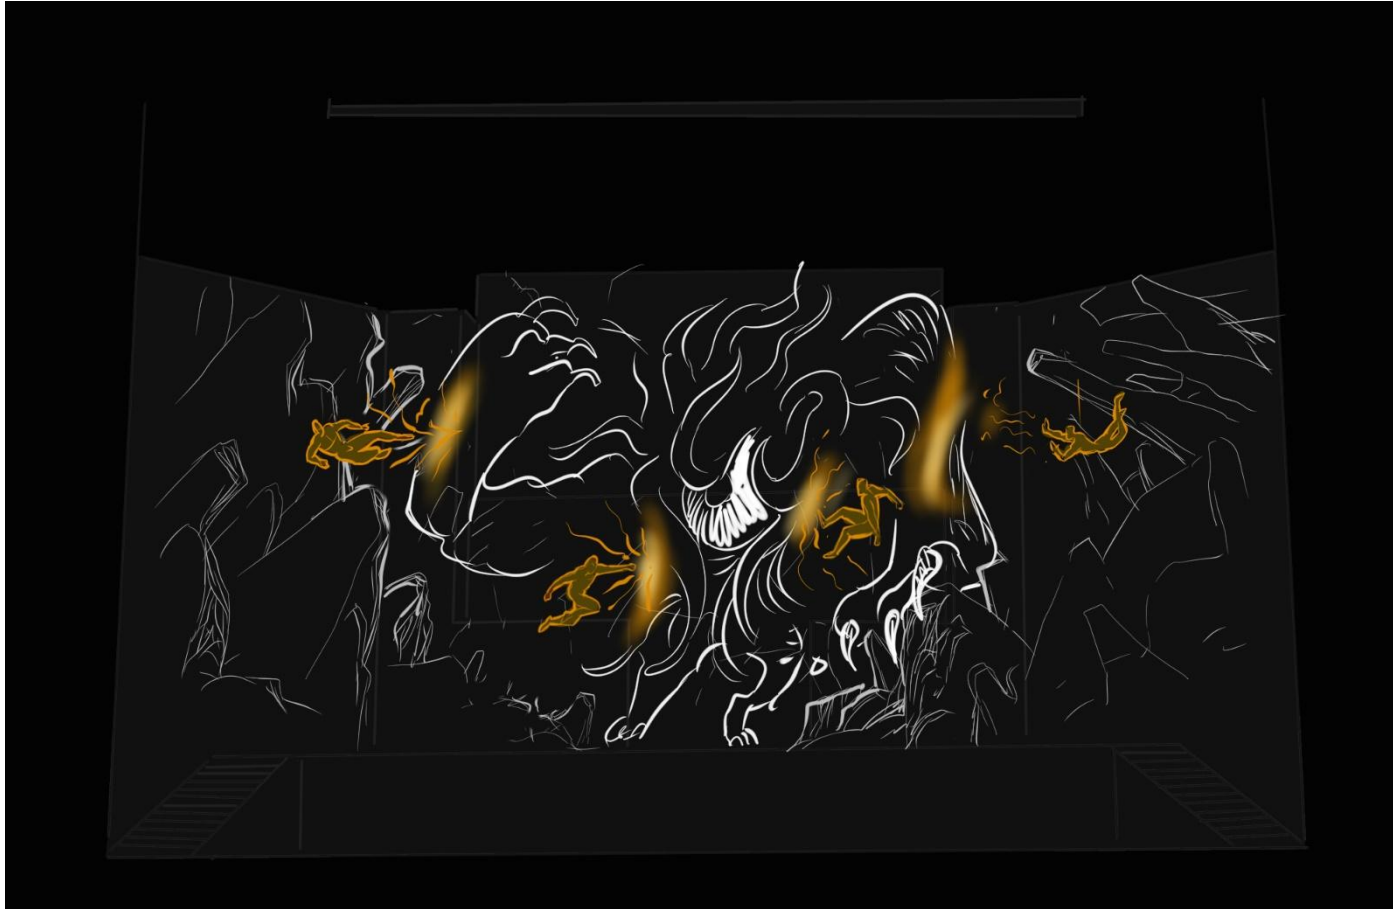

Max closes Alivia from the monster, forming a power shield. The tentacles of the monster are trying to penetrate the defense.

