Conclusions

I am going to be a restaurant or hotel manager after graduation from the university. I have chosen this specialty because it is interesting, modern and demand. Frankly speaking, I first realized, that I want to work in Hospitality Business in 9th form. My parents support me. This profession will give me an opportunity to find a good job and to make a career. But I understand that you should do all your best to become successful. Of course, I study well and I hope everything will be OK with my career!