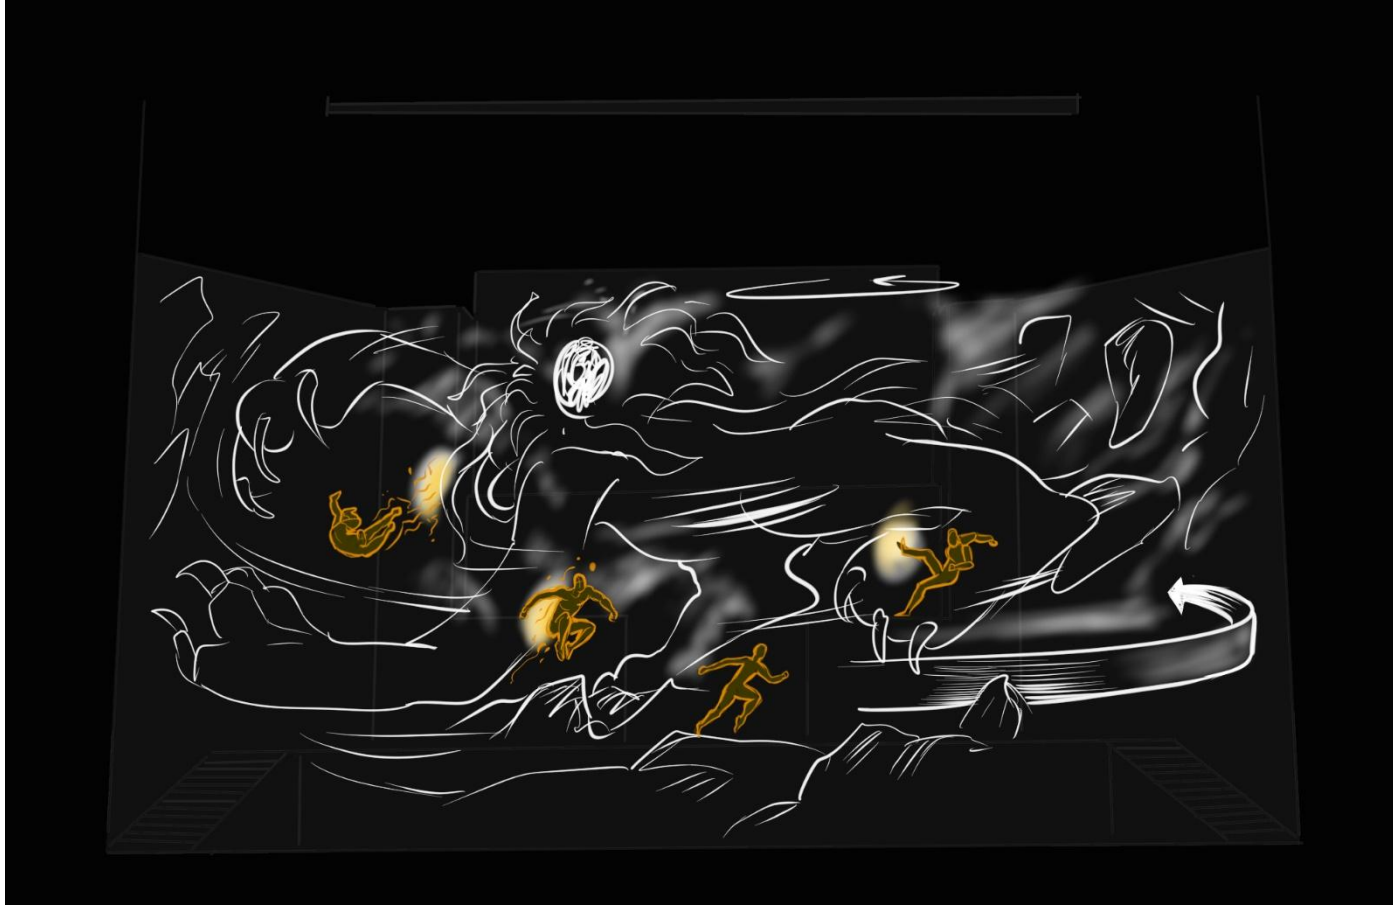

The shield is breaking. A bright flash, blinding Monster. Max and Alivia disappear under the ground.

Warriors go down on the winches in the cave.

They struggle with the monster (trampolines, winches).

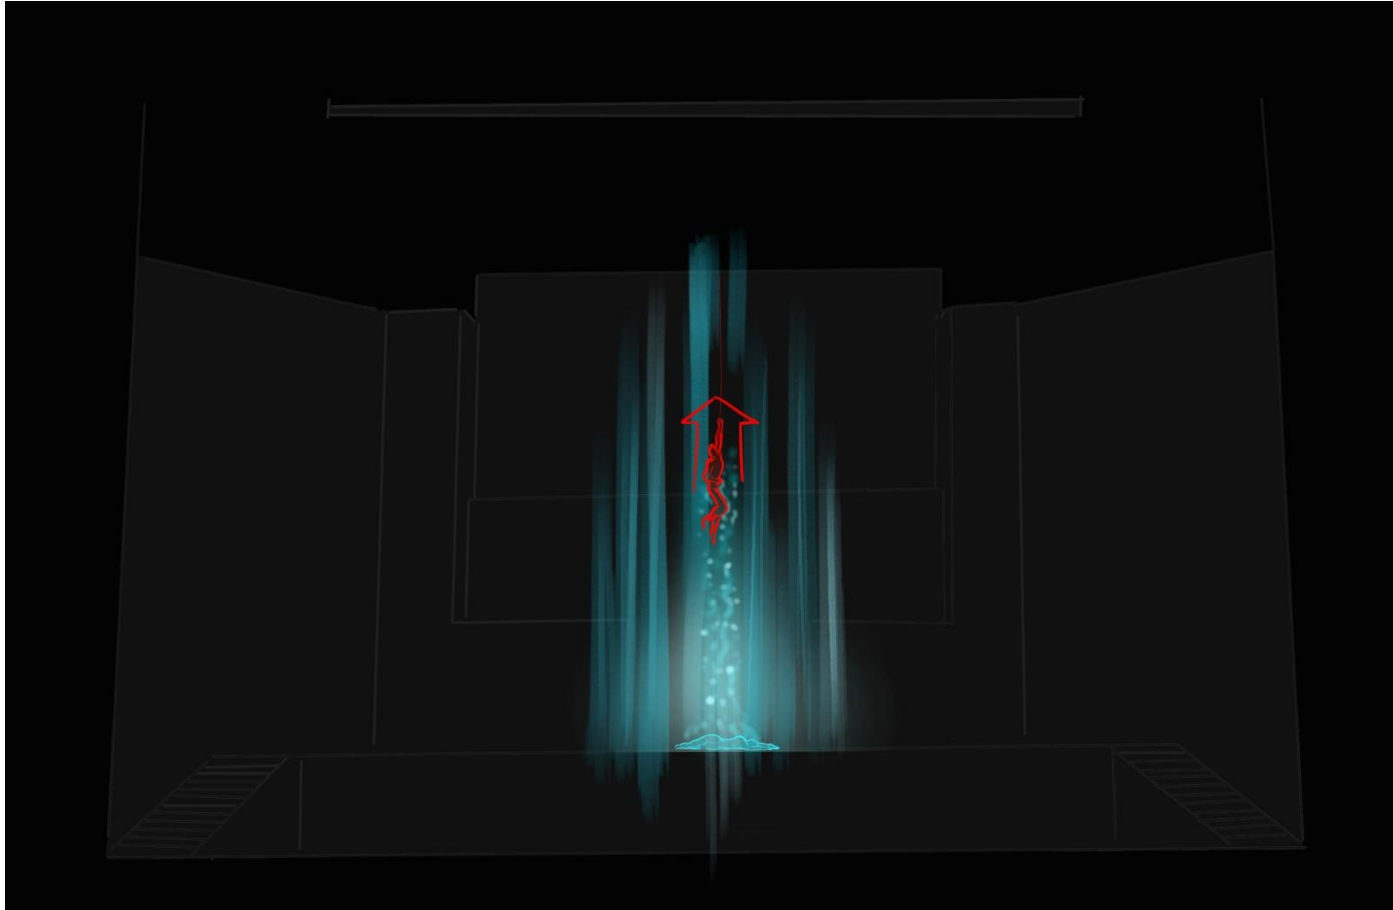

Monster attacks
warriors tentacles.

Tentacles of monsters appear from under the stage, several warriors fight with them. But the monster wins the battle, all the warriors are defeated.

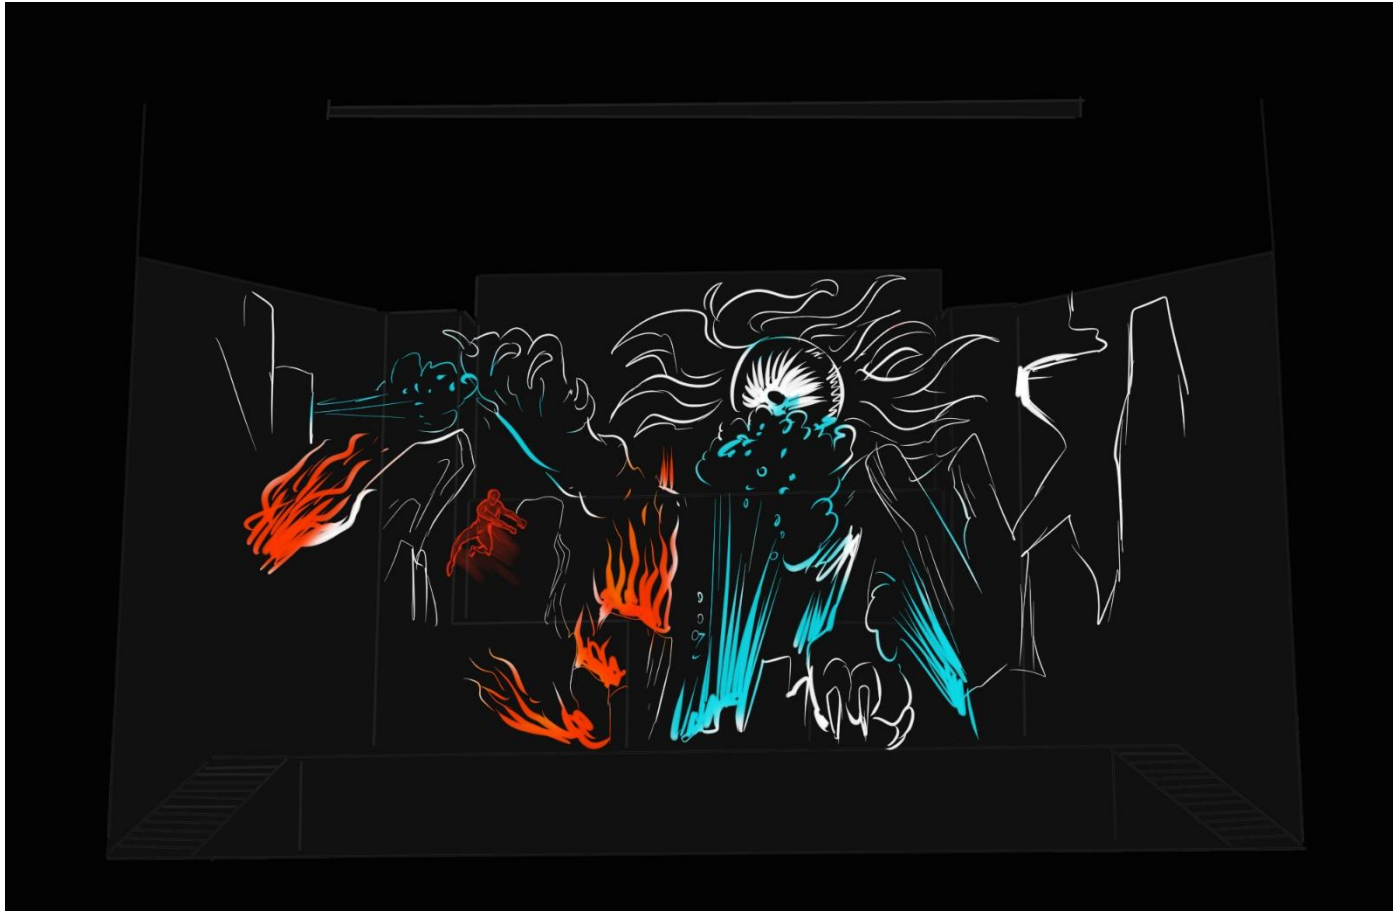

With the last blows of a talus, the monster splits a cave. (the camera frame in the graphics moves down below).

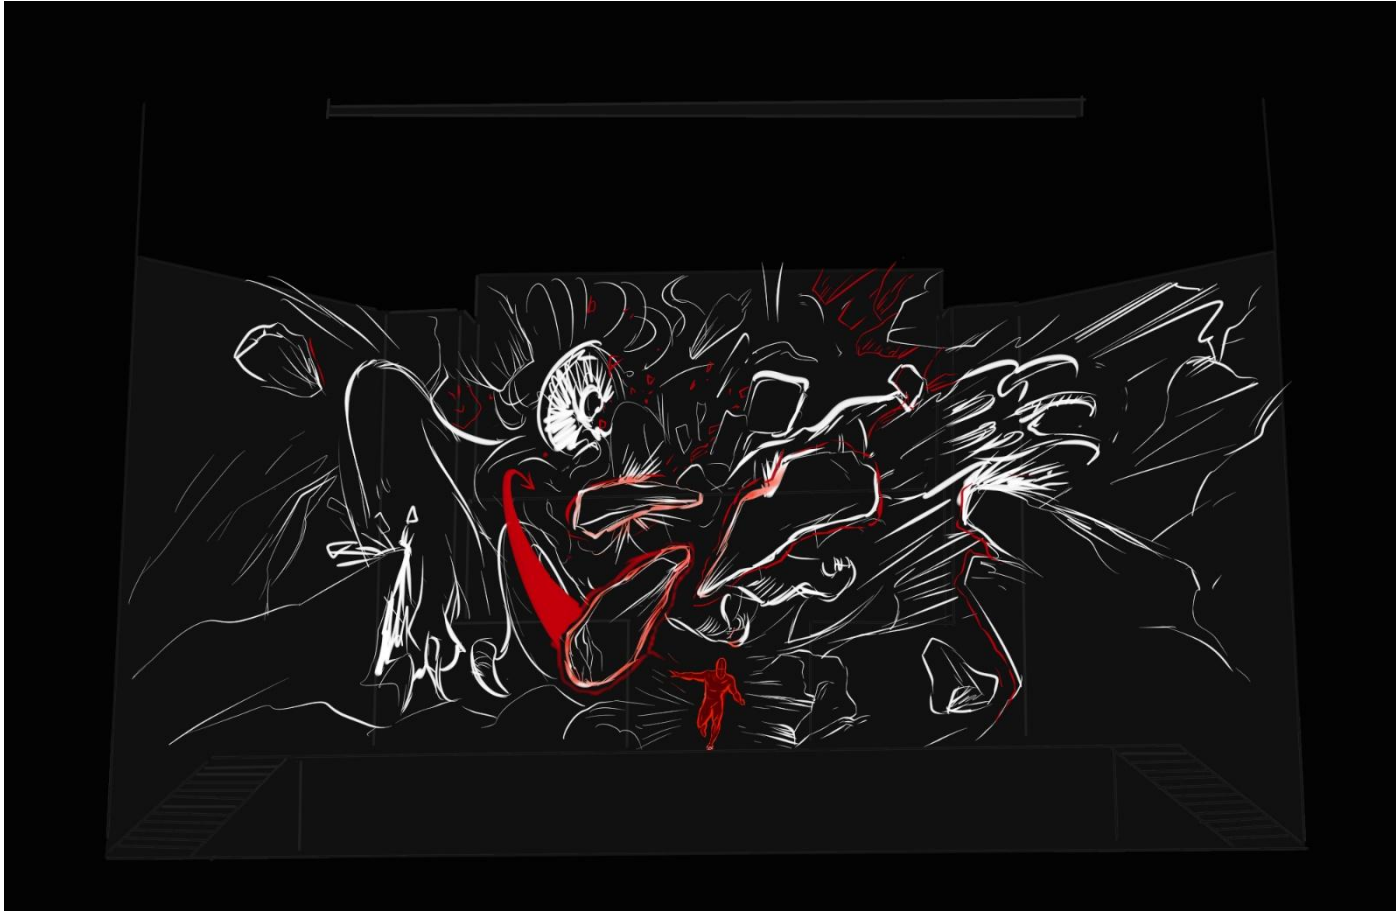

Streams of light fly up from the bottom up on the screen, Max soars in them in zero gravity (on the winch). On the land of Alivia which directs this stream to Max. The light on Alivia is extinguished. She shares her power with Max

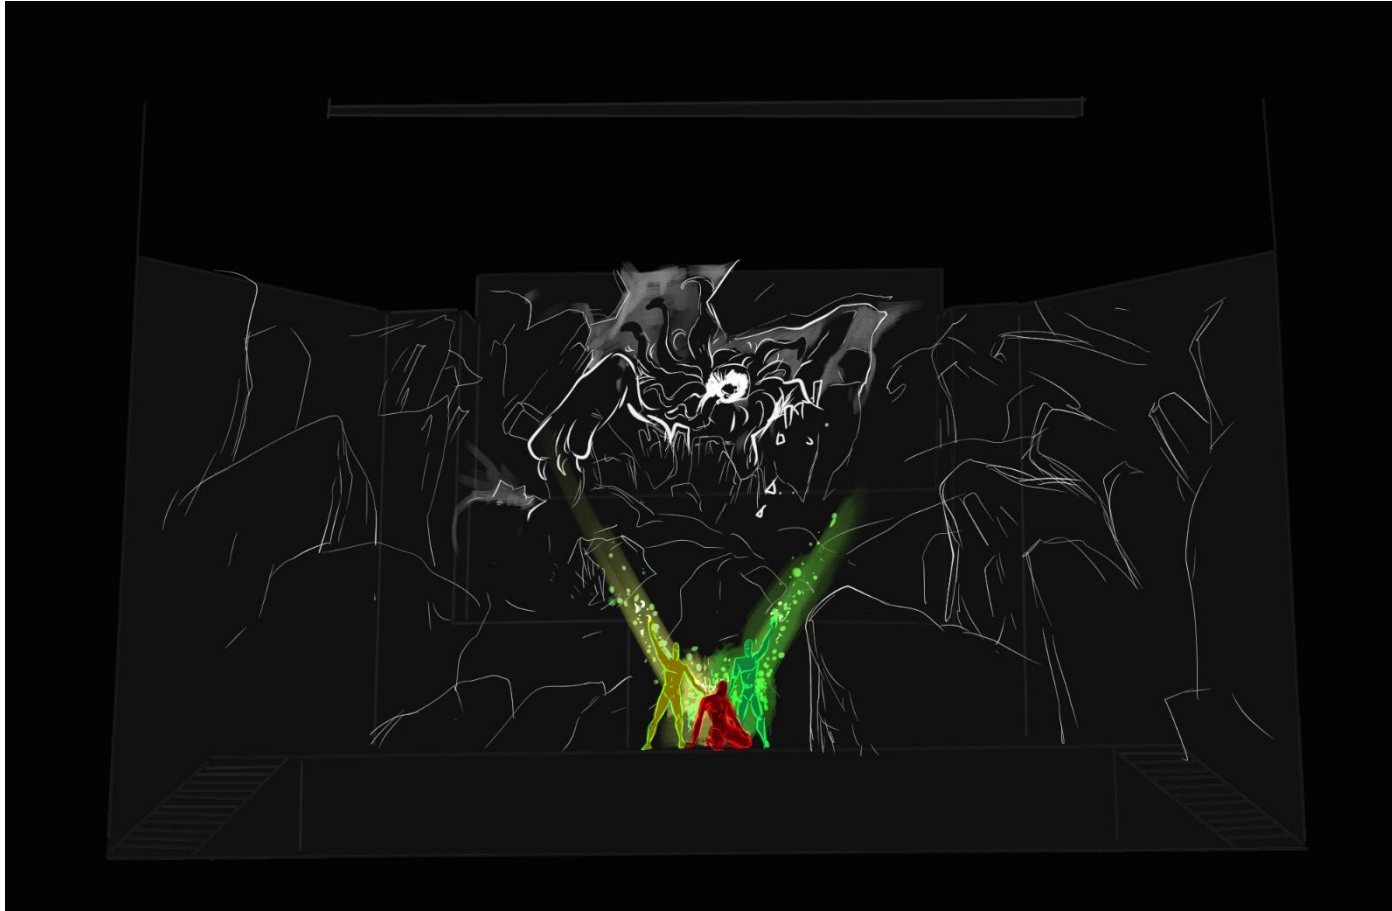

Max flies up to the ceiling (on the screen it rises up back where the monster is).

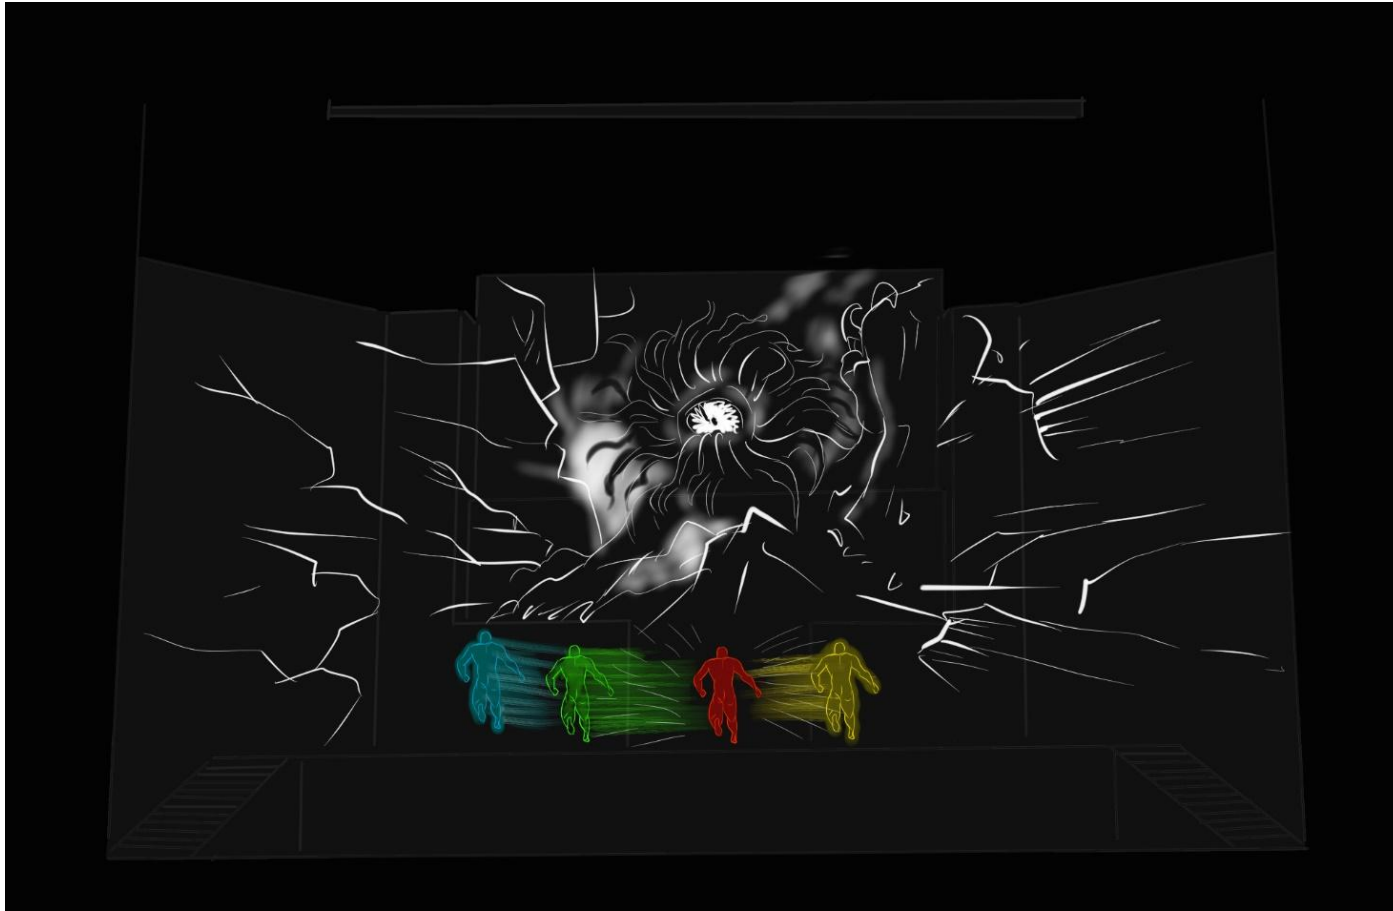

Max fights against the monster with the power of two elements, Fire and Water.

Max's forces fade away, he breaks free from the monster and falls.

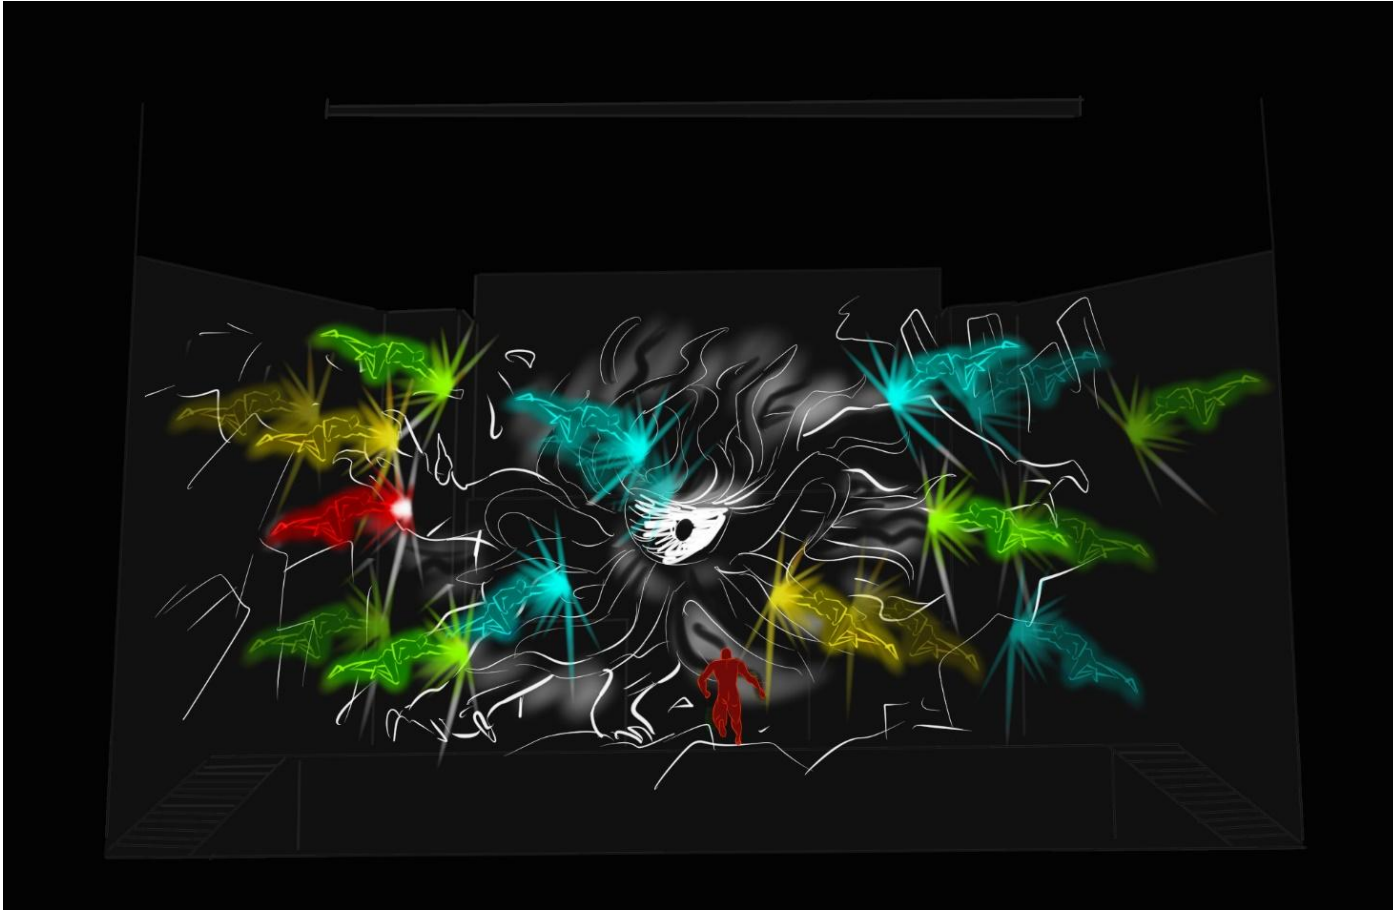

The guards burst into the cave and give the power of the Earth and Air to Max.

Max returns to the monster. His 4 elements power: Water, Earth, Air and Fire - materialize as Max avatar on the screen.

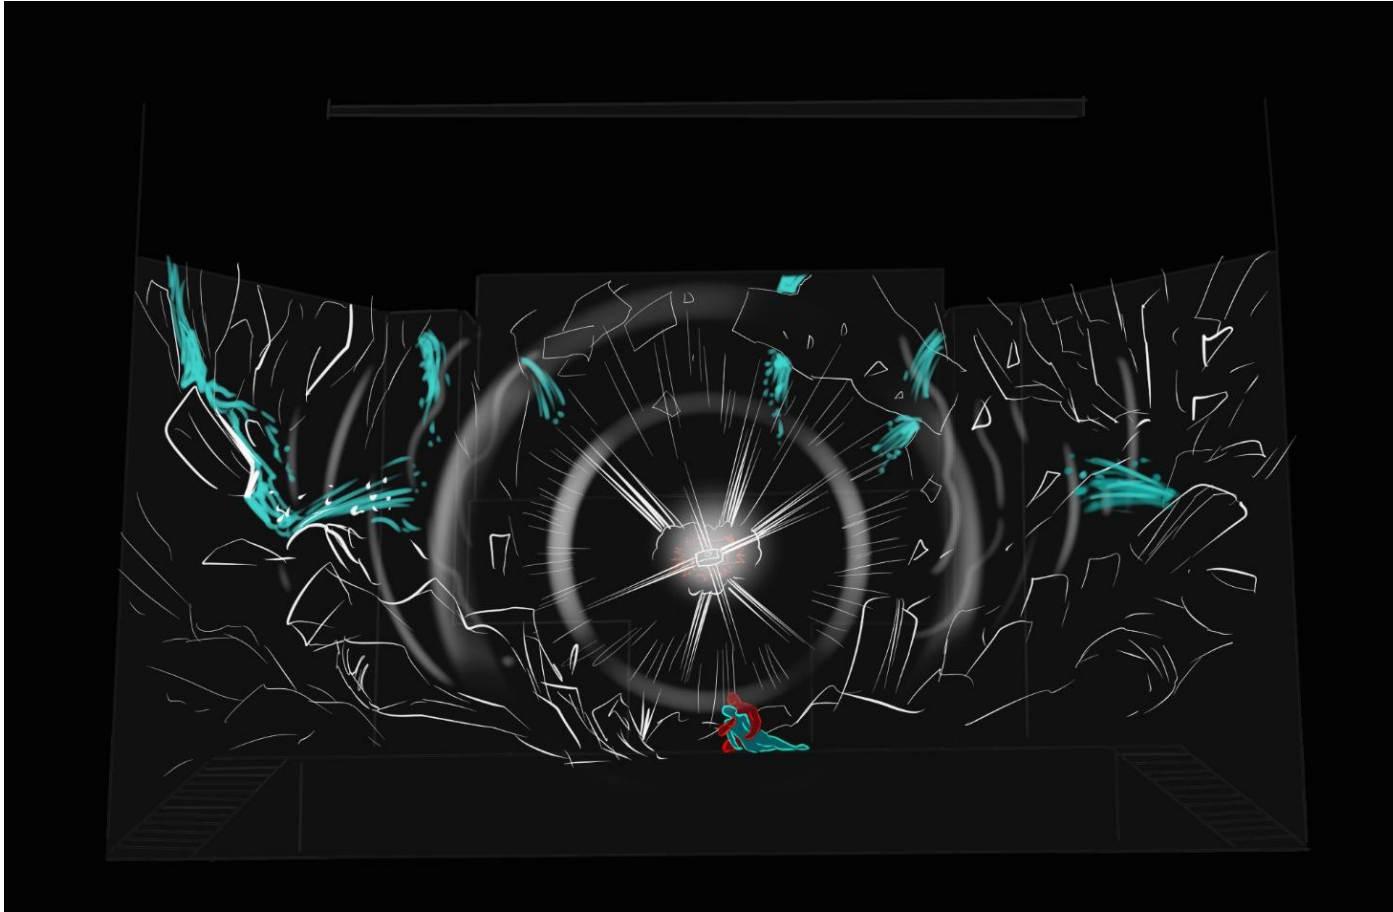

Evil appears on the scene and fights with Max.

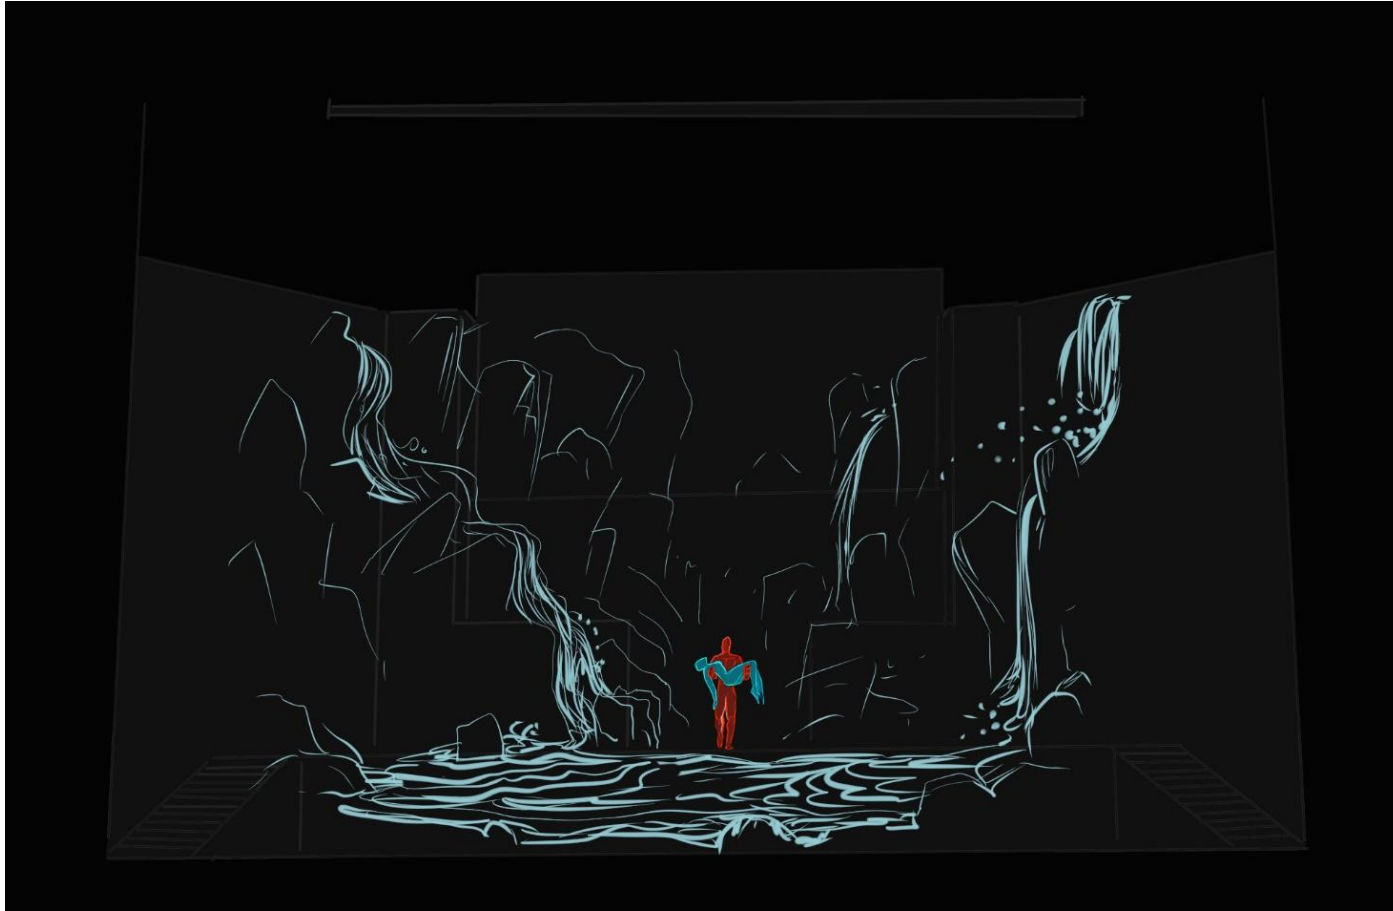

The elements on the screen multiply and fight with the avatar monster. Meanwhile the Evil fights with Max.

Max delivers the final blow - Evil falls and disappears, his spirit appears on the screen. Evil and his avatar monster are immersing in a magic box.

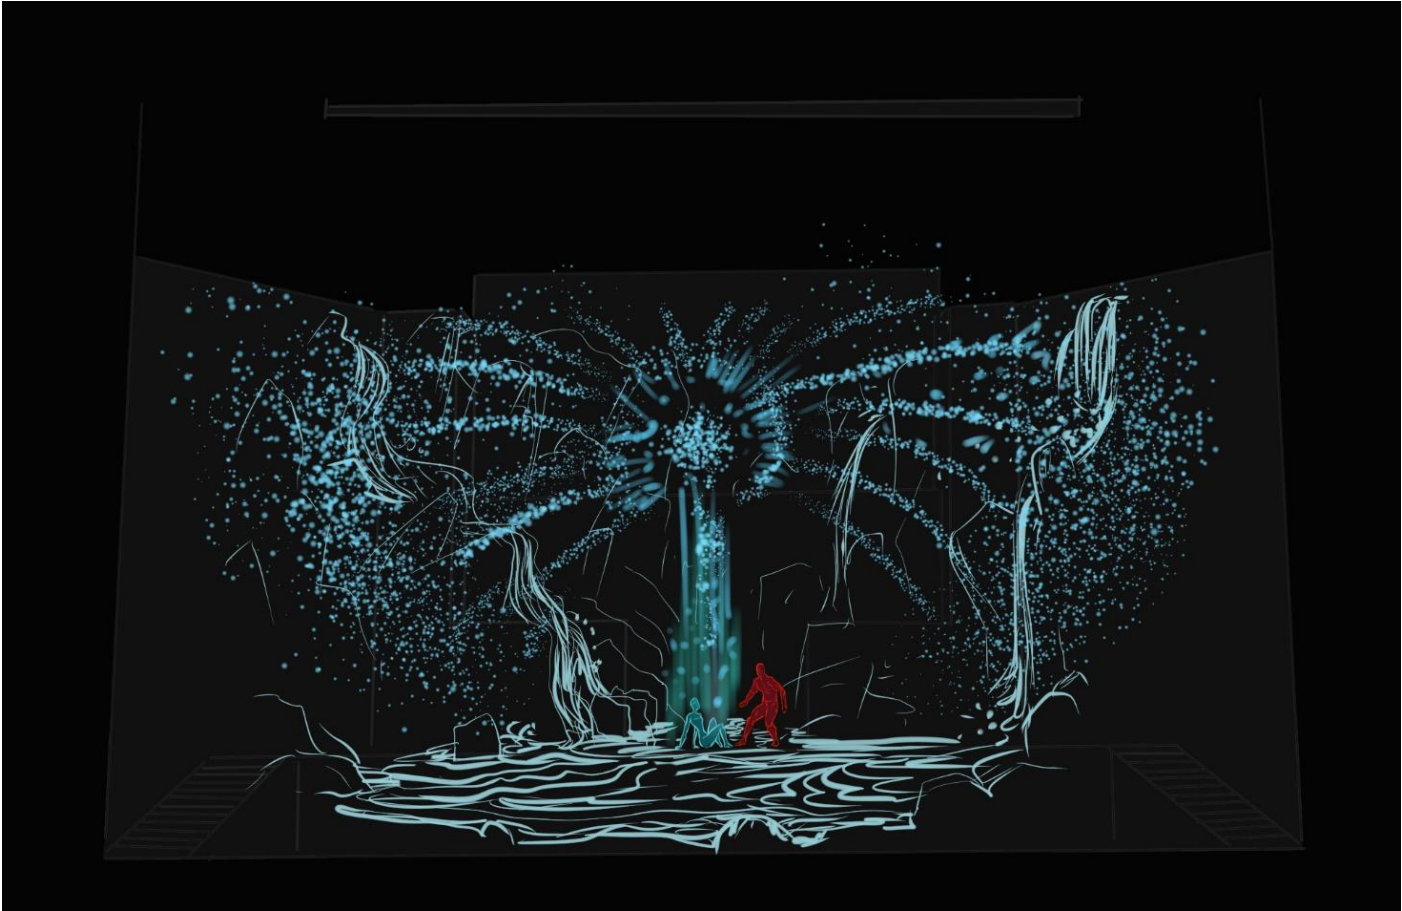

Max runs up to the place where Alivia lies, Casket flies after him. Max kisses Alivia. Love is the only one power to defeat Evil forever. Red crystals with the hands of Max disappear. The casket explodes into pieces, holes are formed in the cave walls, and water starts flowing from there.

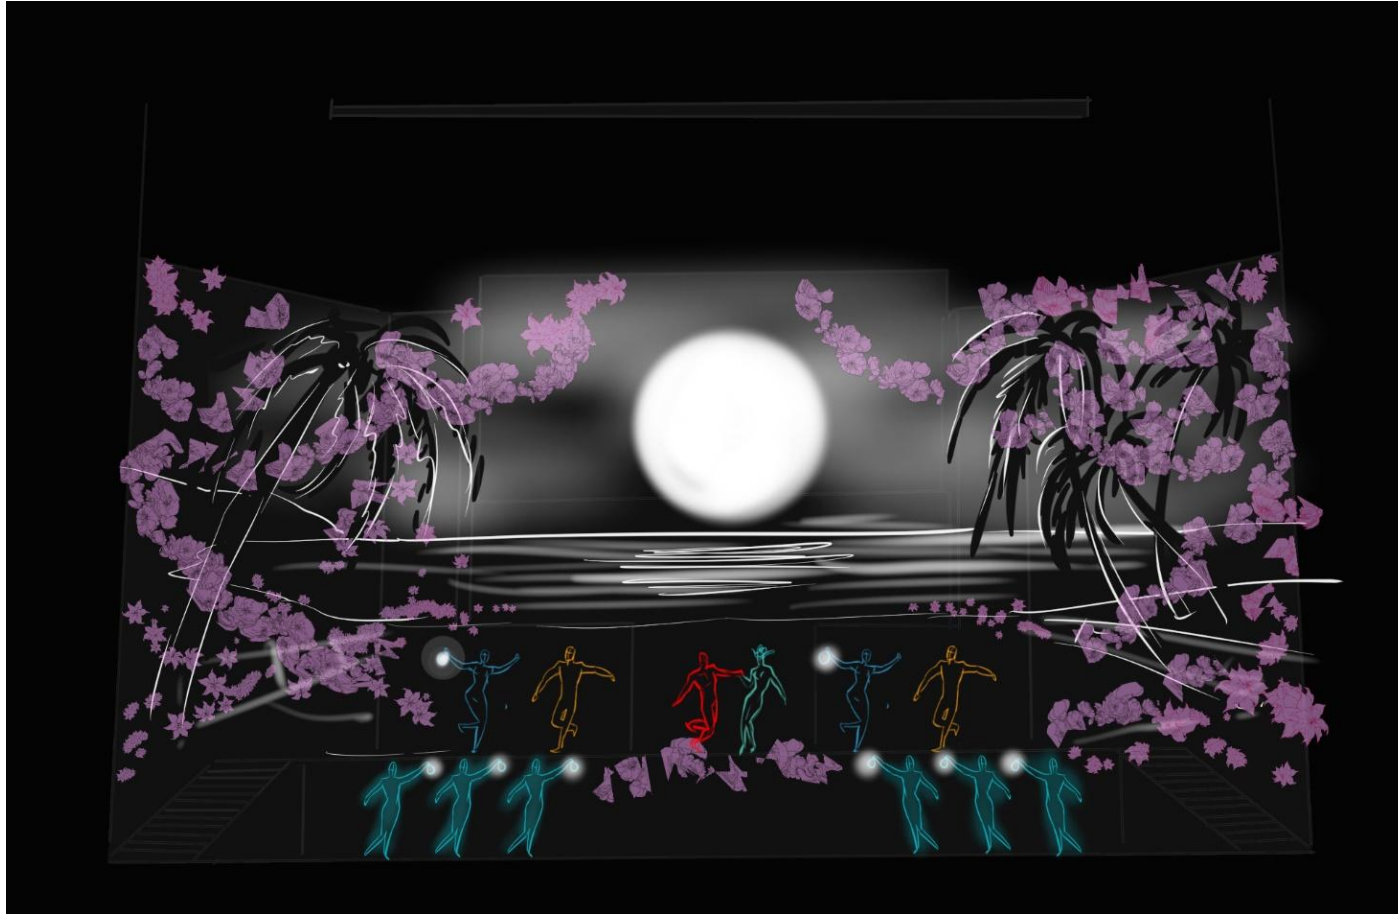

Water fills part of the cave, Max lifts Alivia and carries to the water.

Alivia comes to life.

The people of Nebula, the guards, Alivia and Max, at sunset, celebrate the victory over Evil. Neon flowers and plants sprout around them, lights come on.

Everything freezes
- the narrator
completes the
Happy end story.

Thanks
